

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

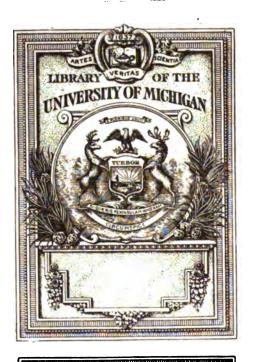

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

THE GIFT OF Concord City Clerk

### 1895.

### THE FORTY-THIRD

# ANNUAL REPORT

OF THE

### RECEIPTS AND EXPENDITURES

OF THE

# CITY OF CONCORD, H.

FOR THE YEAR ENDING

**DECEMBER 31, 1895.** 

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS RELATING
TO THE AFFAIRS OF THE CITY.

CONCORD, N. H.: Ira C. Evans, Printer, 12 School Street. 1896.

### MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should know that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts, and no order will be given for its payment.

When bills are certified to as above, and left with the city clerk before 12 o'clock of the day of meeting of the Committee on Accounts, they will be audited by them, and, if approved, be ready for payment on the Thursday following.

Meetings of the Committee are held on the Thursday next preceding the second Tuesday in each month, at 2 o'clock P. M.

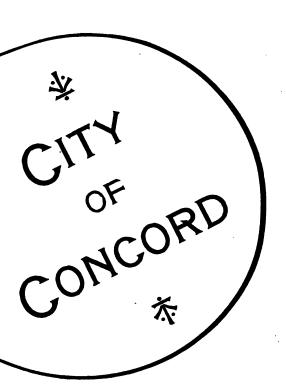

JOSEPH A. COCHRAN, City Clerk.

UNING.

Forty-third ... Annual Report

For the year ending December 31

...1895...

# MAYOR ROBINSON'S ADDRESS.

To the Honorable City Council:

The unbroken custom of forty years is my apology for this address.

It affords opportunity to express my gratitude for the high honor given me, and my profound sense of responsibility in assuming the onerous duties of this important office.

I have been repeatedly favored with public position, but have held no place of which I could be prouder than that of chief executive of Concord,—my native city, the home of my parents and my children, the beautiful capital of the Granite State.

It is with much gratification that I find myself surrounded in this organization with so able an association of my fellow-citizens. It is not flattery when I say that your combined ability, comprehensive experience, and ripened judgment are the greatest assurance that the mayor could have in the outset of his administration. Coming from the different walks of life, and representing, as you do, different localities and varying interests, you comprise a diversity of strength, and together constitute an almost insurmountable barrier to error.

We have amongst us those who were also members of the last city government, and their guidance and advice will be invaluable.

Our administration may not be so brilliant in achievement, but it can be diligent, sensible, and upright. No huge pile of masonry, at public cost, may insure our names to posterity, no pretentious statuary in bronze or stone may mark the little hour of our official service, no imposing dedications emblazon our fame, but we shall have won a grander success, a higher

encomium, if we administer municipal affairs quietly and in the most efficient and economical way consistent with the preservation of the city and the welfare of its people.

Parsimony is not always economy. If, however, upon a reasonable assessment of valuation, in conjunction with a salutary reduction of the city's indebtedness, we could succeed in cutting down the present high tax rate,—that would be the positive evidence, the practical proof, that the taxpayer has been actually benefited. Keeping in mind always the fact that the efficiency of the necessary municipal machinery must not be impaired at any point, there could be no opportunity better than the present for real retrenchment. It may be the popular thing for mayors to recommend, as a matter of mere administrative policy, but in our case the fact is that it is fast becoming an absolute necessity of municipal prosperity.

Suffering, as we are, in common with other communities, from the wave of general business depression, and with a city debt upon us that has rounded rapidly into a million, the problem that confronts us is indeed a serious one, especially for the larger taxpayers; and an earnest beginning should immediately be made in thrifty management of our city affairs.

I do not advocate the policy of niggardly salaries, or inadequate wages, nor do I believe in paying more than the same character of work would command in private business, but we are just now confronted with an unfortunate condition of things which requires, temporarily at least, that all public expenditures be brought to the lowest point that will insure proper protection against fire, and the maintenance of good highways, and such other facilities as are essential to our best well-being and uniform progress. We must scrupulously discriminate between wants and needs. The city's sound financial basis has been the rock of its stability and success.

Almost every department of our local government is asking for appropriations exceeding those heretofore granted, and, while these petitions are not to be peremptorily refused, they certainly, under the circumstances call for the most cautious scrutiny and consideration. The people are willing to be assessed for public expenditures, but whether it be tax upon real estate or a mere poll-tax, the taxpayer wishes to feel assured that the assessment is judicious and seasonable, and that an equivalent is being rendered for the money paid, and that it is being prudently, consistently, and wisely expended. I wish that not only the several committees that will be appointed from your body, for convenience in the conduct of public business, but that every one of you would feel, individually, the burden of responsibility that must rest upon us all.

\* \*

The reports of the several heads of departments are in press, and will soon be in your hands for your edification and instruction. To anticipate them might be presumptuous; to criticise them would certainly be premature. I would urge that you give to them in every detail the closest examination, comparing them, item by item, with similar reports of former years, to the end that we may enter upon our duties with all the information available as to the different subjects upon which we may act.

The ordinances of the city have been revised for convenience, and these also will be in your hands to guide and instruct you. They contain eliminations, changes, and additions, including slight increases in some salaries, and should be carefully read and thoroughly understood by every member of the council, in order to facilitate to the best advantage our formal proceedings.

While we should have a conservative administration as to expenditures, we must strive to have an energetic and progressive one in other respects. The people expect much, and have a right to expect much, of us. Concord is not yet a back number. The proverbial grass is not to grow in our streets. We must be ready to do our part on public occasions, and encourage such visitations to our city as are to its advantage, and carry forward, as far as within our mission lies, any worthy enterprise that our people may believe to be for their legitimate enjoyment and best material interests. Our term

of office falls at a time when advancing civilization will admit of no old-fogyism. The watchword of the hour is progress, and this city must take no backward step. If it is to be kept in the fore-front of the van of progressive municipalities, it must have in its city council, as well as in command of its various departments, men of energy, of willingness, and adaptability. of courage, qualification, integrity, and conviction,—thoroughly awake to modern methods and appliances, and all that pertains to the substantial progress of the very intelligent community which has preferred them.

. .

We come upon the stage at a time when the great problem of correct municipal government is receiving conspicuous attention. A third of the population of the country reside in the cities, and the four largest municipalities contain nearly one tenth of the population of the United States. In 1790, only one thirtieth of the population lived in cities of 8,000 inhabitants and over, and this increased till, in 1880, when 22.5 per cent., or nearly one fourth, resided in cities. From 1790 to 1880, the total population increased twelve fold. the urban population eighty-six fold. From 1830 to 1880, the whole population increased a little less than four fold, the urban population thirteen fold. From 1870 to 1880, the whole population increased 30 per cent., the urban population 40 per cent. During the half-century next preceding 1880, city population increased more than four times as rapidly as that of the village and country. In 1800, there were only six cities in the United States which had a population of 8,000 or more. In 1880, there were 286, and in 1890, 437. It has been estimated from reports and semi-official data that the increase of rural population from 1880 to 1890 was only 8 per cent., while that of the urban population was more than 57 per cent.

This remarkably rapid increase of population in the great nerve centres of civilization has brought us face to face suddenly with the momentous problem of civic management, which has only recently become a burning subject in popular consideration. It is a vital national question. Upon the conduct of the affairs of our cities must depend very largely the government of the whole country. While they are the storage batteries of science, literature, and art, they are also the storm centres of dangerous elements.

During the recent political campaign thousands of men, in different states, associated themselves together in good government leagues and clubs. Many of these were partisan organizations which will now become disbanded, perhaps to reconvene when political exigency suggests; and the loud agitators who led in the spasmodic movement, whether for personal popularity or party control, will remain quiescent for a time, or devote themselves to other fields of labor; but good civic government will prevail. The agitation that has been brought about, the changes that have been accomplished, the lessons that have been taught, the reforms that have been wrought, the interest that has been incited, have had a marked effect for good, and hereafter, in every city of the Union, the management of its municipal affairs will be watched with a keenness of interest never before so universally felt.

The reformation in the larger cities should be to our benefit. We should learn wherever there is anything to be taught, and adopt any improvements that might be to our advantage and within the purview of a reasonable economy.

The problem of municipal government is perhaps second in importance only to the labor question, a correct settlement of which I believe to be vital both to the peace of society and the prosperity of business. You will pardon me for reminding you that whatever of majority or plurality you and I may have received at the recent election, was due largely to the votes of the wage-earners of this city, and it is not only their right and our duty, but imperative, that we keep steadily in mind the truth that the credit for whatever of success this city has attained, rests very largely upon the broad shoulders of the workingmen. They have been its mainstay and dependence in the past, and to them we must look more especially for the development of its industrial enterprises, its granite

quarries, and other resources, in the future. Our administration would gain in dignity and power by being kept close in touch with those valiant souls who have been kindly styled, "the plain people." The deluge of taxation, wherever it may seem to rest, will sooner or later trickle down onto their backs, and be paid in the sweat of their brows.

\* \*

I hope that the mechanics and the laboring classes generally will take an interest deeper than they have heretofore, in the conduct of the city business, and feel that our local government is not for any political party exclusively, or for any faction, or clique, or man, but for every resident of the city, high and low. We are the agents and servants of the whole people,—anxious to inspire their confidence, to heed their advice, to hold their respect, and to win their commendation.

They must remember that the matters with which we shall have to deal are not of concern to us alone, but pertain alike to our constituents, whose sympathy and co-operation we solicit and have the right to expect and rely upon. Somebody has well said that a municipality, to thrive, needs the vivifying and uplifting force of every citizen. When the attention of our people is once fully attracted to a question of municipal concern, and they set to thinking earnestly upon it, they very soon evolve something desirable, and the difficulty is overcome.

\* \* \*

The city contracts should be let to, and all work here done by, resident workmen, as far as practicable, an equal opportunity being given all responsible bidders. If the street department, or other branches of our local government, could give the deserving unemployed of our own city, work that would be useful to us, it would be a happy consumnation.

There will undoubtedly be manufacturing and other industrial enterprises which we can foster and encourage, not perhaps with appropriations, but with co-operative sympathy and that cordial public-spiritedness which is so valuable and effective when evinced by persons in authority, especially members of a city government.

An unvarying courtesy toward one another, and a generous hospitality toward strangers will be very helpful. Nothing characterizes a city more favorably than gentlemanly and obliging conduct in its officers and employés, and I earnestly invoke the heads of all departments to insist upon decorum and politeness on the part of every employé of the city. There is nothing in the past to complain of in this respect, but I should be pleased to have our administration conspicuous for its courteousness and our evident desire to accommodate the public, and serve the people promptly and faithfully in every position of trust and confidence.

. .

It will be my duty, from time to time, to give the council information relative to the state of the city, and I shall recommend to their consideration such measures as I may deem expedient, and as occasion may seem to require.

Calling upon the heads of the several departments, I have found them cheerful and obliging, willing to furnish any data within their power, and seemingly anxious to co-operate with us for the public advantage.

Mayor Cogswell has been exceedingly courteous. The relations between us are very amicable, and I hope to be able to retire from this office in the popular favor in which he is held, as an upright, cultured gentleman, a loyal citizen, and a painstaking and industrious officer.

• ~ •

I do not assume now to understand the city's affairs in detail, but my first great duty and chief study will be to acquaint myself thoroughly with them.

I am informed that, of the very large expenses incurred by our city precinct for the rebuilding of the state house, all of the debt has been liquidated, with the exception of a balance of \$17,000.

Of the general city debt, there are bonds outstanding, issued for various purposes, and which mature in 1895, \$3,000; and bonds issued for building the police station, \$17,000; for widening Pleasant street, \$13,800; for memorial arch, \$20,000;

for lower bridge, \$20,000; for public land adjacent to state library building, \$25,000. These mature at different times.

The building of the Loudon bridge, or what is generally known as the Free bridge, was provided for by issuing notes of the city amounting to \$17,850, of which \$9,600 matured in 1894, and have been paid; \$8,250 will mature during the present year.

The building of the Horse Hill bridge was provided for by the issuing of notes amounting to \$10,000, which will mature in 1896.

There are outstanding water-works bonds amounting to \$675,000 and a temporary loan of \$15,000.

\* \* \*

The income derived from the water-works is more than sufficient to meet the current expenses of the service and to pay the interest on the total debt. In many cities the water-works are owned and controlled by private corporations, while we own our entire system, subject to the bonds outstanding. It is estimated by individuals that our water-works could be sold at a sum that would exceed the entire indebtedness of the city, but this is an unsafe premise, and certainly not one upon which to predicate extravagance. The water rates are none too low, and the probability of further expenditures in the water-works is too imminent for a speculative valuation.

The outstanding bonds which have been issued on account of sewers by the city precinct amount to \$41,000.

Of the \$116,000 of bonds issued in 1889 for the purpose of building the High and Kimball school-houses, there remain unpaid \$106,000.

Of the bonds issued on account of building the school-house at Penacook, \$2,500 remain unpaid.

The bonds which were issued on account of sewers in Penacook will mature on different dates between 1898–1900, and amount to \$24,000. Provision is made to meet these bonds as they mature by a sinking fund which now amounts, with interest, to \$3,289.60.

There is also a bonded indebtedness for constructing sewers at West Concord, which amounts to \$17,000, with similar provisions for a sinking fund as in the case of the Penacook sewer bonds.

I do not propose to annoy you at present with any tables of statistics, but for the year last past the total receipts, including the balance on hand January 1, 1894 (not including the water-works), amount to \$422,518.17. This includes bonds, notes, and cash on hand. Of this amount has been expended for various purposes \$404,033.78, leaving a balance in the hands of the treasurer of \$18,484.39.

. \* .

From these figures it may be learned that the entire bonded indebtedness of the city, including the water-works, precinct, and school district bonds, amounts to \$986,300.

The last issue of bonds has been sold at the rate of three and one half per cent. per annum, which shows the credit of our city to be unimpaired, for there are only few places in New England that have been enabled to place their bonds at so low a rate of interest.

It would, perhaps, be interesting in this connection to mention the fact that ten years ago there were only sixteen trust funds, while the city treasurer's report for 1894 shows that the number has now reached eighty-two, which indicates that our citizens appreciate the opportunity afforded by the city for the perpetual care of funds intrusted to it. Many of these are mortuary funds for the purpose of keeping cemetery lots in good condition, and such precautions on the part of testators should be encouraged.

\* \* \*

While our valuation increased only \$867,744 from 1883 to 1893 (8 per cent.), and our ratable polls gained in number only 564 (14.75 per cent.), the amount of tax jumped from \$169,498.95 to \$204,585.27 (20.7 per cent.), and the total expenditures advanced almost uniformly, step by step, year by

year, in almost every department and item, from \$200,715.80 in 1884 to \$404,033.78 in 1894, an increase of \$203,317.98 (101 per cent.).

The city pauper account was changed, and the interest on the state house loan lessened by payment or other arrangement, but otherwise the current expenses have grown startlingly, the cost per capita for local government in Concord being now \$12.03 per year; and if an average were made of the precinct alone, it would be still greater.

. \* .

	1884.	1894.	Increase.	Per cent.
County Paupers	\$1,998.46	\$4,700.00	\$2,001.54	135

Total Expenditures	\$200,715.80	\$404,033.78	<b>\$</b> 203,317.98	101

Sewers varies from \$1,709.01 in 1884 to \$31,662.83 in 1892, and was \$19,870.36 in 1894.

Since the recent election the retiring city council has passed a very important and comprehensive fire ordinance, which reorganizes the fire department throughout, and puts its membership and management under the control of a permanent chief, who is under obligation to devote himself exclusively to the duties of his office, receiving a salary therefor of \$1,200.

Although this ordinance is probably modeled after similar enactments in other cities, yet its practical adaptation here, under the circumstances, is, of course, problematic.

This ordinance has been supplemented by an ordinance creating an electrical department, with an expert at a salary of \$1,000. The high character of the gentlemen who have introduced these measures entitle them to impartial consideration, but the maintenance of the fire department, under their provisions, will increase the running expenses very largely,—to such an extent that the taxpayers have begun to regard them with evident distrust, and we are beset with the expression of a general dissatisfaction that cannot properly be ignored.

The matter of the appointment of a permanent chief has long been in contemplation, and has met with general approval, and the pay of the firemen was considered inadequate, but whether there was a sufficient demand for the additional legislation, and for the summary reduction and reorganization of the whole fire department, eliminating without the formality of discharge, some of its best and most experienced members, is a matter upon which I do not feel called upon, at the very outset of my administration, to express an inconsiderate opinion. Many thought that it was not too large in membership, being a call department in a city of very wide territory.

I do not learn that the insurance companies demanded so sweeping and radical a change just at this time; and it is a well recognized fact in every community, that there is no point of touch in municipal affairs more delicate and dangerous than an unwarranted interference with the fire department. To have anything of inharmony amongst its members, or a spirit of discontent toward it on the part of the public, might result disastrously to the material interests of the city.

. \* .

The permanent chief is to superintend the department, and is expected to make a business of familiarizing himself with the construction of our public buildings, workshops, and business blocks, fixing in his mind the location of boiler rooms, gas cocks, electric light switches, combustibles, etc., visiting frequently the houses of the department in the different sections of the city, and acquainting himself fully with the qualifications of the firemen, and with the condition of all their equipments; thus becoming inestimably useful to the department and to the public. A gentleman fully qualified in experience, and otherwise, has been appointed to this responsible position, and it is to be regretted that the harmony of the department should have been ruffled, or the public mind disturbed, by appurtenant legislation, the responsibility of providing for the heavy expense of which rests unfortunately upon the present city administration.

I believe most emphatically in an efficient and well paid department, and I hope it will be found that the large unexpected expenditures for which we must provide are not without an adequate corresponding benefit. Having satisfied the people, as we may be able to do, that such is the fact, all complaint will be allayed.

\* \* \*

Somebody has kindly provided me with a memorandum of the salary list under the old regime, as follows:

Steward .						\$800
Assistant Stewa	ard					660
Engineers		•				500
Three drivers	•			•		2,040
Kearsarge Steam Fire Engine Company						1,196
Eagle Steam Fire Engine Company.						1,021

Alerts	•	•		•		\$926
Good Wills .				•		926
Hook and Ladder	•		•		•	1,206
Francisch Jaluat			1 4	: <b>-</b> :-	Co.u.	\$9,275
From which deduct	amo	unt sa	vea t	o city	ior	
labor on highways	•	•	•	•	•	3,120
Actual cost .				•		\$6,155

A summary of the salary list anticipated under the new fire ordinance has also been given me:

Chief Engineer .		•			\$1,200
Two assistants		•			200
Electrical Engineer.	•				1,000
Five drivers					3,640
Drivers at north and so	uth e	nds.			1,200
Kearsarge Steamer Cor	npan	y .			995
Eagle Steamer Compan	у.		•		995
Governor Hill Steamer	•				, 195
Hook and Ladder .	•	•			1,200
Alerts					800
Good Wills	•	•	•	•	800
					\$12,225

To which it is proposed to add,-

Steward Two permanent men,				\$800 1,600
Driver, Chemical .		•	•	•
				\$15,353

This computation does not take into account the new chemical engine, which has been contracted for at an expense reported to be \$2,200, nor does it include the anticipated alterations at the central fire station, which, if carried out as originally discussed, will, it is said, reach a cost not less than

\$8,000 or \$10,000. Even then the station will be cramped and unsatisfactory in some respects, without the purchase, for the purposes of the stable, of the lot in the rear of the station, the original price of which, at the time the building was erected, was \$7,000. Excluding this from the estimate, if the present city government carry out what seems to have been the elaborate intentions of their predecessors, in the matter of the fire department, you will be obliged to provide a total appropriation for the fire department of possibly \$30,000 or \$40,000 during the year.

It has been anticipated that, as the city grows, the department would not be so closely concentrated in the location of its apparatus, and the fire committee should look into the needs of the city at the north end, south end, west end, and in all populous localities, including East Concord, West Concord, and Penacook, so that there may be no appearance of favoritism in this matter.

The fire department of this city has always been very effective and well organized. I admire it and commend it. As private citizen or public officer, I am its friend and champion. As boy and man I have watched its operations on many occasions for the last thirty years, and I can testify to the courage and self-sacrifice of its members, and have been an eye-witness to its skillful conquests; and I bespeak for it in the future, and certainly throughout our administration, a success as creditable as that which has characterized it during these many years.

It has been anticipated that an electrical department, with an acknowledged adept at its head, would become a necessity in this city, but it was not expected that the expense of maintaining it would be so considerable at the outset. Electrical development has been so rapid and comprehensive that it certainly should be authoritatively regulated and controlled in a progressive city like ours, where a little forest of electrical poles is being reared, through our business centres, blanketed with a rapidly thickening net-work of conflicting wires. With a growing electrical light plant in operation, a telephone system increasing in usefulness, an extending street railway, with the lines of the telegraph companies, and the various other wires, alive and dead, with which our streets and buildings are bestrung, we certainly require the superintendence of a skilled practical electrical expert, who can give to the subject such attention as the safety of our people, and the preservation of our property, demand. Whether the ordinance that has so recently been passed meets the requirements of the case, is a matter that should have your early consideration.

There will, of course, as our city grows, come a time when a uniform system of underground conduits for wires must be adopted, but happily this is a problem that will not probably embarrass the city for some years, and cannot be expected to arise during our administration.

\* \* \*

There is another perplexing question that may come to our attention. It is the perpetual problem of the liquor laws. The legislature now in session has pending before it so many plans for the repeal, revision, and amendment of the prohibitory statutes of the State, and the sentiment of the people in reference to the best temperance methods is so unsettled, that it is impracticable to discuss the subject at this time with any certainty or satisfaction. It is safe for me to say, however, that in this, as in all matters where the responsibility rests in any degree upon you, I shall be pleased, as your chief executive officer, to follow explicitly your direction. While I am not myself in favor of the spasmodic and vindictive enforcement of any particular law or ordinance, I do believe in an honest, reasonable, and constant enforcement of all laws and ordinances, and in such a manner as will secure the best possible results.

If the exigencies of a heated political canvass have led anybody to believe that the advent of this administration is to mark the unrestricted traffic in spirituous liquor in this goodly city, to give free vent to vice and crime, the error should be corrected. On the contrary, extraordinary precautions will be taken to preserve order, to prevent drunkenness, and to uphold righteousness. At no point and in no particular, as far as I have power and authority, will municipal discipline be relaxed.

. \* \*

There are numerous other subjects that must have our consideration, but upon which you will not expect me to take your time now in addressing you at length. No one of them presents itself to the every-day attention of our people with greater force than that of good streets and sidewalks. I am a firm believer in the "gospel of good roads." Somebody has said that the enlightenment of a community may be measured by the excellence of its highways. Thousands and thousands of dollars have been expended upon our streets, but somehow or another the real secret of road-making eludes There is a knack or a science in it that we do not grasp. The appropriations seem to be sufficient, and unquestionably they are honestly expended, but the mud and the wheel-ruts seem inevitable. We need a steam road-roller and other such The friction of bad highways is a detriment modern apparatus. to trade greater than is generally thought, and certainly it is a great annoyance to pleasure riders. Now that bicycles and other such vehicles are coming into general use, it is especially desirable that our streets be put in the best practical condition. We have temporized year after year, and it is time that we began permanent work in the line of the latest and most improved paying, such as is comparatively inexpensive and yet durable. Concord has more extent of highway than almost any other city of no larger population in the United States; and while the streets and sidewalks at Penacook should be kept in proper condition, and the suburban roads must be repaired and cared for, it would be poor economy indeed to allow the business streets and pleasure drives to become depleted. There has been a strong hope to make Concord an attractive home for commercial travelers and a large class of other desirable men who do business elsewhere, but who can never be drawn here to make their residence until the drives are put in a condition comporting with the dignity of our standing otherwise.

. \* .

With the state institutions here and the St. Paul's School, it should be a matter of personal pride, as well as of official obligation, to have the large expenditures in the street department made to the best and most lasting advantage, and this is the popular desire and demand.

The highway department, as you well know, is under a commissioner, but over him you are expected to exert a control and an influence, and it does not relieve one department of responsibility by merely referring a matter to another. Whatever may be the theory of our local government in the division of responsibility, the fact remains that in the public mind we shall all be held together to a rigid accountability for the conduct of the several branches of the city government.

I wish that some feasible plan might be devised whereby the people may be better informed, from time to time, what are the plans of operation in this department, and how the expenditures are divided in paying for work in different sections of the city.

• \* •

I find the police force apparently in splendid condition. This is under a competent commission. No department of the city has made more rapid progress during the few years last past, and none is deserving of higher praise. Formerly, for many years, the police force of the city was small and inadequate, out of all proportion to the interests to be protected, and without system or method in patrolling the streets, or discipline at the station, and it is only recently that it has assumed the standing and the strength that the advancement of our city in population and wealth warrants.

The expenditure for police protection being thus suddenly increased to a point where the efficiency of the force compares more favorably with that of other cities, has made the expense seem large; and if it is unnecessarily so, it should be reduced. Everybody believes in maintaining a good fire department and an efficient police force for guarding the city, and that it would be a mistaken policy indeed to curtail either of these branches disproportionately; but in all these matters you will see the necessity of exercising a consistent and reasonable economy. If we can afford it, I hope the force will be provided with a patrol wagon, which would be very useful, and meet the respectful recommendation of the city marshal.

\* \*

The cemeteries will be entitled to the usual attention. These quiet rival cities of the dead, becoming more and more sacred year after year in the commingling of beloved dust, are assuming the grace and beauty that make them an important feature in the rounded growth of our interests here.

You may be asked to build a neat chapel of architectural beauty at Blossom Hill, an appropriation to lay the foundation for which has already been granted. Every now and then someone whose early home was with us, is brought back for burial, and having lost touch with old friends and acquaintances here, there is no place in which to perform the funeral rites, except perhaps in the inhospitable atmosphere of a hired hall or an undertaker's shop; and such a chapel, on such occasions, would certainly be a very gracious convenience. You will please keep the project in mind, but whether, under the thrifty principle of our administration, we can assume such an undertaking just now, is a matter for your determination.

• • •

The sanitary condition of the city seems to be good. Something of alarm was felt at the lowness of the water in Penacook lake, the source of our supply, but taking into con-

sideration that all water sources and supplies throughout New England are unusually low, I do not apprehend any trouble.

I am informed that, perhaps fourteen years ago, the water in Penacook lake was as low, within two feet, as it is now, and it has been much higher than it was ever known to be before within the few years last past. Should the supply there threaten to fail us, we should probably feel obliged to extend our water-works from the Penacook branch to Long pond in Webster, a distance stated at ten or twelve miles. This pond, understood to be thirty feet higher than the surface of Penacook lake, is a body of water as pure and good as that with which we have been supplied. The possibility that the city will be forced to make another large expenditure in the maintenance of the water-works, is another reason why we should preserve a prudent policy.

\* \* \*

Our health department is doing efficient work, and is invaluable to the community. With increased isolation and disinfection it will be second to that of no city of the number of inhabitants that Concord has, and appears to be able to cope promptly and effectively with any epidemic that might arise.

An important object of your care will be all the conditions affecting public health. This will call into requisition common sense and modern science, which latter has made especial strides during the last decade. The streets have been kept cleanly, the ashes and garbage have been carefully disposed of, but I wish that there might be even a more scrupulous cleanliness in the case of the one and a more cautious disposition of the other.

\* \*

It has been suggested that there should be a special inspector of buildings and of plumbing, who would overlook the construction of business blocks and dwelling-houses, and thus avert the dangers of defective plumbing and drainage. Defective sewer traps in other cities are said to be the cause of much sickness, and if these matters here could, without

considerable expense, be put under the control of a competent inspector, who should see to it that all such work is carried out in detail scientifically and safely, the result might redound to the benefit of the public health.

. · .

We shall be asked to enlarge the central sewerage system during the year, at a large expense. There will undoubtedly be a demand for the extension of the south end sewer, from its terminus at the junction of Allison and South streets, into and through the Bow Brook valley, which is expected to meet the growing needs of the territory west of Bow brook and that near the jail and west of Auburn street. There will also be a request for a sewer in Hall street, another in Hammond street, and for others in different localities.

The growth of the city, the laying out of new streets, and the building of new residences make the demand for sewerage, for water mains, for highway outlays, larger each year.

. \* .

I should be glad if there were time to speak of our educational facilities, which are very creditable. Our schools, however, are dealt with so directly by the people, who elect the members of the school board, and make appropriations for school purposes, that our interference is largely nominal, but it is a subject in which we, in the capacity of "city fathers," should take the liveliest interest. While the public schools are managed by a board of education responsible directly to the people, and by them through a superintendent, they are institutions from which are to come the men and women who are to control our city affairs and constitute our social fabric within the next few years.

. .

Any rounded mention of the city's advancement would be incomplete without reference to our street railway. The gentlemen in the management of this enterprising local corporation have even exceeded the popular demand for such a road, and the facilities which they have afforded our people

are perhaps superior to those of the kind enjoyed by any other New England city of our size. The stock of the corporation is owned almost exclusively by the citizens of Concord, and it is a home project, which has done much to develop other property, and is very closely identified with our material interests.

The road is now eleven and a half miles long. Its capital stock is \$100,000, of which one half is preferred; its funded debt is \$100,000. For the year ending June 30 last, it carried 846,676 passengers. The total income was \$43,339.40 and the expenses \$32,980.85, giving a net income of \$10,358.55. It paid six per cent. upon the preferred stock, and carried a balance to surplus.

If time would admit, I should be pleased to dwell upon the development of our public parks, the condition of our city hospital, our benevolent societies, our public library, and upon various other subjects familiar to you, any one of which would, of itself, furnish material for an address, and all of which, collectively and severally as to their needs, I respectfully commend to your careful consideration.

The corporation that dispenses an approximation to a half-million dollars annually, comprising a surprising multiplicity of detail, should have an auditor, at the expense of a few hundred dollars, who could be an assistant to the mayor and invaluable to the committee on accounts and claims and to every department; and there are other recommendations of improvement that I should be pleased to make, if I were satisfied that they would not violate our resolutions of economy. As we become informed more in detail of the demands that will be made upon the city treasury, we shall undoubtedly be better able to discriminate wisely in our preferences.

The legal interests of the city have been ably and very successfully conducted by the solicitor, and we are fortunately comparatively free from litigation, and in this and in many other respects the municipal outlook is auspicious.

Digitized by Google

It was the policy of a former administration to strip the chief executive of all patronage, and I have not attempted to interfere with the canvass of any of the several aspirants for election to any of the various city offices to be filled, the responsibility of these elections resting wholly with you. Nor shall I assume to interfere in your capacity as legislators.

You will remember that you are legislating not alone for your respective wards, but for the city as a consistent whole.

I shall deal from the standpoint of a practical man with such questions as come within my province, comprising the grievances of the people, the rights of the people, and the privileges of the people. One great reason why public work of all kinds has not been conducted on business principles is because it is done so much for the benefit of the politician, and it will be my effort to eschew partisanship and treat municipal government as a business. The city should be regarded as a business corporation and we as its directors or trustees.

\* \* \*

We shall expect the criticism of the public, and shall court the assistance of the newspaper press in our efforts for the public good.

I am not, and shall not be, a candidate for re-election. I have no political ambition to foster, no prejudice or pique to subserve, and no end, aim, or object in this position beyond doing just what is right and proper. We may make errors, but they will not be those of insincerity. There is a right and wrong touching every public question, and having discerned that nice dividing line, we must hew to it, wherever the chips may fly, and whoever may be displeased. We shall not be expected to instigate any startling changes in a municipal policy that has been the growth of years, the outcome of many strong intellects, but with the exercise of sturdy common sense and sterling persistence in the right, we may be enabled to be worthy guardians of the public interests, and so considerately, faithfully, and conscientiously do our duty as to hold a warm and lasting place in the hearts of our fellowcitizens, and be no innovation in the city's long roll of honor.

I cannot omit the opportunity of referring to that estimable gentleman who formerly occupied the place of mayor, Hon. Stillman Humphrey, who has only within the last few days joined the silent majority; and in speaking to you, as I have to-day, my heart goes back to another man who stood in this place, whose splendid example I shall try to emulate, one with whom I had close association during his official term as mayor, the late Hon. Edgar H. Woodman, a man, as was said of Ralph Waldo Emerson, of the loftiest ideal, a perfect model of integrity, whose mind was like a placid lake, and reflected truths like stars.

Some gratuitous prophet has foretold dreadful things for various cities, including Concord in his dire and sweeping prediction, but the inspiration of a Christian people will prevail against such fanatical prating.

Almost a quarter-century ago an accomplished poet, Mrs. Abba Gould Woolson, sung of our city:

"Such Concord is! but who may see
A vision of the town to be,
When wealth shall leave its selfish aim
To bless the public whence it came,
And, leaping o'er each social ban,
Her men shall seek the good of man?

Then parks will spread their breadths of green To add new beauty to the scene; And Art her statued forms shall raise, Teaching our youth to know and praise The names that History enshrines Upon her page in living lines.

Guard well your schools with zealous care, And share the work entrusted there; Nor leave to others' words to preach What your example best can teach; Thus may your children learn to prize A noble life, a temper wise, Serene and generous, more than gains Won for themselves with endless pains, Where self-respect and peace are lost, And honor is the price they cost.

And thus shall our beloved town
Add to its wealth of old renown
A name for strength and sterling worth,
Borne, like her coaches, round the earth!"

CONCORD, N. H., January 22, 1895.

## CITY GOVERNMENT.

CONCORD, N. H.

Inaugurated fourth Tuesday in January, biennially.

#### 1895.

### EXECUTIVE DEPARTMENT.

#### MAYOR.

Elected biennially in November by the people. Salary, \$1,000 per annum.

#### HENRY ROBINSON.

Office: 3 Depot Street.

#### ALDERMEN.

Elected biennially in November by voters of each ward. No salary as such, but an allowance for committee service.

- Ward 1—DAVID F. DUDLEY. EDDIE C. DURGIN.
- Ward 2-FRANK P. CURTIS.
- Ward 3-LOUIS A. ENGEL.
- Ward 4—HENRY W. HAYDEN.

  JOHN G. McQUILKIN.

  JOHN F. WEBSTER.
- Ward 5—HOWARD A. DODGE.
  JAMES H. ROWELL.
- Ward 6—ARTHUR E. DOLE.
  SAMUEL F. PATTERSON.
- Ward 7—HENRY E. CONANT. JOHN H. MERCER.
- Ward 8-WILLIAM A. LEE.
- Ward 9-JOHN JORDAN.

#### CITY CLERK.

Elected biennially in January by City Council. Salary, \$800 per annum.

## JOSEPH A. COCHRAN.

Office: City Hall Building.

#### COMMON COUNCIL.

Elected biennially in November by voters of each ward. No salary as such, but an allowance for committee service.

PRESIDENT - HARRY R. HOOD.

Ward 1 — WILLIAM C. ACKERMAN. JOHN HARRIS.

Ward 2—GEORGE A. HOIT.

Ward 3-FRANK E. DIMOND.

Ward 4—HARRY R. HOOD. FRED W. SCOTT.

FRANK H. SMITH.

Ward 5—HENRY O. ADAMS. GEORGE W. BUNKER.

Ward 6—HOWARD A. KIMBALL.
ARTHUR F. STURTEVANT.

Ward 7—ARTHUR W. PRESCOTT.\*
CHARLES S. PIPER.†
FRANK G. PROCTOR.

Ward 8-CHARLES L. NORRIS.

Ward 9 - ALBERT GRANT.

#### CLERK OF COMMON COUNCIL.

Elected biennially in January by Common Council. Salary, \$50 per annum.

### HARVEY P. SANBORN.

Office: 54 Centre Street.

\*Resigned. † Elected to fill vacancy.

#### JOINT STANDING COMMITTEES OF THE CITY COUNCIL.

- Aldermen appointed by Mayor, and Councilmen appointed by President of Common Council, biennially in January.
- On Finance The Mayor; Aldermen Webster and Dudley; Councilmen Adams and Piper.
- On Accounts and Claims Aldermen Dole and Jordan; Councilmen Kimball and Bunker.
- On Lands and Buildings Aldermen Mercer and Curtis; Councilmen Scott and Harris.
- On Public Instruction Aldermen Dodge and Engel; Councilmen Harris and Bunker.
- On Parks and Commons Aldermen Conant and Durgin; Councilmen Smith and Proctor.
- On Roads and Bridges Aldermen Rowell and Patterson; Councilmen Dimond and Smith.
- On Fire Department Aldermen Patterson and Lee; Councilmen Ackerman and Scott.
- On Lighting Streets Aldermen Hayden and Rowell; Councilmen Sturtevant and Adams.
- On Cemeteries Aldermen McQuilkin and Engel; Councilmen Proctor and Grant.

## STANDING COMMITTEES IN BOARD OF MAYOR AND ALDERMEN.

Appointed biennially in January by Mayor.

- On Elections and Returns Aldermen Dudley and Lee.
- On Engrossed Ordinances Aldermen Curtis and Dodge.
- On Bills, Second Reading Aldermen Durgin and Rowell.
- On Police and Licenses Aldermen Webster and McQuilkin.

#### ON SEWERS AND DRAINS.

Elected biennially in January by Board of Aldermen.

The Mayor; Aldermen Lee, Dodge, Engel, and Durgin.

#### ON STREETS AND SIDEWALKS.

Elected biennially in January by Board of Aldermen.

The Mayor; Aldermen Rowell, Dudley, and Conant.

#### STANDING COMMITTEES IN COMMON COUNCIL.

Appointed biennially in January by President of Common Council.

On Elections and Returns — Councilmen Norris and Kimball.

On Bills, Second Reading - Councilmen Sturtevant and Grant.

On Engrossed Ordinances - Councilmen Hoit and Ackerman.

#### CITY TREASURER.

Elected biennially in January by City Council. Bond to the acceptance of Board of Mayor and Aldermen. Salary, \$250 per annum.

#### WILLIAM F. THAYER.

Office: First National Bank.

#### CITY ENGINEER.

Elected biennially in January by City Council. Salary, \$1,500 per annum.

WILL B. HOWE.

Office: 17 Dutton's Block, North Main Street.

#### CITY MESSENGER.

Elected biennially in January by City Council. Salary, \$600 per annum.

EDWARD H. DIXON.

## COLLECTOR OF TAXES.

Elected annually in January by Board of Mayor and Aldermen. Bond within six days to satisfaction of the Board. Salary, five mills for each dollar of first \$60,000; seven and one half mills for each dollar over \$60,000.

## ALBERT I. FOSTER.

Office: 3 Depot Street.

## PUBLIC SCHOOLS.

#### BOARD OF EDUCATION.

#### UNION SCHOOL DISTRICT.

Three elected annually in March by voters of Union School District. Salary, \$250 per annum for the Board.

HARRY P. DEWEY,	Term	expires	March,	1896.
MARY P. WOODWORTH,	"	66	44	1896.
ELIPHALET F. PHILBRICK,	"	66	44	1896.
PARSONS B. COGSWELL,*	66	"	66	1897.
SUSAN J. WOODWARD,†	4.6	"	66	1897.
SHADRACH C. MORRILL,	66	66	44	1897.
JOHN C. ORDWAY,	44	4.6	"	1897.
WILLIAM M. CHASE,	"	66	66	1898.
AUSTIN S. RANNEY,	"	66	"	1898.
HENRY C. BROWN,	66	"	66	1898.

#### SUPERINTENDENT OF SCHOOLS.

## UNION SCHOOL DISTRICT.

Appointed annually in July by Board of Education. Salary, \$1,800 per annum.

## LOUIS J. RUNDLETT.

Office: High School Building, School Street.

#### PENACOOK-DISTRICT No. 20.

One member of Board of Education elected annually in March by voters of district. Salary, \$27 per annum for the Board.

HENRY ROLFE,	Term	expires	March,	1896.
IRA PHILLIPS,	66	"	66	1897.
JOHN CARTER,		66	66	1898.

## TOWN DISTRICT.

Comprising all districts in the city except Union School District and No. 20.

Elected annually in March by voters of district. Salary, \$125 per annum for the Board.

ALBERT SALTMARSH,	Term (	expires	March,	1896.
FALES P. VIRGIN,	. 66,	. "	66	1897.
GEORGE T. ABBOTT,	66	4.6	66	1898.

<sup>\*</sup>Deceased. † Elected to fill vacancy.

## TRUANT OFFICERS.

Appointed biennially in January by Board of Mayor and Aldermen. Salary as such, none.

GEORGE S. LOCKE.

JAMES E. RAND.

DANIEL S. FLANDERS.

HORACE ROBINSON.\*

JOHN E. BAKER.\*

FRED M. EATON.

WHITNEY D. BARRETT.

JAMES KELLEY.

CHARLES E. KELLEY.

IRVING B. ROBINSON.

CHARLES P. WEBSTER.\*

CHARLES HALL.

## PUBLIC LIBRARY.

#### TRUSTEES.

Elected biennially in January by City Council. Salary, none.

Ward 1—CHARLES H. SANDERS.

Ward 2—JOHN E. FRYE.

Ward 3-PAUL R. HOLDEN.

Ward 4 - WILLIAM L. FOSTER.

Ward 5 - AMOS J. SHURTLEFF.

Ward 6-JAMES S. NORRIS.

Ward 7-WILLIAM W. FLINT.

Ward 8-EDSON J. HILL.

Ward 9 - MOSES H. BRADLEY.

## LIBRARIAN.

Appointed annually by Trustees of Library. Salary, \$800 per annum.

DANIEL F. SECOMB. † GRACE BLANCHARD.

\*Resigned. †Deceased.

#### ASSISTANTS.

Salary, \$450 per annum.

CLARA F. BROWN. ADAH M. COLBY. WINNIE I. JAMES.

Fowler Library Building.

## ASSESSORS.

Elected biennially by voters of each ward. Salary, \$3 per day of actual service.

Ward 1 - FRANKLIN A. ABBOTT.

Ward 2 - FRANK P. TALLANT.

Ward 3 - ALBERT W. HOBBS.

Ward. 4 - WENDELL P. LADD.

Ward 5-GEORGE F. UNDERHILL.

Ward 6 - GEORGE S: DENNETT.

Ward 7-JONATHAN B. WEEKS.

Ward 8-JOHN J. LEE.

Ward 9-JAMES AHERN.

## CITY WATER-WORKS.

## WATER COMMISSIONERS.

Two appointed annually in March, for four years, by Board of Mayor and Aldermen. Salary, none.

## HENRY ROBINSON, MAYOR, ex officio.

JOHN WHITAKER,	Term expires	March 31,	1896.
HENRY E. CONANT,*	66	66	1896.
EBENEZER B. HUTCHINSO	N,† "	66	1896.
SOLON A. CARTER,	66	66	1897.
FRANK D. ABBOT,	66	66	1897.
WILLIAM P. FISKE,	66	6.6	1898.

Resigned.
 † Elected to fill vacancy.

			\$2,040.00
Net liabil	lity on account o	of school districts	. \$103,020.00

These bonds are issued under ordinances of the city council, as authorized by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act authorizing the City of Concord to borrow money in aid of its school districts." These school districts have, by their votes and by their agents duly authorized, bound themselves to the city to seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principal upon their indebtedness, and all incidental expenses, as the same shall become due.

### PENACOOK SEWER PRECINCT.

Net indebtedness on		nt of	Pena	cook	sewe	-	
January 1, 1895							\$21,070.40
Decrease for the year							<b>\$</b> 623.57

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook, and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows:

\$500 annually for ten years, from August 1, 1888, \$1,000 annually for five years from August 1, 1898, \$1,200 annually for five years from August 1, 1903, \$1,000 annually for five years from May 1, 1908, \$500 annually for six years from July 1, 1914,

by taxation upon the taxable property in Penacook sewer precinct, said sums, as soon as received, to be placed at interest by the finance committee.

ALBERT I. FOSTER, Collector.

# FINANCE.

### AUDITOR'S REPORT.

To the Finance Committee, Concord City Council:

In accordance with your instructions I have examined the books and accounts of the city treasurer and the city clerk, and submit herewith a statement of the receipts and disbursements of the city treasurer for the year ending December 31, 1895, together with a statement of the bonds and notes of the city outstanding. The cash received by the city treasurer from the various city, county, and state officials was verified from receipts in their hands and duplicates on file with the city clerk. The disbursements made by the city treasurer were found to be in accord with the orders issued therefor by the mayor and city clerk. The bills for which these orders were issued were on file at the city clerk's office, were examined and found to be authorized by the several departments of the city government, and approved by the committee on accounts and claims of the city council.

I find vouchers for all payments, the payments properly recorded on the books of the city treasurer and city clerk, the several items correctly cast, and the cash balance in the hands of the city treasurer \$9,571.81.

I have also verified the trust and sinking funds of the city, and find them invested and the income thereof for the year 1895 accounted for as is shown by the exhibits.

JAMES O. LYFORD,

Auditor.

February 14, 1896.

### REPORT OF THE COMMITTEE ON FINANCE.

The books of the city treasurer have been examined and compared with those of the city clerk by the committee on finance, and all the accounts are found to be correctly kept, with proper vouchers on file for all payments. All the bills allowed by the committee on accounts and claims have been paid, and no claims against the city which the city would be liable to pay are known to remain outstanding, with the exception of those mentioned under the heading of unfunded debts; and the balance in the hands of the treasurer is nine thousand five hundred and seventy-one dollars and eighty-one cents (\$9,571.81).

CONCORD, February 14, 1896.

HENRY ROBINSON, JOHN F. WEBSTER, HENRY O. ADAMS, CHARLES S. PIPER,

Committee on Finance.

# CITY EXPENSES

### FROM JANUARY 1 TO DECEMBER 31, 1895.

Being an itemized account, made up from the books of the City Clerk, of the payments made by the City Treasurer on account of

### RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1895, and salaries and committee service have been paid for the full municipal year. The expenses of the year, which are included in the general running expense, may be seen in the aggregate at the end of the detailed account here given. This is intended to include interest, but not the payment of maturing bonds.

### STATE TAX.

Paid Solon A. Carter, state treasurer . . . \$31,650.00

### COUNTY TAX.

Paid Warren Abbott, county treasurer . . . \$32,260.03

### INTEREST.

Paid coupons and interest account . . . \$5,601.17

## SUMMARY OF STATISTICS.

### CONCORD, NEW HAMPSHIRE, WATER-WORKS.

Population of the city by census of 1890 . . . 17,004

Population of that portion of the city included within
the water precinct, estimated . . . . 15,000

Date of construction, 1872; additions since.
Works are owned by the city.
Source of supply, Penacook lake, a natural body of water containing 265 acres, situated about three miles and a half from the state house, and about 125 feet higher than Main street in

Mode of supply, gravity and pumping to reservoir.

front of the state house.

## REPORT OF WATER COMMISSIONERS.

To the City Council:

The Board of Water Commissioners respectfully submit their report for the year ending December 31, 1895.

We respectfully refer you to the report of the superintendent, which enters into the detail of the work, and is made a part of this report.

All departments have been kept up to the high standard maintained in past years. The earnings have been fully sustained.

The commissioners still believe that meters should come into general use, and will follow up the plan already begun in placing them throughout the city as fast as possible. The consumption of water from the high service system has fallen below last year, with a consequent reduction in the cost of maintaining the plant. The pumping engine maintains its high standard of duty, and is in every way economically and carefully managed.

In the appendix to the report of the superintendent will be found a schedule giving the mean height of water in Penacook lake from and including the year 1873. It will be seen from this schedule that the mean height of the water was lower during the year 1895 than in any previous year since the construction of the works. This fact was the cause of much anxiety on the part of the commissioners, and plainly showed that if the prevailing conditions continued it would be necessary to provide more water.

In order to protect our supply from the seeming shortage through the winter months, a proposition was entertained which had been made several times by the commissioners of the Boscawen and Penacook water-works, and a special committee of the board was chosen to consider the matter. After careful investigation by the committee and upon their recommendation,

a contract for one year was entered into to take water from Walker pond. The superintendent was instructed to make the connections, and water was turned on in December and is now supplying a part of our system.

The late rains, however, have given an increase in our own supply, so that Penacook lake is at a higher point than at any time during the same period for the last three years, and with the prospect that the severe drought is at an end.

We have, as in former years, sought to protect the purity of our supply by purchasing land around Penacook lake, and now own and control a very large proportion of the shores of said lake.

With the laws passed at the last session of the legislature, the city has enlarged powers in the matter of protecting their water supply.

The note of \$15,000 has been funded into three and a half per cent. bonds, running five years.

It is confidently expected that the bonds maturing in 1896 will be retired when due.

Some discussion has been raised lately in regard to electrolysis or the action on water and gas pipes from the electric current in a street railway system. This matter has been under consideration by both water-works officials and electricians throughout the country for some time. As yet we have not discovered any trouble from this cause on our works, and, with many other cities much larger than ourselves, prefer to await the investigations and experiments of those municipalities that have suffered actual damage from action of street railway currents. Moreover, in some cities where corrosion of pipes has been discovered, the officials frankly state that, if the electrolytic action was not now so actively under discussion, the destruction of the pipe would have been easily traced to some other cause. Probably no other city has suffered more from electrolysis or tried more preventive measures on the authority of experts than Brooklyn, N. Y. As a partial explanation of the stand which we, with other cities, have taken in regard to the whole matter, we quote the following from the report of the commissioners of electrical subways of Brooklyn, just issued:

"The board has sought to avail itself of the result of experience with electric car lines in other American cities. Letters have been addressed to the municipal authorities of sixty-six cities of the United States. Replies were received from forty-five. Corrosion difficulties have been experienced in only ten. All attempts to prevent injury to underground pipes are yet in the experimental stage. The usual way of ameliorating the difficulty is by improving the conductivity at the rail joints. It is easily made good enough temporarily, but after a few months it deteriorates rapidly. To prevent the water and gas pipes from becoming conductors of a portion of the trolley current, there is probably no way except in the use of the double trolley system."

The works have been ably managed by the superintendent and his assistants.

The term of Mr. Willis D. Thompson, who has served the board ably since 1891, expired during the year, and Edson J. Hill was elected to fill his place.

Mr. Henry E. Conant resigned during the year, and his place was filled by the election of Ebenezer B. Hutchinson.

### Respectfully submitted,

WILLIAM M. MASON,
EDSON J. HILL,

oil, packing, and other supplies	189.55	
		<b>8</b> 2,135,45

#### EXTENSIONS AND IMPROVEMENTS.

Main and distribution pipes have been laid and hydrants set during the year, as follows:

In Freight street,

east from South Main street; 438 feet 10-inch pipe and 1 hydrant.

In South street,

south from Smith's farm to near Wheeler's corner, 1,760 feet 6-inch pipe and 1 hydrant.

In Holt street.

south from School street to Warren street, 646 feet 6-inch pipe.

In Pillsbury street,

east from near Eastman street to Broadway, 600 feet 6-inch pipe.

In Depot street,

east from North Main street to train-shed at passenger station, 387 feet 6-inch pipe and 1 hydrant.

In Rockingham street, west from Broadway, 209 feet 6-inch pipe.

In View street, West Concord, extended south to K street, 73 feet 6-inch pipe.

In Glen street, extended south, 36 feet 6-inch pipe.

In Hall street,

extended south from Hammond street, 306 feet 4-inch pipe.

In Pierce street,

south from Laurel street to Perley street, 300 feet 4-inch pipe.

In Warren street,

west from Pine street to Liberty street, 452 feet 8-inch castiron pipe, relaid in place of 6-inch cement-lined pipe.

In North Main street,

38 feet 6-inch cast-iron pipe, relaid in place of 6-inch cement-lined pipe.

On hydrant branches,

112 feet 6-inch pipe.

#### IN PENACOOK.

In Centre street,

north from Merrimack street to East Canal street, 247 feet 10-inch pipe.

In East Canal street,

east from Centre street to Crescent street, 225 feet 10-inch pipe.

In Crescent street,

north from East Canal street to near Concord Axle Works, 635 feet 10-inch pipe and 1 hydrant.

In Centre street,

south from Spring street, 369 feet 6-inch pipe.

In Merrimack street,

37 feet 8-inch cast-iron pipe, relaid in place of 8-inch cementlined pipe.

In East Canal street,

8 feet 8-inch cast-iron pipe, relaid in place of 8-inch cementlined pipe.

On hydrant branches,

7 feet 6-inch pipe.

22 feet 6-inch cast-iron pipe, relaid in place of 6-inch cement-lined pipe.

On blow-off,

8 feet 4-inch pipe.

#### Summary of the Foregoing.

Pipes.	Hydrants.	Stop-Gates.

Total length of main Total number of hy- Total number of gates and distribution drants now in use, now in use, 682.

297,468 feet, equal to 56.33 miles.

#### SERVICE PIPE.

There have been laid during the year, and connected with the main pipe, 91 service pipes, consisting of —

89	1-inch,	2,128	feet.
1	2-inch,	44	46
	6-inch,	13	"
.—			
91		2,185	feet.

Whole number of service pipes, 3,061; number discontinued, 6; number in use at the present time, 3,055.

Total length of service pipes, 71,577 feet, or 13.55 miles.

The following table shows the height of water in Penacook lake on the first day of each month:

January		,170.05	July .	•	172.30
February		169.70	August	•	171.70
March		169.05	September		171.00
April		170.00	October		170.70
May .		173.25	November		170.55
June .		173.00	December		172.55

The lowest point reached was March 1, being 169.05; the highest was May 1, 173.25; mean height, 171.15, which was 1.66 feet lower than the mean height for the year 1894.

We have been compelled to shut off one service for non-payment of water rent, during the year; on payment of the fine and bill, the water has been turned on again.

The principal extensions have been the continuation of the South street pipe to near Wheeler's corner, 1,760 feet of 6-inch pipe; and the extension of the high service system through Freight and Depot streets, for fire service at the railroad. The distribution pipe account appears to be larger than for previous years according to the pipe laid. But considerable more pipe was purchased than was used this year, so that we have now on hand, left from this year's purchase and charged to this account, 619 feet of 4-inch, 1,874 feet of 6-inch, and 119 feet of 8-inch pipe.

The general work has been continued as in past years. The number of new service pipes laid is smaller than since 1886. Two house-to-house inspections have been made during the year. We have set 147 meters, placing them on services as directed by you, making the total number of meters now in use, 271.

You will notice by the engineer's report that the amount of water consumed on the high service system has decreased very much during this year; the daily average of gallons pumped was 114,585 less than last year, more than 25 per cent., making a total decrease for the year of 42,823,550 gallons, and a saving of over 38 tons of coal.

A road has been built around the reservoir, so that the delightful view from the east side can be more easily enjoyed.

Work has been continued at intervals around the shore of Penacook lake, and a fence has been built at the southerly end of the lake, between the land purchased of Mr. Crowley and the highway.

According to your instructions a connection was made with the Penacook and Boscawen water-works; a 10-inch pipe was laid in Centre street from Merrimack to East Canal street, and through. East Canal and Crescent streets to near the Concord Axle Works. The work was quite expensive on account of the unusual amount of blasting, crossing the canal, and making the connection.

Respectfully submitted,

V. C. HASTINGS,

Superintendent.

# REPORT OF THE ENGINEER OF THE PUMPING STATION.

#### PUMPING STATION, CONCORD WATER-WORKS.

#### V. C. HASTINGS, Superintendent:

SIR, — I would report that the machinery at the pumping station is in good working condition.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month.

#### Statement.

105 tons, 588 lbs. Pocahontas coal.

46 gals. of oil.

26 lbs. of waste.

#### ENGINE RECORD.

DATE.	Pumping time.  h. m.	Water pumped.	Daily average pumped.	*Total coal burned.	Daily average coal burned.	*Gallons pumped per pound of coal.
January	116:30	10,013,920	323,029	22,761	734	439
February	114:45	10,018,085	357,788	21,715	775	461
March	105:00	9,503,585	306.567	19.863	640	479
April	94:45	8,120,210	270.673	16.138	520	503
May		9,514,435	306.917	18,860	608	504
June	111:30	10.345.090	344,836	20,469	682	505
July	106:45	9,546,775	307,960	18.949	611	503
August	92:45	7.952.315	256.526	15,707	506	506

December	109:45	9,676,170	312,134	22,785	735	424
Total	1,291:15	112,317,730	307,719	235,788	645	476
Daily average	3:32	307,719		645		

<sup>\*</sup> Amount of coal consumed includes that used for heating the building.

Amount of coal consumed per thousand gallons pumped, 2.09 pounds.

HENRY A. ROWELL,

Engineer.

## AUDITOR'S REPORT.

CONCORD, N. H., January 6, 1896.

To the Board of Water Commissioners:

I hereby certify that I have examined the books showing the receipts of the Concord Water-works from January 1, 1895, to December 31, 1895, and find the same correct, and that the total amounts given therein correspond with the amounts of receipts given by the superintendent, V. C. Hastings, in his report for the year.

ARTHUR H. CHASE,

Auditor.

## HIGHWAY DEPARTMENT.

## REPORT OF COMMISSIONER OF HIGHWAYS.

To the City Council:

GENTLEMEN, — I herewith submit the annual report of the Highway Department, showing the work done and money expended during the year ending December 31, 1895.

In the early spring the general cleaning and repairing of streets was delayed by the heavy damage caused by the freshet. The greatest amount of damage was at the south end of the city. Water street, from the Railroad bridge to the Pembroke bridge, was washed quite badly, as were Hall and Hammond streets and the Pembroke road. Altogether 4,472 loads of grade were required to make the roads at the south end passable. At the north end the damage was less. Bridge and Ferry streets and the East Concord road were considerably washed. Here 229 loads of grade were required. The furnace on the city lot across the river, for burning rubbish collected in the city, was damaged to such an extent that it had to be rebuilt. The total expense of repairing roads washed by the freshet and rebuilding furnace at the crematory was about \$5,180.

But little work has been done on new streets this year. Peabody, View, and K streets at West Concord were laid out at an expense of \$190.10. Considerable grading and repairing was done on Second street, amounting to \$454.16. Rollins court has been extended, and Harvard street cut to grade. \$259.97 was expended on Auburn street in cutting and laying sidewalk. Centre street hill, from High street west, was cut to grade at an expense of \$354.30. High street, from Valley street to Gilman Taylor's west line, was also cut to grade; expense, \$212.10.

In my last report I recommended the purchase of a steam road roller, which was bought this year. After seeing the working of different rollers, it was decided that bids be called for, for a roller of fifteen tons' weight. Sealed proposals were received from The Pitts Agricultural Works, Buffalo, N. Y.; Harrisburg Foundry and Machine Works, Harrisburg, Pa.; Aveling & Porter, Rochester, Eng.; The O. S. Kelly Co., Springfield, Ohio; and the last named bidder being the lowest, their bid was The roller was received early in June and work commenced immediately. State street, from Thompson to Franklin. was picked up and rolled. 1,064 loads of crushed stone were used, and when finished made one of the best streets in the city. It seems to show that the roller is capable of doing excellent work, and now that we have it, work can be commenced earlier in the spring and more accomplished.

Main street, from Church to Franklin, was also macadamized, and from Franklin to Pearl west of the street railway track. 137 loads of crushed stone were used here.

The last of September, just as we were to commence the work of macadamizing South Main street from Pleasant to Fayette, the crusher broke. It was a little over a month before repairs could be finished, as an entire new frame had to be cast. By that time the ground was liable to freeze, and work had to be postponed. The crusher, however, after repairs were completed, was put to work, and we now have about 500 tons of stone crushed, ready for work as early in the spring as possible.

The matter of purchasing a portable stone crusher was brought before your honorable body, but it was put over until later. I can only recommend the advisability of purchasing one, for with our steam roller and a portable crusher considerable work could be done at a little expense. On many streets and at the gravel banks there is a sufficient quantity of stone which could be crushed, and streets well repaired for a small sum, as the portable crusher would save the cost of carting the stone.

Again would I recommend the appropriation of a certain sum each year for permanent work, such as paving. Main street, from Centre to Pitman, west of the street railway track, is

always muddy. The gutter on the west side is considerably higher than the railway track, and in no better way can it seem to be remedied than by paving. It could then be swept and kept in a much better condition.

Quite a number of concrete walks have been laid this year, and there are still a few to be put in. I hope the matter of laying a concrete walk from Waverly street to Blossom Hill cemetery can be adjusted and the walk laid next season, as it was granted five years ago.

The ordinance in regard to removing snow from sidewalks and dumping ashes in the streets has been enforced this winter. requests to remove snow have been complied with thus far, and I hope that all citizens will consider the matter on the right side and keep all concrete walks free of snow. Nothing mars the looks of our streets more than piles of ashes dumped alongside of them. Every spring and fall the department cleans the streets, and at that time any ashes put in barrels or boxes at the side of the street will be removed by the department teams. ordinance passed in September, 1895, by the city council required this to be done. Several days before commencing the fall cleaning, notice was put in the papers when and at what place the work would begin. A large amount of garbage was put out for collection. 1,464 loads were removed, at an expense This was considerably more than the cost of the of \$903. spring cleaning, which was \$729.25; and without doubt the next general cleaning will be much larger.

Each spring and fall all catch basins in the city are cleaned out. As the number increases each year, the expense is growing more every year. When cleaning out catch basins on our main streets, all dirty water and mud has to be put in the gutters. This gives the street a very dirty appearance. If we had some kind of a closed dump-cart in which this dirty water and mud could be removed, it certainly would be a great improvement.

During the summer season the streets are continually being dug up for sewers, water and gas pipes, and in many cases the ditches are left in a very bad condition, especially where private sewer connections are made. The city ordinances require the ditches put back in as good condition as found, but this is seldom the case; and it seems that the matter of licensing drain-layers should be confined to a few competent and responsible men.

The amount of loose paper thrown around on our main streets has reached large proportions. Up to the present time one man has collected it in baskets, but the department has found it necessary to purchase a hand-cart for collecting. Barrels are to be placed at different places for collection, and we hope to keep the streets free of loose paper.

The appearance of the maple tree borer on many of our shade trees was brought to my attention during the summer. The matter of some method of destroying the pest was investigated, but no satisfactory one found. As a consequence many dead trees will have to be removed next season.

During the year the Pembroke bridge was replanked by laying a new course over the old. Federal bridge at East Concord has had new plank throughout. The iron bridge at Penacook will have to have an entire new floor in the roadway. The Twin bridge, at the same place, is in a very bad condition and a new one will be needed before very long. Some repairs were made on it this year but the structure seems almost beyond repair. The grading of the approaches at the Horse Hill bridge was completed this year and railings put up.

The large shed on the city lot on School street has been reshingled during the year. At the present time we are so crowded for storage room that something ought to be done at once. The new shed might be extended and the old ones taken down, as they are useless on account of leaking badly.

In my last report I recommended the separation of fire and highway departments. Since April the fire department teams have been hired and paid the same as others. The separation has been, as I believe, satisfactory to both departments.

At the close of the last administration an ordinance was passed putting the matter of fighting brush fires on this department. As that did not seem to be in our line of business it was transferred back to the fire department.

Usually, considerable sprinkling is done during October, but

owing to the low condition of water in Penacook lake none was done this season. This left on hand a small amount of the appropriation.

New street signs have been put up on all streets in West Concord and on most streets in Penacook.

The month of December having been very favorable for this department, a small sum of money remains unexpended.

In conclusion, I sincerely thank His Honor Mayor Robinson, members of the city council, and the committee on roads and bridges, for their support and many courtesies shown the department.

#### Respectfully submitted,

#### ALFRED CLARK,

Commissioner of Highways.

# SEWERS AND DRAINS.

# REPORT OF THE COMMITTEE ON SEWERS AND DRAINS.

To the City Council:

The committee on sewers and drains held regular meetings as usual throughout the year.

Work on the sewerage system of the city has been progressive, but the amount of money expended in the department during the last twelve months is much smaller than the average annual expenditure during the last several years, and yet all necessary repairs have been promptly made.

It is felt that the system is in first-class condition in all respects. The large appropriations of former years were necessary in its building, including the considerable item of outlets into the river, but now that the principal streets, and many others, have been supplied with suitable sewers, the future work may be expected to be at a less cost. However, demands for sewers are anticipated from several localities, and in one or two instances a considerable distance should be covered within the next few years.

The largest item of expense during the year has been the East Concord system. A sewer has been built there, at an expense of \$2,370.85, the greater part of which is to be met by sinking-fund bonds issued in payment.

#### CONTRACTS AWARDED AND WORK DONE.

The records of the committee for the year show the following: Bids for furnishing cement for the season of 1895 were as follows:

Frank Coffin .					\$1.29 p	er cask.
Woodworth & Co.		•	•		1.27	66
Dickerman & Co					1.20	"

#### PETITIONS PRESENTED AND ACTION TAKEN.

- Fred S. Fisher, and others, for sewer in View street, West Concord. Granted and built.
- C. G. Blanchard, and others, for sewer in Eastman street. Granted and built.
- D. T. Slack, and others, for sewer in Hall street. Granted and built.
- J. E. McShane, and others, for sewer in Odd Fellows avenue. Granted and built.

Mary R. Cummings, for extension of sewer in Fremont street. Granted and built.

Frank H. Smith, for sewer in Forest street. Granted and built.

- L. W. Bean, and others, for extension of sewer in Jackson street. Granted and built.
- C. H. Alexander, and others, for sewer in Penacook street, East Concord. Granted and built.

Daniel Higgins, for sewer in Ferry street. Granted and built.

### Further time asked on the following:

W. H. Sargent, and others, for sewer in Chestnut avenue.

Frank Mayo, and others, for sewer in White street.

Weston Cofran, for sewer to his residence.

- J. W. Edgerly, and others, for sewer in Jackson West court.
- R. G. Sargent, and others, for sewer in Cross street, Penacook.

Charles E. Foote, and others, for sewer in Summit street, Penacook.

Upon petition of D. T. Slack, and others, for sewer in Hammond street, the petitioners were given leave to withdraw.

A few other petitions, action upon which is temporarily postponed, remain in the hands of the committee.

# CITY ENGINEER.

# REPORT OF CITY ENGINEER.

OFFICE OF THE CITY ENGINEER, CONCORD, N. H., December 31, 1895.

To the City Council:

In accordance with the ordinance creating this department, I herewith submit for your consideration its third annual report, and a statement of the work done under its supervision for the year ending December 31, 1895.

The cost of all sewers constructed during the past season, the repairs made and cost of the same, the amount expended for flushing and the amount expended to complete Horse Hill bridge, will be found upon the following pages.

The flood of April last caused considerable extra work upon the sewers, more especially upon the North End sewer where it crosses the line of the Concord & Montreal Railroad; a statement of the expenses attending these repairs is submitted herewith.

There has been made by this department such plans as were needed for the work on hand, together with a full set of sewer plans for the city clerk's office, complete plans of the West Concord sewers, plans of the East Concord sewers, changes and new sheets in the plans of the sewers in the city precinct, and plans for the cemetery commissioners.

There has been added to the assets of this department (for which our thanks are extended to the mayor) a systematic plan case, as large as could be built in our present quarters, which enables us to preserve the rapidly accumulating plans, in much better condition than formerly and also saves much time in finding the plans wanted.

The time not necessarily spent upon work of immediate importance has been spent on a general survey of the city. We hope to complete this winter a plan of that portion of the city embraced between Bow line on the south, the railroad crossing near the state prison on the north, the Merrimack river on the east, and a line parallel with Main street, including the property of Mrs. Mary B. G. Eddy and the Capital City Driving Park on the west.

The demands upon this office for information concerning street lines and grades have steadily increased, and the necessity for saying that the lines of some streets are indefinite, is at times somewhat embarrassing.

At the time when many of our streets were laid out the value of the land taken was very small, and in many cases the land was given for the street by the owners. To-day the values are different, and each abuttor, probably honestly, claims more land than the old records indicate. In many cases the old lines are described as "starting at a pair of bars and ending near an old apple tree." Both the bars and the apple tree have long since disappeared, and the "oldest inhabitant" has no knowledge of them.

In view of these facts I would respectfully recommend that a little work be done each year in establishing and permanently marking the lines of some of these streets; this would greatly assist the heads of all departments in their work upon the streets.

Considerable time was spent on a survey to Long pond in Webster, for the water board, and the result of such survey has been placed in their hands.

A survey of Rollins park was made for the park commissioners, showing the present condition and location of the various walks and drives. The plan has been placed in the hands of a competent forester, who will prepare a working plan for the contemplated improvements, so that all work done there may have the same end in view.

The employés of this department for the past year have been, — Frank E. Sampson, Frank W. Brown, assistant engi-

neers; Clifford J. Pattee, transitman; Fred W. Lang, J. W. L. Wilcox, rodmen, who have cheerfully attended to the duties entrusted to them.

I wish to express to the mayor and the members of the city council my appreciation for their support and coöperation in the work of the past season.

The expenses of this department for 1895 are as follows:

Paid for	salaries .							\$2,483.75

#### HORSE HILL BRIDGE.

Work on this bridge was continued and the erection completed February 14. One coat of paint was applied at the time of completion; the second coat was put on in the month of June, and the final payment made to the bridge company.

The amount reserved from the masonry contractors, for pointing one abutment, was paid June 28.

There has been expended on this bridge the following amounts:

Wrought Iron Bridge Co.					. \$3,685.00

# PUBLIC LIBRARY.

# REPORT OF THE TRUSTEES.

### To the City Council:

The trustees of the Public Library herewith transmit the reports of the librarian and the treasurer.

The year has been marked by many improvements in library management, and the beneficial influence of the institution has sensibly increased. The efforts of the librarian and her assistants in this direction deserve special mention and commendation. By reason of the increase of patronage and the labor of preparing a card catalogue, to which reference is made in the librarian's report, their work has been very exacting, but the wants of the public have received most careful attention.

In former years much inconvenience has been experienced from lack of funds during the period from the close of the financial year to the time of the next appropriation. To obviate this difficulty in the future unusual economy has been practiced, in order to make the annual appropriation last until the next appropriation is available. For this reason, among others, fewer books have been purchased, and those have been selected with great discrimination.

We think that an appropriation equal to the one last granted will be sufficient for the needs of the next year. We have no doubt that you will continue the same liberal and enlightened policy in regard to the library that has been pursued in the past.

# Very respectfully,

CHARLES H. SANDERS,	Ward	I.

CONCORD, February 1, 1896.

## LIBRARIAN'S REPORT.

### To the Trustees of the Public Library:

The thirty-ninth annual report, and my first report, is herewith presented.

The year 1895 early brought a loss to the library, for in January occurred the death of Mr. Daniel F. Secomb, for fourteen years its librarian. Under him the institution grew from being helpful to a few to being a source of pleasure and benefit to the entire city; and he left an example of faithfulness, good sense, and wisdom which it will be well to always pattern after. The library is intangibly richer for the memory of this man's devoted service.

It is, too, sensibly richer for a bequest of money, the largest of the four that have been made in the forty years of its existence. President Franklin Pierce gave the library \$1,000; Mr. Gardner B. Lyon, a book dealer, \$1,000; Rev. Mr. Valpey, of St. Paul's School, \$500; but it was left for ex-Mayor P. B. Cogswell, an early trustee, to make the generous beguest of \$5,000, the income of which is to be expended in the purchase of books of a biographic, historical, and scientific nature. The bequest is characteristic. are the books Mr. Cogswell best knew and enjoyed; and as new scientific works are especially expensive, a fund for their purchase is of the greatest help. The proof that Mr. Cogswell believed in the good a library, the "people's college," can do the community, is the most precious part of the legacy; and in return the Cogswell collection should be made to reflect further honor upon his honorable name.

July 1 was begun the first card catalogue of the entire library; when completed, it shall be fully described and explained to everyone. Its main object is to group the material of the library under subjects for the good of all wanting information on any topic. It is also the only catalogue yet approved which can keep an up-to-date record of books added from day to day. Furthermore, this sorting of the material in a library is a necessary preliminary to steps which will be taken as soon as possible, such as the giving of student's or non-fiction cards, the publishing of lists for local class work, etc., etc.

We were most fortunate in securing the services of Mr. George W. C. Stockwell, of the State Library School at Albany, to superintend the making of the catalogue, and his suggestions as to the best library usages in general are also most valuable.

The already large circulation has been increased by 1,200, making the number of books given out this past year \$7,122; of which over 8,000 were sent to the Penacook branch, and March again led as the heaviest month. On Saturdays it averages that every minute of the eleven hours a book is received, discharged, put away on the shelf, and another selected and charged. The number of new borrowers who have applied for cards is large, embracing both the bookworm, wanting one special book for an hour, and the child who comes on his tenth birthday to say, "Please may I take out lib'ries?"

The reference room is the only department that has been completely catalogued, and it is now a little model of what the whole library will be when rearranged according to the Dewey classification and Cutter author-numbers. The attendance upon the reference room shows no decrease in its yearly patronage of over 2,000 inquirers. On leisure days, when the space in the stack-rooms is not needed by busy assistants, permission will gladly be given to anyone to have access to any of the book shelves in the library.

The reading room will contain more matter than ever this coming year, and its popularity, attested by 10,000 yearly readers, should increase till it allures the Main street loafer who was heard to say, "Well, I guess I'll kill an hour and

then go home." This library takes an unusually large number of periodicals for circulation, remembering what a fine lecturer himself says, that the place of the old lyceum has been filled by magazines.

April I the permanent slip system of charging books was adopted and is well liked. It makes a record of the number of times each book is taken out, and thus speaks more forcibly than words as to the demand for certain works.

The books bought this last year have necessarily been few and chiefly fiction. But when, by the new card catalogue's subject divisions, it is ascertained what departments are weak, they can be strengthened in due proportion; for with the state library to provide legal and congressional documents and the historical society to furnish antiquarian matter, our public library seems exceptionally fortunate in having no call to be anything but a good all-round collection; making, as it were, a subway of what would spoil its being what a library has been well called, a "literary common."

But a public library should secure all publications connected with the city in which it is located, and any work by or about a Concord person will be gratefully received here.

In the account book on the table before you will be found a memorandum of all the bills approved, paid, and receipted during 1895.

I wish to express my indebtedness to the trustees for their permission to experiment; to the local press for their insertion of lists and notices; and above all to the assistants, who have all joined heartily and pleasantly in the greatly increased work of the year.

Respectfully submitted,

GRACE BLANCHARD,

Librarian.

## REPORT OF THE TREASURER.

#### To the City Council:

The balance received from the former treasurer as of January 1, 1895, was \$221.79; receipts from the library, \$236.20, to which has been added the city appropriation of \$6,000, making a total of \$6,457.99 as available funds for the purpose of the library. Of this sum \$4,439 has been expended, per itemized account, leaving a balance in the hands of the treasurer in general account, \$2,018.99, and in trust account, \$192.50.

# SANITARY DEPARTMENT.

## REPORT OF BOARD OF HEALTH.

#### To His Honor the Mayor and the City Council:

The Board of Health herewith transmits the detailed report of the work of its executive officer, Sanitary Officer Charles E. Palmer, for the year 1895. In transmitting this report, the board desires to again take occasion to express its satisfaction with the faithful, intelligent, and impartial manner in which Officer Palmer has performed the duties of his position, — a position, it may be added, which is growing each year of greater importance to our city and which long since became an indispensable factor of the municipal organization.

Year by year our citizens have become better acquainted with the scope and purpose of the sanitary regulations under which the executive officer acts, and have more clearly understood the public benefits which his well-directed efforts have secured, the result being that a more general and hearty cooperation has been extended, with correspondingly more satisfactory results. Especially is this true with respect to the attention given to the regulations governing the care of cases of contagious diseases, and compliance with the suggestions of the health officer. Included in the great amount of work which devolved upon the health officer during the past year were no less than 1,149 visits made to persons ill with contagious diseases, and yet their mere enumeration tells but indifferently the importance of this feature of the sanitary supervision of the city, and of the discomforts attending the sacrifice of rest and sleep that no attention should be withheld

which could the better guard the public against the dangers of contagion or lessen the inconvenience of suffering in an afflicted household. The total number of houses placarded during the year has been 236, and the same number of placards has been removed. The health officer has fumigated during the year 296 rooms and two school-houses, and has burned 53 pieces of infected bedding. The funerals of 15 persons who died from contagious diseases were attended.

By act of the last legislature the issuance of burial permits was made a part of the duties of the board of health, the law being as follows:

AN ACT in amendment of chapter 173 of the Public Statutes relating to the registration of Births, Marriages, and Deaths.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Boards of health in cities shall have charge of the granting of permits for the burial of the dead; and no interment, disinterment, or removal from the city, of the dead body of any human being, nor deposition thereof in any tomb or vault, shall be made without a permit from said boards or their duly appointed agent, nor otherwise than in accordance with said permit. No such permit shall be issued until there has been delivered to the board a satisfactory written statement containing the facts required by section 1, chapter 173, of the Public Statutes, together with the certificate of the attending physician, as required by said chapter 173, or, in absence thereof, such other evidence as may be required by law. Upon the receipt of such statement and certificate, the board shall forthwith countersign the same and transmit it to the city clerk for registration.

Approved March 21, 1895.

Since this law became operative the number issued by the health officer acting as the agent of the board has been 218. The work of sanitary inspection has been carried on during the year as opportunity offered, although the pressure of other duties of the office for the past two seasons has pre-

vented so thorough and systematic an inspection from house to house as the sanitary regulations contemplate and the best interests of the public demand. While attention to contagious diseases is of the greatest consequence, and other branches of the work must be made secondary, it is the opinion of this board that such provision should be made, by the employment of an assistant inspector during certain seasons of the year, or otherwise as may seem best to your honorable body, that every building in the compact portions of the city might have careful sanitary inspection at least once each year. The number of complaints attended to and inspections made during the past year was 524; number of letters written and orders given to abate nuisances, 518; number of sewers inspected, 104.

CITY OF CONCORD. - BOARD OF HEALTH.

RULES AND REGULATIONS CONCERNING CONTAGIOUS DIS-EASES, QUARANTINE, AND DISINFECTION.

Adopted by the Board of Health and approved by the Board of Mayor and Aldermen, 1895.

In every case of small-pox, diphtheria, scarlet fever, or measles reported to this board, the house or tenement shall be placarded in a conspicuous manner, said placard to remain in the case of small-pox, not less than six weeks; diphtheria, not less than three weeks; scarlet fever, not less than four weeks; measles, not less than two weeks; said periods to be extended at the discretion of the attending physician or the board of health. Thorough isolation of the patient shall be maintained throughout the aforesaid periods and until the premises have been fumigated under the direction of the board of health.

No person shall remove from one building to another, any patient ill with an infectious or contagious disease, nor move household effects from premises where contagious disease exists, except by permission of the board of health.

Any carriage used in conveying a person sick with smallpox, scarlet fever, or diphtheria, or in transporting the body of a person deceased from either of the said diseases, shall be immediately disinfected under the direction of the board of health. No book shall be taken from a public, Sunday-school, or other circulating library and carried into a family where there exists a case of any contagious disease.

# REGULATIONS PERTAINING TO CONTAGIOUS DISEASES IN PUBLIC SCHOOLS.

"No child shall attend any public school unless he has been vaccinated or has had the small-pox." — Public Statutes,

chapter 93, section 2.

"The prudential committees or boards of education shall not admit any scholar into the public schools without satisfactory evidence that such scholar has been vaccinated; and the city physician shall at all times be prepared to vaccinate, at the expense of the city, any scholar who is unable to pay therefor." — Ordinance, Concord, chapter 13, section 11.

A certificate from the board of health or a reputable physician that a pupil bears physical evidence of having had vaccinia or variola, will be regarded as satisfactory proof that the pupil has been vaccinated or had the small-pox within the meaning of the foregoing requirements. A record of the fact must be entered on the school record and upon orders for promotion or transfer.

# PERIODS AFTER WHICH PUPILS WHO HAVE HAD CONTAGIOUS DISEASES MAY SAFELY RETURN TO SCHOOL.

SCARLET FEVER. — No less than six weeks from date of rash if scaling of the skin has completely ceased, and there is no sore throat, ears, eyes, nostrils, or lips.

DIPHTHERIA. — Not less than three weeks, if convalescence is completed, or if a microscopical examination shows the absence of diphtheritic bacilli, and there is no longer any form of sore throat nor any kind of discharge from the throat, nose, eyes, or ears.

MEASLES. — Not less than three weeks if all scaling of the skin and the cough have ceased.

GERMAN MEASLES. — In two or three weeks, according to the nature of the attack.

Whooping-Cough. — In six weeks after commencement of whooping, or whenever the characteristic spasmodic cough and the whooping have ceased.

Mumps. — In two or three weeks, or when all traces of swelling have disappeared.

SMALL-Pox. — At least eight weeks; and longer if any scabs or crusts remain upon the skin.

Ophthalmia. — One month after there has been complete absence of discharge, or until the inner surfaces of the eyelids are free from granulations.

Scholars affected with any contagious disease must be excluded from the schools until the apartments, clothing, and bodies of such scholars have been disinfected under direction of the board of health, and a certificate of the board of health is given for their readmission.

If a child having a contagious disease should attend school, the school-rooms must be disinfected by the board of health before they are used again.

When a child is sick and suspected of having a contagious disease, other children in the family must not attend the schools until they produce a certificate from a respectable physician that there will be no danger of their communicating the disease to other pupils.

Children in tenements using the same halls and outside doors with families whose tenements are carded, must be excluded from the schools until a certificate is given by the board of health that their attendance will not endanger the health of other pupils.

Children having a contagious disease, without seeing a physician must be admitted by a certificate from the board of health.

Pupils exposed to the following diseases, or living in a family where such diseases exist, may be excluded from the schools according to the following schedule of maximum periods of incubation. No deviation of any sort or shortening of time can be allowed in dealing with the first three mentioned diseases.

#### MAXIMUM PERIODS OF INCUBATION.

Diphtheria			•	12	days.
Scarlet fever				14	
Small-pox	.•			ıŚ	4 6
Measles .				16	
Whooping-coup	gh			2 I	6.6
German measle	's			6	"
Mumps .				24	
Chicken-pox	•		•	13	

We are pleased to report the adoption by the board of education of the foregoing rules and regulations formulated by a joint committee of their board and the board of health; they have been approved by your honorable board and are now strictly enforced. We feel that much good will result from these, and that the prevalence of germ-produced diseases will be lessened. For the first time in the history of our existence there has been a systematic and impartial observance of the vaccination requirement for admission to the public schools. Careful attention is paid to families and neighborhoods where contagious disease exists in children. health officer and superintendent of schools are in touch both working for the common good. As these diseases are more readily propagated by school children, it is easy to see how necessary it is to be watchful of the schools. We are anxious to do our full duty in the premises.

If a pupil has been exposed to one of these diseases he is not allowed to go to school until the expiration of the time during which he might have come down with it. Then, if well, he may attend school but only on producing the following certificate:

#### CITY OF CONCORD BOARD OF HEALTH.

This certifies that	
who has been exposed t	o a contagious discase, may be re
admitted to school.	
18	Board of Health.

If the disease develops he is isolated the required number of days and returns to school bearing this certificate:

#### CITY OF CONCORD BOARD OF HEALTH.

-	that the apartments, clothing, and body ofhave been disinfected under
our direction, d	and that said
may be readmitt	ted to school.
	D . 1 C II 11
	Board of Health.

#### HOSPITAL FOR CONTAGIOUS DISEASES.

For the past few years we have called your attention to the need in our midst of some institution where diseases of a contagious character could be treated and, in furtherance of that object, were instrumental in presenting to your honorable body last January a petition bearing the name of every physician then in the city. We were told the matter was referred to the committee on lands and buildings; we do not know of any action taken on it beyond its reference. Plans of a building were drawn, estimates of its cost secured, and at a special meeting of the trustees of the Margaret Pillsbury General Hospital, a suitable site was generously granted the city for a nominal sum.

We respectfully ask that a hearing be given us at an early day so that parties interested may be heard.

A peculiar phase of the subject may be illustrated by a case of recent occurrence. A nurse in the discharge of her duties contracted scarlet fever from the patient, and as she was refused admission to her rooms was removed to the pesthouse. Most of our nurses are without homes here, having come from outside the city and renting rooms; now if they are to be told when, in self-sacrificing devotion to their praiseworthy vocation, they fall (as fall they may at any time) a victim to the dread contagion, they are to be treated in a build-

ing unfortunately called pest-house, how far removed is the day when they will refuse to attend such cases? Which one of us will receive the first refusal? St. Paul's School, with its 150 employés, the state insane asylum, with its 100 nurses, the state prison, employing some 15 guards and overseers, represent an element of our population somewhat peculiarly situated. Ever open to the danger of contagion by accessions to its ranks from different localities - our own state, other states, and foreign countries - there is no adequate provision made for them or those with whom they come in contact in case of a contagious disease appearing among These three institutions alone should have their interests in this particular safe guarded without even calling to mind the large number of railroad employés, children in the orphan asylums, clerks, domestics, mechanics, and others who are daily with us, but, in case of illness, at the mercy of strangers. Should a fatal epidemic of diphtheria prevail at our asylum for the insane through want of proper facilities on our part to handle the first case, as did happen at the Maine insane asylum a few years ago, Concord would receive harsh though deserved criticism at the hands of the people of the whole state. To offer this or that excuse would be begging the question. Prevention is better than cure.

#### DIPHTHERIA.

Realizing the vast importance of an early diagnosis of this disease, at the very beginning of the year arrangements were perfected whereby physicians were enabled to have a microscopic examination of suspicious cases made without any expense to them. Many of the medical men availed themselves of this opportunity with great satisfaction to themselves, patients, and community. We solicit all practicing physicians in the city to accept this offer. There is now little justification for allowing a case of diphtheria to go unrecognized more than forty-eight hours. The earlier the diagnosis the better the treatment; true of all remedies, especially of antitoxine, and we would suggest the advisability of a more

thorough use of serum therapy. Results obtained by many of the best authorities seem to prove that herein lies our greatest strength; when painstaking observers of acknowledged ability and truthfulness reduce the mortality rate from 30 and 40 per cent. to 15 per cent., surely there must be something in it more than coincidence. Dr. Harold C. Ernst, of the Bacteriological Institute, Harvard Medical School, now attends to our microscopical work, telegraphing us at once his findings. The following circular was sent to all of the physicians December 19, 1895, and is self-explanatory:

#### DEAR DOCTOR:

We have arranged with Dr. H. C. Ernst, of the Bacteriological Laboratory, Harvard Medical School, to make the cultured diagnosis of diphtheria and invite you to avail yourself of this valuable aid in all suspicious cases. Copper boxes containing tubes of nutrient media, wires, blanks, and full directions can be obtained at the Concord Drug Store, corner North Main and Pleasant streets. As soon as possible after specimen is obtained, the outfit is to be returned to the drug store, whence, by first express, it will be forwarded to Boston; results, when determined, will be telegraphed to the health officer.

All will be furnished free of expense to you.

E. A. CLARK, M. D.,

E. N. PEARSON,

D. E. SULLIVAN, M. D., Board of Health.

#### TUBERCULOSIS.

Pulmonary tuberculosis, commonly called consumption, is a disease about which we are hearing much at the present day. Perhaps we hear more of it as affecting cattle than men, but the beast is certainly inferior to the human being and should not receive the greater share of attention. Although milk and beef are carriers of the disease, yet its transmission by man to man is a far more frequent cause. That consumption is a preventable disease—or, to put it in another way, is a disease contracted by means of a poison introduced

into the system—should be made known to everyone within our reach. The great danger lies in the sputa; tubercle bacilli are swarming there and, when dried, are breathed into the lungs. The remedy is evident: destroy the sputa by fire. Our health officer has been instructed to give landlords and tenants all necessary information on this subject, and, when requested, to fumigate the rooms occupied by consumptives.

#### PLUMBING.

It is the intention of this board at an early date to submit for your consideration regulations governing this matter justly deemed of vital importance and which has not been advanced with other work. The plan will embrace:

First. Filing plans and specifications at the office of the board of health on such form as they will provide, which shall be in accordance with the regulations and be approved by the board in writing before any person shall proceed to construct or to alter any portion of our drainage system except to repair leaks.

Second. Notice to the board when such work is ready for inspection and which must be left uncovered and convenient for examination until inspected and approved.

Third. Inspection. All plumbing work in new buildings and new work in old buildings must be tested by the board or their executive officer with the hydraulic or such other test as they may direct.

(Signed) E. A. CLARK, M. D., Chairman, E. N. PEARSON, Secretary, D. E. SULLIVAN, M. D., Board of Health.

Concord, N. H., January 1, 1896.

### HEALTH OFFICER'S REPORT.

#### To the Board of Health:

Gentlemen, — In compliance with the city ordinance relating to the preservation of the public health, I herewith submit a full report of this department for the year ending December 31, 1895.

The tabulated reports speak for themselves, and prove the oft-repeated assertion that we have a remarkably healthful city. The work accomplished by this department in the abatement of nuisances, by reason of complaints and those found by house inspection, and the correction of other sanitary defects, of a greater or less importance, can be seen by the following summary:

Accumulation of decayed	d:	fruit,	coal	ashes,	etc.	35
Bad well water .		•				2
Bad sink drainage .						14
Broken sewer traps						17
Catch basins, not trapped	d					15
Dead animals						24
Decayed meat and fish						3
Defect in house sewers						II
Dumping rubbish .						16
Dropping manure in stre	et					1
Defective plumbing						I 2
Filthy stables						17
Filthy cellars						I 2
Filthy swill barrels.						15
Filthy back yards .						9
Filthy alleyways .		•				3
Foul and offensive cesspo	ooi	ls .			•	6
Keeping hogs .						18

As can be seen, a good many inspections by the sanitary officer have been necessary in order to properly deal with this branch of the work. The complaints have been for the most part well founded, only six having proved to be without any cause. All complaints are regarded as strictly confidential by the board. Nearly all the nuisances complained of have. been abated.

#### SANITARY INSPECTION.

I consider the sanitary condition of our city very good, with the exception of a few localities. House inspection has

· 524

been continued during the year, as time would permit, but with increased duties in other important directions I have been unable to accomplish what ought to be done, and I would suggest that an assistant be employed for two or three months during the early spring to make a systematic inspection of the entire city.

Much improvement has been made in the condition of premises throughout the city since the adoption of the ordinance by the city council in September, 1895, prohibiting the destruction of garbage and other refuse matter by fire, but providing for the removal of all such matter by the highway commissioner, which has been faithfully done by that official, nearly every family availing themselves of the privilege of cleaning their yards and having the refuse removed without personal expense.

The number of inspections made during the year is given in the list below:

Private dwellings				•			63
Tenements .			• •		•		178
Churches .						•	3
Stables		•			•	•	49
Meat markets.				•	•		S
Hotels					•	•	2
Factories .				•	•	•	4
School-houses	•	•	•			•	I 2
Business blocks			•			•	17
Public buildings		•				•	5

A record of each inspection is made, giving the name of the person owning the premises, street and number, date of inspection, condition of yards, stables, out-buildings, privy vaults, cesspools, water supply, plumbing, drainage, watercloset ventilation, cellars, number of tenements, by whom occupied, kind of buildings, and other remarks, according to the condition of the premises.

The value of intelligent, careful inspection of houses cannot be overestimated in its importance to the health of their occupants. The question of plumbing and drainage is one in which the whole public is concerned, and which should be decided and carried out by public authority, and the work held under strict supervision of a competent inspector, to protect the public against the use of poor work and defective material, liable, as it is, to be placed out of sight or where it might be concealed from the eye of the inspector.

The doctrine that filth plays an important part in the cause of disease lies at the foundation of very much of the sanitary administration of cities and towns throughout all civilized countries. The popular impression and undoubtedly the belief among a very large part of the medical profession as well as of the officials who have charge of the sanitary administration is that filth is, in itself, the active cause of disease, and that little else is essential to the production of certain infectious diseases, and I earnestly renew my suggestion of last year, of the enactment of ordinances governing plumbing and placing the same under the care of an inspector.

#### SEWER INSPECTION.

In compliance with the city ordinance I have endeavored to perform my duty in regard to the enforcement of the rules and regulations relative to sewers and drains. In all cases, so far as known, I have personally inspected the connections made and work completed. A complete record has been made and filed of the 104 sewers, giving location of inlet, size and kind of pipe used, rate of fall per foot, total length and name of drain-layer doing the work.

It will be seen from the following table that a smaller number of sewers and water-closets have been put in the present year, owing to the fact that most of our houses are now supplied with sewers, and water-closets have taken the place of privy vaults and cesspools that have been abolished by order of the board.

Number of water-closets put in during the year 215 Number of privy vaults removed . . . 103 The following table shows the various sizes and kinds of pipe used:

196	feet of	8-inch Akre	on pipe,
1,348	"	6-inch	••
4,796	"	5-inch	"
642	"	4-inch	"
163	"	4-inch iron	pipe,

making a total of 7,145 feet, or an average of 68 feet for each lateral sewer. This amount of drainage has been furnished to the following classes of buildings:

Private dwellings	•		•		•		32
Tenement houses							48
Public institutions	•						3
Business blocks							5
Stables						•	2
Markets				•		•	2
Factories .							5
Surface drains							4
Stores							3
Total .		•		•			104

#### CONTAGIOUS DISEASES.

Happily the city has escaped all forms of epidemic during the year, the diseases that are more or less contagious having been broadly scattered and mild in character. Every possible effort has been made to carry out the quarantine rules and regulations, and in no instance have I known of the disease being spread after having been reported and the house placarded and isolation ordered. There have been reported to this office 258 cases of contagious disease during the year.

Number houses placarded			237
Number visits made .	•		1,149
Number of funerals attended		_	15

The various cases have been reported to this office by months, as follows:

	Di THE		Scal Fev	RLET ER.		HOID VRR.		IBRA- OUS OUP.	MRA	sles
1895.	No. cases reported.	No. deaths.	No. cases.	No. deaths.	No. cases.	No. deaths.	No. cases.	No. deaths.	No. cases.	No. deaths.

Weekly reports of contagious diseases existing in the city have been prepared and sent to the state board of health, stating what action was taken by the health officer in each case.

The above table does not include cases of typhoid fever brought to the city hospital for treatment. Total number of cases reported from the hospital 24, but two cases proving fatal.

The number of cases of contagious disease reported to this office the past year has been somewhat in excess of the number reported in 1894. This is due in part to the increased faithfulness with which physicians and households have reported such cases. Special effort has been made during the year to afford a larger amount of protection to the public from this source of danger.

The rules regarding the method of reporting such cases, the condition of quarantine, disinfection, school attendance, and use of the public library, have been extended and increased in efficiency.

The rules pertaining to contagious diseases adopted by your honorable board and approved by the city council, May 14, 1895, were sent to the physicians in general, teachers in the schools, and left in places where contagious diseases existed, and proved of much assistance to those in whose hands they have been placed.

Number of rooms fumigated			296
Number of hacks and carriages fumigated			I 2
Number of school-houses fumigated .	•		2
Number of churches fumigated			1
Number pieces bedding destroyed by burning	ng		53
Number pounds sulphur used in fumigating			850

#### HOSPITAL FOR CONTAGIOUS DISEASES.

The lack of proper hospital accommodations for the care of persons sick with diphtheria or scarlet fever, have been more forcibly brought to my attention the past year than ever before. November 17, a nurse while in the discharge of her duties, contracted scarlet fever, and, having no home in the city, at her request I moved her to the pest-house, procured a trained and competent nurse, and provided everything possible for her comfort. After careful treatment for three weeks she was pronounced recovered by the attending physician.

This building, which has been kept for a small-pox hospital, is in no way suitable for cases of diphtheria or scarlet fever. Its location is objectionable; it has no water supply; and its drainage is of the most primitive kind.

We need, and need badly, a well-constructed and well-equipped hospital for contagious diseases. We believe in public improvements, but do we need more or better developed parks, or better graded and paved streets more than we need this hospital where we can properly care for persons without a home stricken with a contagious disease? I hope that the city council will take immediate action towards providing a suitable building for such purposes.

Schedule of property owned by the City of Concord in care of the board of health:

Office furnit	ure a	nd fix	tures	•		\$40.00
Pest-house a	ınd lo	t.	•			500.00
Pest-house f	urnitı	ire an	ıd fixt	ures		25.00
Total						\$565.00

This report will conclude with the monthly mortuary reports which have been compiled with the greatest possible care. The record of births by months to some extent is incomplete, owing to the neglect of some of the attending physicians to send in their reports. The records of deaths, since the passage of a general law by the legislature, giving the board of health the charge of granting burial permits, which went into effect May 15, 1895, reach this office through necessity and are accurate, and will be found to contain much valuable and reliable information concerning the causes of death in Concord during the year 1895.

These statistics have been furnished the daily papers and sent in exchange to nearly one hundred different cities in the United States and Canada.

I most respectfully return sincere thanks to his honor the mayor, and members of the city council, to the board of health, and all others who have assisted me in any way, for their uniform courtesy and kindness, thereby answering every reasonable demand made upon them.

Respectfully submitted,

CHARLES E. PALMER, Health Officer.

Mortality Report for the Year ending December 31, 1895.

The organization of the police department at the present time is as follows:

G. Scott Locke, city marshal.

James E. Rand, assistant marshal.

Daniel S. Flanders, captain night watch.

Fred M. Eaton, regular police and night watchman.

Whitney D. Barrett,	66	"	Penacook.
James Kelley,	66	66	66
Charles E. Kelley,	66	66	
John E. Gay,		"	
Charles W. Hall,	66	"	
Elmer J. Brown,			
Irving B. Robinson,			
Charles H. Rowe.			

The special reserve officers, consisting of fifteen men, have rendered valuable assistance to this department.

#### SPECIAL RESERVE OFFICERS.

### Charles L. Gilmore, captain.

O. H. Bean, Thomas P. Davis,
George W. Chesley, Eugene H. Davis,
George H. Silsby, Ira A. Poore,
John T. Batchelder, George D. Richardson.
W. H. H. Patch, Horace Robinson,
Willie A. Little, George D. Worth,
W. A. Flanders, William R. Green.
Hoit Robinson,

#### RECOMMENDATIONS.

I wish to call your attention to buildings in this city that are unprovided with fire-escapes. I think an ordinance should be passed compelling owners of buildings more than two stories high to provide fire-escapes for the same.

I would recommend a police signal line extending from West street to Penacook, with signal boxes at convenient points. It would be of great service in case of fire at West Concord and Penacook.

I would also recommend that a stable suitable for one horse, one wagon, and the city ambulance be added to the police station. By authority of the city council a team has been purchased which has been of great benefit to this department.

#### COURTEOUS ACKNOWLEDGEMENT.

For the success attained by this department, sincere thanks are due all the officers for their hearty cooperation. In conclusion I wish to return my sincere thanks to the board of police commissioners, to His Honor Mayor Robinson and the board of aldermen for the courtcous treatment this department has received at their hands. Harry G. Sargent, city solicitor, has always advised and assisted us, for which our thanks are due him.

Respectfully submitted,

G. SCOTT LOCKE,

City Marshal.

## REPORT OF THE CLERK OF THE POLICE COURT.

### GEORGE M. FLETCHER,

Clerk of Police Court.

CONCORD, N. H., January 27, 1896.

## REPORT OF THE CITY SOLICITOR.

To the City Council:

I have the honor to submit my annual report as solicitor.

The only suits in which the city is now interested as a party are Kemp v. Concord and Mary J. Gay et al. v. Concord.

The first is a suit to recover damages for an accident caused by an alleged defective railing and dangerous embankment. The amount claimed is one thousand dollars (\$1,000).

The second is a petition for an assessment of damages for land taken by the city for a highway. The petitioners were not satisfied with the award of damages made by the mayor and aldermen and filed this petition to the supreme court.

The case of Ann Currier v. the City of Concord, pending at the date of my last annual report, was decided in favor of the city. The court held that the notice filed by the plaintiff was not sufficient.

The suits of Albin & Martin and the Tahanto Real Estate Association, for damages caused by cutting down the grade of a highway, were settled by my advice and upon terms which I regarded as reasonable for both parties, considering the facts.

The suits for abatement of taxes in favor of the First National Bank, the National State Capital Bank, and the Mechanicks National Bank of Concord, referred to in my last report, were decided in favor of the banks, the court holding that the taxes assessed were invalid.

During the past year I have been called upon to give advice to the city officers about various matters and have made such complaints and warrants in criminal cases as have been required by the police department.

HARRY G. SARGENT.

Solicitor.

CONCORD, December 31, 1895.

## POLICE COMMISSIONERS.

## REPORTS OF POLICE COMMISSIONERS.

The quarterly reports of the board of police commissioners, summarized, are as follows for the year:

January 1, 1895. Daniel S. Flanders was appointed captain of the night watch.

May 1, 1895. Horace Robinson and Willie A. Little were appointed special policemen.

October 1, 1895. No business was transacted during this quarter.

October 12, 1895. The resignations of Harvey W. Stevens and Jeremiah P. W. Roach, special police officers, were received and accepted.

The resignations of Charles P. Webster and John E. Baker, regular police officers, were received and accepted.

Irving B. Robinson and Elmer J. Brown were appointed regular police officers.

Leave of absence granted to G. Scott Locke, city marshal, for three weeks.

December 10, 1895. Charles H. Rowe was appointed regular police officer.

George D. Worth and William R. Green were appointed special police officers.

Charles C. Plumer was appointed a special police officer.

## ANNUAL REPORT OF THE CITY LIQUOR AGENT.

### To the City Council:

In compliance with section 10, chapter 112, of the Public Statutes of this state, and the resolution of the board of mayor and aldermen of May 26, 1888, establishing this agency, I respectfully report the transactions of this office for the year 1895.

### ON HAND JANUARY 1, AND PURCHASED DURING THE YEAR 1895.

MOSES LADD, City Liquor Agent.

CONCORD, N. H., December 31, 1895.

STATE OF NEW HAMPSHIRE,
MERRIMACK COUNTY SS.

Personally appeared Moses Ladd and made oath that the foregoing account by him rendered is correct according to his best knowledge and belief.

Before me,

J. A. COCHRAN,

Justice of the Peace.

## PUBLIC PARKS.

## SEVENTH ANNUAL REPORT OF PARK COMMISSIONERS.

To the City Council:

Under the revised ordinances of the city the duties of the Park Commissioners have been enlarged, and now all the parks and commons of the city are under the control of the Park Commissioners.

The appropriations this year have been as follows: White park, \$3,000; Rollins park, \$1,000; Penacook park, \$100.

The report of the treasurer accompanies this and is made a part of our report.

The work of the year has extended over the above mentioned parks, especially at White park and Rollins park.

#### WHITE PARK.

The work at White park has been largely of a constructive character, grading and filling, and for this purpose a large amount of grade and loam has been purchased and put upon the grounds. Perhaps more has been done during the year to really extend the improvements than in some years past. Much that has been unsightly has been obliterated and the whole park has appeared in a wonderfully satisfactory condition, notwithstanding the drought in the early summer which was more than made up by the later rains. It is, in some sense, a laborious work to reconstruct and reclaim, but in the end it is found to be very satisfactory and the results obtained are fully appreciated.

Our city, as compared with other cities, is very economical in its expenditures for parks, and perhaps it is wise, although it often seems like delaying matters to be restricted to a certain amount with which to accomplish a great deal. We take pride in saying that we feel that the money has been expended to the best possible advantage.

If it were possible, with the appropriation we now have, to use some of it for bridges and buildings on the park, the beauty and utility of the grounds and surroundings would be very largely enhanced.

The original plan made by Mr. Charles Elliot, called for a playground, and it is expected in the near future, that this necessary adjunct of the park may be completed.

A new swan was purchased to take the place of the one killed during the previous summer.

A certain amount of lawlessness is still noticed, yet on the whole there is an improvement, and not until we shall have fences and defined entrances will this in a great measure be controlled. The fact that an entrance can be made at almost any point gives an opportunity for travel and dogs, with a consequent destruction of shrubs and grass, which in the first stages of growth need much care and attention. No dog should be allowed in the park without a leash, or without someone who can control it, for much damage is done each year by them.

#### ROLLINS PARK.

Early in October, the superintendent, with his force of men, began work on Rollins park. Mr. James H. Bowditch was called to view this plot of ground and met the commissioners and looked over the ground fully. It was his opinion, and also the opinion of the commissioners, that the park should be protected on the north from intrusion and from unsightly surroundings. This is an obstacle in the way of completeness of the park, and it is hoped that the street which was petitioned for will be granted and a thoroughfare laid out.

The nature of this tract of land being such that it was evident in the minds of the commissioners that no special attempt at decoration or beautifying the grounds with choice plants would be wise, but rather to make it accessible by means of drives and paths for a quiet, restful outing, where people could at once be ushered into dense woods and study the beauties of a woodland park of natural growth.

The appropriation has been nearly exhausted, and it will need from year to year an annual appropriation to carry out the plans already started by the commissioners, and we hope that the wisdom of the city in protecting this and in the care of it will be a source of pleasure and pride to the citizens of Concord.

#### PENACOOK PARK.

Penacook park has also come under the control of the park commissioners and has been kept in a tidy and neat condition under the superintendence of Mr. O. F. Richardson. Very few people visit these grounds at the present time. An annual appropriation will undoubtedly be needed for their maintenance and care.

HENRY ROBINSON, ex officio, BENJAMIN C. WHITE, WILLIS G. C. KIMBALL, BENJAMIN S. ROLFE, JOHN F. JONES, WILLIAM P. FISKE, GEORGE A. YOUNG,

Park Commissioners.

## CEMETERY DEPARTMENT.

## REPORT OF COMMISSIONERS.

To the City Council of the City of Concord:

The Commissioners of Cemeteries beg leave to submit the following report:

The work of care and improvement of the cemeteries has been carried on the past year as rapidly as the funds placed at our disposal have warranted. A great deal of work has been done at both cemeteries in repairing the roads and avenues, grading grounds, etc. We have removed unsightly iron fences and posts at the Old North cemetery, and otherwise greatly improved its appearance.

During the year we have laid out and graded another beautiful plot at the north side of Blossom Hill cemetery, and quite a number of lots have already been taken.

We have completed the grading of a block to be used as single-grave lots; also the grounds where the poor can be buried and suitable headstones will mark their last resting-place.

We have erected a substantial iron fence along the northerly line of Blossom Hill cemetery, which not only adds to the beauty of the cemetery but will be found useful, as quite a thoroughfare had been usurped across the grounds.

The commissioners, while extremely grateful for the appropriation of five hundred dollars by your honorable body, to aid in the erection of a chapel, waiting-room, and office for the superintendent, still believe that there should be erected a building of such dimensions and beauty as will warrant you in largely increasing your appropriation for this object. We possess a cemetery the natural beauty of which is certainly unsurpassed in the country, and in which every citizen takes just pride.

While the city possesses a cemetery large enough to meet the requirements for several years, yet your commission would respectfully recommend that action be taken by the city council looking to the purchase of land lying between the southerly line of Blossom Hill cemetery and Penacook street.

Respectfully submitted,

GEO. O. DICKERMAN,

Secretary of the Board.

# FIRE DEPARTMENT.

# REPORT OF CHIEF ENGINEER.

## To the Honorable Mayor and City Council:

I have the honor to submit for your consideration the following report of the Fire Department for the year 1895.

The precinct department has responded to thirty (30) box alarms, and fifty-nine (59) still alarms, as follows:

#### BOX ALARMS.

Box 5. January 7, 3.24 A.M. Fire in passenger car in carhouse owned by Concord & Montreal Railroad. Caused by overheated stove. Recall, 4.30 A.M. 600 feet of hose wet.

	Value.	Loss.	Insurance.	Ins. paid.
Car,	\$1,200.00	\$800.00	\$800.00	\$800.00

Box 24. January 11, 8.19 P.M. Fire in basement of Commercial House, corner Main and Centre streets, owned by H. G. McIntire heirs. Cause unknown. 1,650 feet of hose wet. Recall, 9.15 P.M.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$5,000.00	<b>\$</b> 35.00	\$3,750.00	\$35.00
Contents,	3,000.00	18.00	1,700.00	18.00

Box 35. January 12, 9.07 P. M. Fire in residence of Dr. A. P. Chesley, corner of State and Pleasant streets. Caused by electric light wires. No hose wet. Recall, 9.18 P. M.

	. Value.	Loss.	Insurance.	Ins. paid.
Building,	<b>\$6,</b> 000.00	\$22.00	<b>\$2,</b> 500.00	<b>\$22.00</b>
Contents,	2,000.00	73.80	500.00	73.80

- Box 49. January 23, 1.36 P. M. Slight fire in wood-yard on Dakin street, owned by Nelson Gloddy. Caused by spark from portable engine. No damage. 950 feet of hose wet. Recall, 1.49 P. M.
- Box 42. February 15, 12.40 A.M. Chimney fire in residence of R. A. Freeman, 16 Concord street. No damage. 400 feet of hose wet. Recall, 1.15 A.M.
- Box 27. February 24, 10.01 a.m. Fire in dwelling-house, 29 Merrimack street, owned by H. Farrington and occupied by F. I. Dorr. Caused by defective chimney. Recall, 10.46 a.m. 1,550 feet of hose wet.

 Value.
 Loss.
 Insurance.
 Ins. paid.

 Building,
 \$6,000.00
 \$162.71
 \$4,500.00
 \$162.71

- Box 52. March 25, 10.11 A. M. Fire in shed owned by A. H. Watson, lower end Turnpike street. Caused by tar in kettle boiling over. No damage. No hose wet. Recall, 10.40 A. M.
- Box 23. March 31, 12.15 p. m. Fire in saloon car in Northern Railroad yard, owned by Boston & Maine Railroad. Cause unknown. 1,800 feet of hose wet. Recall, 12.39 p. m.

Value. Loss. Insurance. Ins. paid. \$350.00 \$200.00 \$200.00 \$200.00

4-4-4. April 21, 1.55 p. m. Brush fire on land owned by Joseph Walker, near reservoir.

By an ordinance passed by the city government, November 13, 1894, the extinguishment of brush fires was assigned to employes of the highway department. Repealed May 14, 1895. Said employes not responding, volunteers were sent from the fire department, the highway department paying for services rendered. No damage.

4-4-4. April 26, 12.10 P. M. Brush fire on so-called Stevens lot near St. Paul's School. Highway department employes not responding and buildings being in imminent danger, an alarm was sounded from box 34, and volunteers from the fire department were sent to extinguish it. The chemical engine and one hose wagon was also sent, it being represented by telephone that

they could be used to good advantage. They were not used, however. No damage.

Box 34. April 26, 12.25 P. M. Brush fire. See above.

Box 14. April 29, 9.18 P. M. Fire in barn owned by George T. Comins, North State street, opposite Fosterville. Property to the north being in danger, a second alarm was sounded at 9.34. Cause unknown. 3,000 feet of hose wet. Recall, 10.50 P. M.

Value. Loss. Insurance. Ins. paid. Barn, \$2,500.00 \$2,500.00 \$1,500.00 \$1,500.00 Contents, 50.00 50.00 None. None.

Tenement houses owned by the Tahanto Real Estate Association were also damaged as follows:

Value. Loss. Insurance. Ins. paid. Buildings, \$5,000.00 \$396.31 \$3,000.00 \$396.31

- 4-4-4. May 3, 1.15 P. M. Brush fire on Plains. Extinguished by volunteers from fire department. No damage.
- 4-4-4. May 6, 11.42 A. M. Brush fire on Auburn street. Extinguished by volunteers from fire department. No damage.
- Box 24. May 17, 2.16 A. M. Fire in residence of Jacob Chadwick, 210 North Main street. Cause unknown. 2,200 feet of hose wet. Recall, 3.30 A. M. Loss unadjusted. In litigation.
- 4-4-4. May 24, 2.04 P. M. Brush fire on so-called Long Pond road near residence of John Jordan. No damage. This was the first brush fire occurring after the passage of the ordinance of May 14, 1895, under terms of which the extinguishment of brush fires reverted to the fire department. It was extinguished by members of said department, as were all subsequent ones, without extra compensation.
- Box 23. May 24, 2.44 P. M. Fire in barn owned by Mrs. Charlotte Blake on Ferry street. This barn contained property valued at \$30 belonging to W. F. Carr, also property valued at \$75 owned by P. Whittier. The loss was total. Caused prob-

ably by tramps, as one was seen to leave the building shortly before the fire was discovered.

	Value.	Loss.	Insurance.	Ins. paid.
Building,	\$100.00	<b>\$</b> 100.00	None.	None.
Contents,	105.00	105.00	None.	None.

4-4-4. May 25, 10.20 A.M. Brush fire on Berry hill, Long Pond road. No damage.

Box 27. May 31, 7.59 A. M. Chimney fire in residence of A. R. Kimball, 7 Tahanto street. 650 feet of hose wet. No damage.

11-11. June 7, 3.10 P. M. Fire in Webster mill, Suncook. Governor Hill steamer and relief hose reel sent and did good service. 650 feet of hose wet.

Box 25. July 3, 11.50 P. M. Fire in stock outside of store occupied by Vincenzo Ascenzi, 100 North Main street. Caused by snap-crackers. Loss, \$100. No insurance. No hose wet. Recall, 11.57 P. M.

Box 27. October 10, 12.35 p. M. Fire in residence of Fred Hall, 32 Merrimack street. Extinguished by Chemical company. Caused by boys playing with fire. No damage. Recall, 12.45 p. M.

Box 24. October 20, 8.20 P.M. Fire in brick building owned by Emily G. Savory and Frances C. Rand, in rooms occupied by the Salvation Army. Caused by kerosene lamp hanging too near ceiling. Extinguished by Chemical company. Recall, 8.27 P.M.

Value. Loss. Insurance. Ins. paid. Building and contents, \$25,000.00 \$27.00 \$14,000.00 \$27.00

Box 46. October 23, 4.15 p. m. Fire in residence, 28 Laurel street, owned and occupied by W. E. Darrah. Caused by hot ashes in wooden barrel. Extinguished by Chemical company. Recall, 4.35 p. m. 800 feet of hose wet.

Total, buildings		<del></del>	<b>8</b> 121 650 00	\$5.065.47	\$3.672.39

The above summary does not include the loss sustained by the burning of the Union house, May 17. Loss unadjusted. In litigation.

#### APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central fire station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman; one double 60-gallon tank Holloway chemical engine in charge of two permanent men; one ladder truck, "City of Concord," attached to hook and ladder company (21 men). There are nine horses owned by the city kept at this station, and one on trial but not yet purchased. The precinct companies have swing harnesses upon all apparatus except steamers. There are six permanent men located at the Central station and one permanent man at each hose house within the precinct.

The Alert Hose company (11 men), located on Washington street, has a modern hose wagon with permanent man and horse.

The Good Will Hose company (11 men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

The "Pioneer" steamer, at Penacook (28 men), is a fourth-class Silsby, with second-class Amoskeag reel (4 wheels).

The Cataract company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine, and a second-class 4-wheel reel, Amoskeag make, drawn by one horse, and provided with swing harness.

Old Fort, at East Concord (30 men), has a 5-inch cylinder Hunneman hand-engine.

The year has been 'one of extraordinary expense, portions of the apparatus having required repairs of an expensive nature.

The steamer "Pioneer," at Penacook, has been thoroughly repaired.

The hose wagons "Kearsarge" and "Eagle" have been retouched and varnished. New runners have been provided for the hose wagons "Alert" and "Good Will." New poles have been provided for the steamers "Kearsarge" and "Governor Hill."

The placing in commission of the chemical engine made it necessary to provide new quarters for the relief steamer, "Governor Hill." It also made necessary the building of a new ladder rack for the storage of spare ladders, the purchase of a pair of horses and the building of additional stalls for their accommodation.

<sup>\*</sup> Brick, cemented.

The placing of permanent men at the hose houses made it necessary to furnish sleeping apartments in each.

It will be seen by the above that the department has been compelled to make expenditures by circumstances not likely to occur again at present.

Four horses and 1,000 feet of fabric hose have been purchased during the year. Three hundred and fifty feet of fabric hose have been re-lined. While the purchase of more hose at the present time is not absolutely necessary, by purchasing a little more each year than will be presumably condemned, an annual gain in amount could be obtained without making serious inroads into the appropriation for any one year.

The condition of the apparatus at present is such as to warrant the belief that expenditures for repairs during the ensuing year will be very limited. The connecting of Penacook and West Concord with the water supply of Boscawen has made possible far better service in those localities. Formerly, at Penacook, there being inadequate water pressure, the steamer was a necessity. This compelled loss of time in waiting for a large complement of men, or horses, to convey the engine and heavy, cumbersome reel to the scene.

Now, with sufficient water pressure, to obtain the best service it requires the purchase of a hose wagon light enough to enable three or four men to convey it, with four or five hundred feet of hose, rapidly to the fire, where they can couple up and commence operations immediately. The steamer can be operated later on, if necessary.

The same conditions apply in a measure to West Concord, they having, however, a hand-engine instead of a steamer. I respectfully recommend that the hand-engine at West Concord be sold, and that a light hose wagon be purchased for each of these localities.

I can only renew my recommendations of last year concerning the value and need of longer ladders, deluge set, and Perfection holders.

#### FIRE ALARM.

The fire-alarm telegraph system is in good condition. Eight new boxes, two public and six private, have been added to the system, and the location of one box has been changed. Fifteen direct-action tappers have also been added to the system. These tappers are owned by members of the department, the city wiring to, and maintaining them. The battery has been increased from 132 cells to 182 cells, and the main lines have been extended four miles.

The "Monitor" whistle has been made an adjunct to the alarm. This was done largely in the nature of an experiment, but it has proved so valuable that I recommend the purchase of a mechanical whistle-pull to be attached to the same, and taken into the system. This would enable the whistle to sound with the bells, and obviate the necessity of counting one round from the tapper and sounding the whistle by hand, as is now the case.

The recent troubles arising from electric wires in this city forcibly remind one of the fact that the repeater, an instrument connected with the alarm, and costing \$700, is totally unprotected from outside crosses. An instrument specially designed for protecting such appurtenances can be placed in position for an expenditure of \$125. This would not only protect the city from financial loss, but from the inconvenience that would result from loss of service. It seems to me that the investment would be a profitable one.

Storage batteries are rapidly displacing gravity batteries for fire-alarm purposes. Great economy in maintenance is claimed for them, but perhaps it will be wise to wait and profit by the experience of other cities before making such a radical change.

There are but four call bells in use at present, the remainder having been replaced by direct-action tappers. In all probability before the end of the coming year the extension call-bell line will have been relegated to oblivion, where it properly belongs. As a feature of a modern fire-alarm system

it is far from being a success, requiring constant care and yielding results problematical at best.

It has been the aim of the undersigned to administer the affairs of this department as economically as possible, compatible with a desire to secure the best results.

Respectfully submitted,

W. C. GREEN, Chief Engineer.

## REGULATIONS OF CONCORD FIRE DEPARTMENT.

## CITY OF CONCORD.

IN THE YEAR OF OUR LORD ONE THOUSAND EIGHT HUNDRED
AND NINETY-FOUR.

An Ordinance in amendment of all sections in chapter 18 of the revised ordinances relating to the fire department.

Be it ordained by the City Council of the City of Concord as follows:

SECTION 1. The fire department will consist of a chief engineer, two assistants within the precinct, and one engineer each from Ward 1, Ward 2, and Ward 3. Two steamer and hose companies, to consist of thirteen men, including driver; one relief steamer to consist of two men; two hose companies to consist of eleven men to include a driver; a chemical engine company to consist of two men; and a hook and ladder company to consist of twenty-one men to include a driver; steamer Pioneer, not less than twenty or more than forty men; hand-engine companies, No. 2 and No. 3, not less than twenty nor more than thirty men each. The engineers shall exercise the powers of fire wards, and those within the precinct to constitute the board of engineers.

SECT. 2. The chief engineer and assistant engineers, and all other members of the fire department shall hold their respective offices and places until they are removed, or their offices or places are otherwise vacated. The mayor for cause assigned by him, and after due hearing by him, may with the approval of a majority of the board of aldermen at any time remove from office or place the chief engineer, any assistant engineer, and officer or member of the department. In case

of vacancies from any cause in the department, of offices or men connected in any manner with the fire service, such vacancies shall be immediately filled by the appointment and confirmation of the board of mayor and aldermen.

SECT. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall receive the sum of nine hundred and fifty dollars per annum for all services in full.

SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire engine houses and other houses belonging to the city and used for the department and by the companies thereto attached as often as once a week, and whenever directed so to do by the mayor. shall certify all bills and submit the same for inspection monthly to the joint standing committee on fire department. He shall report to the city council annually in the month of December a statement of the receipts and expenditures of his department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs he shall cause the same to be made under the direction of the committee on fire department, and as far as practicable shall examine into the location and condition of fire apparatus belonging to the corporations or private individuals within the limits of the city. He shall require permanent men when not otherwise engaged to perform such other duties and do such other work as in his judgment may be deemed proper. He shall keep fair and exact rolls of the respective companies specifying the time of admission and discharge, and the age of each

member, and shall report annually or oftener if directed all accidents by fire which may happen within the city, with the cause thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the laws of 1889, chapter 84, and entitled "An act in relation to returns and statistics of fires." He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have the power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fire.

SECT. 5. In the absence of the chief engineer, the next assistant engineer in rank who may be present shall have the powers and perform the duties of the chief engineer, and the seniority in rank of the engineers shall be determined by the board of engineers at their first meeting.

SECT. 6. The foreman of each engine, hose, and hook and ladder company within one day after every fire at which said company may have attended, shall examine into the condition of the fire apparatus belonging to his respective company, and report any deficiency which may exist to the chief engineer. He shall keep, or cause to be kept, by the clerk of his company exact rolls specifying the time of admission, discharge, and age of each member, and accounts of all city property entrusted to the care of the several members, and of all cases of absence and tardiness, in a book provided for that purpose by the city, which rolls of record books are always to be subject to the order of the chief engineer and mayor. They shall also make, or cause to be made, to the chief engi-

neer true and accurate returns of all the members with their ages, and of the apparatus entrusted to their care, whenever called upon so to do.

SECT. 7. The foreman of each company shall, under the direction of the chief engineer, have charge and management of his company at fires; the assistant foreman shall assist the foreman in the discharge of his duties and act as clerk of the company, and in the absence of the foreman assume his authority. The foreman and assistant foreman shall be appointed by the chief engineer.

SECT. 8. The stewards of the Alert and Good Will Hose companies will act as drivers of hose carriages, take charge of, and properly care for and exercise, the horses used by each company. They shall be permanently engaged and devote their whole time to the department, and sleep in their respective hose houses at night; and for the proper execution of all duties required of them, shall be subject to the direction of the chief engineer.

SECT. 9. It shall be the duty of every engine, hose, and hook and ladder company to have its engine, hose, and other apparatus cleaned, washed, oiled, reeled, and housed immediately after its return from any fire or service, and at all times to maintain the same in good condition, and the members of the several companies shall perform any necessary duties which the chief engineer or their respective foremen may direct.

SECT. 10. All members of the department when on duty shall wear some suitable badge to be designated by the board of engineers. The chief and permanent members shall wear at all times when on duty the regulation parade uniform worn by the fire department.

SECT. 11. The pay-rolls for the board of engineers, and the several fire companies shall be made up by the chief and clerk of the board of engineers semi-annually, on the first day of January and July. Foremen and clerks of companies will forward their pay-rolls to the board of engineers for approval, and after the action of said engineers and the sanc-

tion of the mayor and aldermen, said pay-rolls shall be passed over to the city collector, under whose sole direction all sums for services of call firemen shall be disbursed.

SECT. 12. No charge for extra services will be allowed any member of the department unless upon an order of a member of the board of engineers.

SECT. 13. No engine, hose, or hook and ladder carriage shall be taken to a fire out of the city without permission from the chief engineer, except steamer Pioneer, which may be taken to any fire in the village of Penacook, nor shall any apparatus of the fire department be taken from the city except in case of fire, without permission from the board of mayor and aldermen; and in sending any apparatus to aid in extinguishing fires in neighboring localities, the chief in all cases will authorize his assistant next in rank available to take charge of the direction of such apparatus, and not allow any firemen at such an emergency to leave the city, except such a number as is actually required to man the apparatus, and no member to leave without permission or direction from the chief engineer.

SECT. 14. It shall be the duty of engineers and firemen whenever there is an alarm of fire in the city, to repair immediately to the place of such fire, wearing a suitable badge, and the engineers to take proper measures that the several engines and other apparatus be arranged and duly worked for the speedy and effectual extinguishment of the The engineers shall inspect and make themselves familiar with all shops, hotels, tenement blocks, and all public buildings, halls, churches, school-houses, and asylums, once in each six months, and study the location of all hydrants and reservoirs in the city, and generally inform themselves in all matters pertaining to their duties as engineers. No engineer shall interfere with or attempt to give orders relative to the location or use of a line of hose, when he has ascertained that another has command of it, unless by consent of the engineer in command of it, or by orders of the officer in command at the fire; and it shall be his duty to inquire if there is an officer in charge.

SECT. 15. For each absence from fire, or neglect of duty, the chief engineer, the assistant engineers, and engineers of steamers shall be fined three dollars, and each other member of the department one dollar, provided, however, that any fireman liable as above, may in case of temporary absence or sickness have power of substitution by giving notice, each assistant engineer to the chief, each foreman to an engineer, and each member to the foreman of his company. Absence of more than twenty-four hours shall not be considered temporary, and he should get permission from the chief engineer to allow a substitute with pay from such absentee.

SECT. 16. Any volunteer company using the apparatus of the city at any fire shall be under the control and command of the chief engineer and his assistants, agreeably to the foregoing provisions of this chapter.

SECT. 17. The department shall appear for public parade, drill, and inspection at such times as the chief engineer and committee on fire department shall order, for which expense three hundred dollars can be expended annually. The companies in Wards 1, 2, and 3, will attend by invitation and voluntarily. Each company in the department under the direction of the chief engineer or assistants shall take out their respective engines and apparatus for exercise and drill as often as he shall direct, such exercise and drill to take place in public, not oftener than once a month, and at least once in two months, between the first of April and November.

SECT. 18. The engineers shall have control of all persons appointed to serve in any company of the fire department and power to direct and control the labor of all persons present at any fire. Any engineer may and shall cause any fire deemed by him to be dangerous in any place to be extinguished or removed.

SECT. 19. The engineers may establish such regulations respecting the kindling, guarding, and safe keeping of fires, and for the removal of shavings and other combustibles from any building or place, as they shall think expedient. Such regulations shall be signed by a majority of the engineers.

Such regulations shall be approved by the mayor and aldermen, recorded by the city clerk, and copies attested by him posted up in two or more places in the city thirty days, when they shall take effect. Penalties not exceeding twenty dollars for each offense may be prescribed by the engineers for the breach of such regulations, and such regulations shall remain in force until altered or annulled.

SECT. 20. The board of engineers may from time to time make and enforce such regulations for the government of the department as may be deemed proper, and subject to the approval of the board of mayor and aldermen.

SECT. 21. If any member of either of the several companies shall willfully neglect or refuse to discharge his duty or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for any such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of, or serve in, the fire department, who is under the age of twenty years, and not a citizen of Concord, and a resident therein permanently for at least one year, and no person whose occupation is carried on outside the city shall be appointed a member of the fire department.

SECT. 22. All applicants for membership shall be nominated by the chief engineer and shall receive pay and be considered members of the department from the date of their confirmation by the board of mayor and aldermen. No officer or member of the permanent, or officer of the call, force shall attend any political convention as a delegate, distribute tickets at any election, or take any part whatever in political matters other than to exercise the right of suffrage, and no political or religious discussion shall be permitted in any of the department houses.

SECT. 23. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the

superintendence and under the direction of the joint standing committee on fire department, have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department.

SECT. 24. Permanent officers and men of the department shall be entitled to vacation without loss of pay not exceeding fourteen days in each year to be granted under the direction of the chief engineer.

SECT. 25. The joint standing committee on fire department subject to the board of mayor and aldermen shall by themselves or agent purchase all supplies in connection with the fire department, and direct all repairs of houses and apparatus; and all bills contracted for the department must receive their approval before being passed on by the committee on accounts and claims. They shall hold stated meetings at least once each month at the Central fire station, and all communications to the city government from the fire department must come through said committee, and in the month of December in each year, in connection with the chief engineer, they shall make such recommendations as to the amount of appropriations the wants of the department will require for the coming year.

SECT. 26. The city marshal and regular police officers shall have in charge all matters relating to the removal and protection of personal property endangered by fire, and any person entering a building or removing property contrary to the orders of the city marshal or such police officers shall be fined five dollars; and in the absence of firemen at fires from their respective department houses, the policemen in that vicinity will take charge of said houses.

SECT. 27. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, nine hundred and fifty dollars per annum; permanent force at Central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert Hose houses, six hundred dollars each per annum, paid monthly; assistant engineers, one hundred and twenty-five dollars each within the

precinct; engineers of steamers, one hundred and fifteen dollars each; members of steamer, hose, and hook and ladder companies, within the precinct, eighty dollars per annum, except foremen and assistant foremen, who shall receive ninety and eighty-five dollars respectively; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer Steamer company, No. 3, five hundred dollars. Said sums to be divided among the members as each company shall direct. Assistant engineer at Penacook, twenty-five dollars; assistant engineers at East and West Concord, ten dollars each.

SECT. 28. The several engineers residing in Wards 1, 2, and 3 shall have the entire care and control, under the direction of the chief engineer, of the buildings and appurtenances occupied in part by the fire department situated in said wards, respectively, to whom all applications for the use of the halls or any other part of such building shall be made. Said engineers may severally appoint janitors, who shall serve under the exclusive direction of the engineer having the care and control of the buildings where said janitor shall be appointed. Each of said engineers shall annually, in the month of December, render a detailed statement, in writing, to the mayor and aldermen of all receipts and expenditures for the preceding year on account of such buildings.

SECT. 29. Stewards for the Pioneer Steamer company and engine companies Nos. 2 and 3 shall be appointed by the mayor and aldermen, and shall receive for all services performed by them in that capacity the following sums: For Pioneer Steamer company, thirty dollars per annum, and, when performing the duties of janitor of the building, an additional sum of forty-five dollars per annum; and for stewards at engine companies Nos. 2 and 3, each fifteen dollars per annum. No steward shall be allowed to purchase supplies for such building or for the department, unless by the authority and direction of the committee on fire department; and in no case shall he have any care or control of the building or its appurtenances occupied by the company of which

he is a member, except in the immediate service of the company, unless he shall be appointed janitor thereof, when he shall be under the direction of the engineer, as provided in the foregoing section.

SECT. 30. The drivers of hook and ladder truck, one hose wagon, and steamer shall at all times be on duty at the Central fire station to attend at all fire-alarm calls, and shall do such other work in connection with the station and apparatus as the chief engineer may direct. All permanent men shall lodge in their respective stations (except chief), and in all cases of absence a substitute must be furnished; and in all cases when any extra service is required, the chief, with the sanction of the committee on fire department, will have power to hire the same; the chief may also increase as far as possible the number of call men that wish to lodge at any fire station, subject to the regulations of the fire department. The chief engineer shall be furnished with a horse and wagon, to be maintained by the city, and for his use at all times.

SECT. 31. The chief engineer shall, under the direction of the committee on fire department, keep such other horses and men subject to labor under the commissioner of highways as are not by ordinance detailed for permanent duty at the Central fire station.

SECT. 32. On or after the passage of the foregoing ordinance, at any meeting the board of mayor and aldermen can declare vacancies to suit the outlined changes in the department, and make such appointments as will conform to the terms of this ordinance.

SECT. 33. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, but such repeal shall in no wise revive or put in force any ordinance heretofore repealed, and this ordinance shall take effect after action is taken as contemplated in section 35 of this ordinance.

Passed November 13, 1894.

# Additional Regulations Approved by Board of Mayor and Aldermen, December 29, 1894.

ARTICLE 1. Any engine or hose company running out a line of hose from a hydrant or steamer shall be entitled to the pipe, although the hose of other companies may be attached, in order to reach the fire. And any company coming to a fire, and finding an incomplete line of hose laid out from a hydrant or steamer shall attach to and lengthen out such line, in lieu of laying a line of its own.

- ART. 2. When two or more engine companies are playing in a continuous line, the pipe shall belong to the company attaching to hydrant or steamer as provided in the foregoing article; but any company furnishing the entire line, and receiving water from a steamer, the pipe shall belong to such company so receiving.
- ART. 3. Hose companies shall attach first lines to high pressure hydrants where accessible; steamers attaching to those of low pressure, or reservoir.
- ART. 4. No company shall take possession of a hydrant or reservoir unless their hose and apparatus for attaching to the same are at hand and ready for use.
- ART. 5. In proceeding to, working at, or returning from fires, noisy demonstrations are strictly prohibited, and it is required of officers of companies to maintain perfect order and decorum in their respective commands during all such service.
- ART. 6. In case of fire the foreman first arriving shall be in command until the arrival of an engineer.
- ART. 7. Drivers are strictly enjoined, in proceeding to a fire to use the utmost care and caution consistent with promptness. Racing between companies is forbidden under any circumstances. Any collision or casualty occurring to horses or apparatus will be considered a sufficient cause for the suspension of the driver in charge at the time.

- ART. 8. Fire hats are furnished by the city for the protection and identification of firemen, and they must be worn at all fires except in the severest weather, when caps may be worn.
- ART. 9. While attending fires it shall be the duty of members of the department, when not performing active service, to concentrate about their respective pieces of apparatus.
- ART. 10. All engine and hose companies responding to second or general alarms, will connect, but will not lay their lines until they have reported to the officer in command for orders.
- ART. 11. The wearing of badges shall not be regarded by members of the department as conveying to them the privilege of free access to premises after fire has been extinguished.
- ART. 12. All members of the department shall address all officers by their respective titles while on duty at fires.
- ART. 13. The roll of each company shall be called as soon as the apparatus is housed, and no member will be excused except in case of sickness. Rolls must be called after every alarm. No officer or member will be marked present on the company roll unless present at fires and return to house with apparatus, unless excused by an engineer.
- ART. 14. Each company shall be allowed three substitutes, to be approved by the chief engineer.
- ART. 15. All orders issued by the chief or an assistant engineer shall be promptly obeyed. At all fires occurring in the night, the chief engineer shall be identified by a red light, assistant engineers by blue lights.
- ART. 16. Members of the department are expected to cheerfully comply with all rules and regulations which are adopted or which may be adopted. Foremen will be held responsible for all lack of promptness and efficiency in their commands.

### FIRE-ALARM TELEGRAPH.

### NUMBER AND LOCATION OF FIRE-ALARM BOXES.

For the purpose of uniformity in numbering the fire-alarm boxes, the city is divided into five districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington streets.

DISTRICT 3. Embraces all between Pleasant and School streets.

DISTRICTS 4 AND 5. Embrace all south of Pleasant street.

The first figure of the box number will indicate the district.

### DISTRICT No. 1.

- 9. New Hampshire state prison.
- 12. Curtice avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose house.
- 18. Greeley & Todd's store.
- 19. Centre and Auburn.

### DISTRICT No. 2.

- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.
- 27. School and Merrimack.

### DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central fire station.
- 35. Main and Pleasant.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.

### DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose house.
- 43. Main and Fayette.
- 45. Nelson & Durrell's store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.

### DISTRICT No. 5.

- 52. Turnpike and Allison.
- 56. St. Paul's School.

### PRIVATE BOXES.

- Concord and Northern railroads north end passenger depot.
  - 6. The Abbot-Downing Company.
  - 7. New Hampshire Asylum for the Insane.
  - 8. Page Belting Company.
  - 21. Boston & Maine Railroad upper repair shop.
  - 31. Boston & Maine Railroad coal sheds.
  - 33. State house.
  - 55. Boston & Maine lower repair shop.

In addition to the above private boxes there are three located inside the state prison all numbered 9.

### FIRE-ALARM SIGNALS.

1. Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, 52, and 56 will not be responded to by the Alert Hose company until signaled. The signal to proceed to the fire will be a second alarm, except 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 23, 26, 27, 32, 37, and 56 will not be responded to by the Good Will Hose company until signaled. It will be governed

by the same signals governing Alert Hose company. The Alert Hose and Good Will Hose companies will hitch up and remain in readiness twenty minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal (all out or second alarm), the officers in charge shall dismiss their companies.

Kearsarge Steamer and Hose company will respond to all calls. Eagle Hose company to all calls.

Eagle Steamer to boxes 5, 6, 7, 21, and 55 on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, and 45 on second; to all others on third except 9 and 56.

Governor Hill steamer will respond to boxes 8 and 9 on first alarm; to boxes 5, 6, 7, 12, 13, 14, 15, 16, 17, 18, 19, 26, 27, 31, 32, 36, 37, 46, 47, 48, 49, and 52 on second; to all others on third.

Chemical engine will respond to all box alarms except 8, 9, and 56.

Veterans' Auxiliary company will respond to all third alarms occurring before the recall whether emanating from same box or not.

Two rounds of each eleven strokes of the bells, with an intermission of one minute between the rounds, without any regular box alarm, will signalize the requirement of a steamer from outside the precinct, and will be responded to by Kearsarge and Eagle Hose companies alone. In case further aid is necessary, the box-alarm 34 (Central station) will follow.

All out signal, three strokes of the bells.

### BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells.

### MILITARY SIGNAL.

Two rounds of 3-1-2.

### . TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box; and the box will then be cut out, and no additional round sounded. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bell will be struck from the button of a box, alternating as before mentioned.

### SCHOOL SIGNALS FOR CLOSING.

Two strokes of the bells given three times, with a pause of fifteen seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock.

The signal to close for the afternoon session will be given at 1.15 o'clock.

The signal to close all schools for one session will be given at 11.30 A. M.

### THE FIRE-ALARM TELEGRAPH

Is the "Gamewell" patent. It embraces thirty-two miles of wire on the main lines, and seven miles of extension wire for call bells.

On the main line are twenty-nine fire-alarm boxes belonging to the city, and eleven private boxes, — in all, forty. There are three alarm bells, — one of 3,724 pounds (bell-metal), one of 3,740 pounds (bell-metal), and one of 2,000 pounds (American steel). There are also sixteen mechanical tappers, fifteen directaction tappers, one four-circuit repeater, and four indicators.

On the extension line are four call bells.

The battery consists of one hundred and eighty-two cups for the main line, and thirty-five cups for other electrical purposes.

The alarm was put in, in 1880, by Edwin Rogers, 657 Washington street, Boston, Mass.

# ELECTRICAL DEPARTMENT.

# REPORT OF INSPECTOR OF ELECTRIC WIRES.

To His Honor the Mayor and Gentlemen of the City Council:

I herewith submit my report as inspector of electric wires for the year 1895.

In submitting this report it becomes my duty to call your attention to some of the dangers existing in the present construction of wires and other equipments used in conducting heavy currents of electricity. I will give in the following order a description of the condition of the different electric plants as I find them at the present time:

### CONCORD LAND AND WATER POWER COMPANY.

This company has control of one of the most powerful electric plants in the state. It is capable of distributing four thousand horse-power into any part of the city. While this great plant is a welcome addition to our increasing industries, we must not lose sight of the fact that rules must be made whereby it can be kept within the safety limits.

This grand electric plant is now furnishing electricity for 8,000 incandescent lamps, about 600 arc lights, and 500 horse-power of motors, with a steady increase. The wire required to furnish the current for this vast army of lights and power is about 150 miles, divided about 75 miles for the three-phase system, or incandescent, and about 75 miles for the arc lights and motors. In looking over the lines of this

company I find the condition generally good. While it might be improved, it will compare favorably with other cities. The new wire put up by this company I find to be all right, but some of the old wires, which came into their possession through the old company, ought to be condemned (at least a certain part of them), as I find the insulation completely destroyed by time and the elements. Some of these wires are carrying 2,000 volts or more of current, and in my opinion are dangerous to the public. I would suggest some action be taken at once, and have such wires as are imperfect replaced by suitable wire of modern insulation.

I would also call your attention to the reels used in lowering and hoisting the street lamps. These reels are attached to poles, and in some cases are as low as five feet from the ground. Already two serious accidents have happened by people coming in contact with them. I would suggest that all reels and other appliances, attached to poles for hoisting and lowering lamps, etc., shall be not less than eight feet from the ground. The above I would recommend in the interests of public safety.

When this company took possession of the Concord Gas Light company's plant, most of the old poles were abandoned and left to decay.

Several property owners have complained to me about their unsightly appearance, and wish them removed. I would recommend that these abandoned poles be removed, either by the Concord Land and Water Power company or the city. By making the improvements suggested this company's lines would be in a practically safe condition as far as the street service is concerned.

# CONCORD STREET RAILWAY COMPANY.

This company seems to be abreast of the times in all modern improvements. In looking over their lines I find nothing serious to censure. At the present time everything seems to be in a practically safe condition. I understand it is the intention of the managers to replace the old wooden poles on Main street with strong iron ones in the spring. When this change is made I would suggest that greater care should be given to the placing of the guard wire over the main or trolly wire, as this seems to be the principal fault with the present construction.

### NEW ENGLAND TELEGRAPH AND TELEPHONE COMPANY.

This company have reconstructed nearly all their lines over into metallic circuits, this being necessary on account of interference by induction of the heavily charged wires of the Concord Street Railway and Concord Land and Water Power companies. I have made a thorough examination of their lines and find them in first-class order. I have advised some alterations, during the past year, which have been cheerfully carried out by the obliging officers of this company.

### FIRE-ALARM SERVICE.

I have looked over this system of wires and find them in their usual good condition. There seems to be nothing to recommend at present. I believe this system will compare favorably with any of a like nature in the state.

### THE WESTERN UNION TELEGRAPH COMPANY.

The plant of this company is in first-class condition in all respects. They have recently reconstructed all of their lines north and south, within the city limits, cabled their wires into their offices, substituted dynamo power in place of the old style of battery, and made many other improvements that place their system here well abreast with the larger cities in New England.

### POSTAL TELEGRAPH AND CABLE COMPANY.

This company has its wires entering the city over the highway via Bridge street. They use the poles of the Concord Land and Water Power company from the shoe factory to their office in Smith's block, North Main street. Their lines are up in a fair condition, and are very carefully looked after by the company's manager in this city. I have made several suggestions to him about a ticker-circoil which, to my mind, was not properly constructed, and in each case the trouble was remedied without very much delay.

This company has no wires north of the city.

### ELECTROLYSIS.

There is at present serious complaint from our large cities in regard to the destruction of metal pipes, such as water pipes, gas pipes, etc., caused by grounding heavy currents of electricity, which attacks and causes quick destruction of the metal. I have made several thorough tests but can find nothing as yet that would lead me to believe that we will have any trouble from the above source at present.

### PRIVATE LINES.

It has been the custom of the city council to grant licenses for the construction of private lines for different purposes. These lines are usually constructed by incompetent persons, who know little, and care less, about such matters. I frequently find these wires strung dangerously near to the heavily charged arc wires, sometimes crossing them. In such cases certain conditions would make them fatal. These things I know nothing about until I have discovered them myself or my attention is called to them by someone who has either been injured or understands their dangerous position. I would recommend that all private line construction be referred to the inspector of wires, and that no license be granted until he has signed a petition recommending the same.

I would also suggest that where there are now from three to six small and unsightly poles within as many feet from one another and occupied by different companies, some arrangement be made whereby one large and substantial pole be made to carry all wires, thereby doing away with a needless number and an incumbrance to our streets.

In conclusion, I believe our city is up in all modern improvements in electricity, and has an electric service second to none in the state.

I hereby wish to extend my thanks to those who have assisted me in my duties, and especially to his honor the mayor, whose kindness in many ways I appreciate.

FRED W. LANDON,
Inspector of Electric Wires.

Concord, December 31, 1895.

APPENDIX.

### 1896.

### THE FORTY-FOURTH

### ANNUAL REPORT

OF THE

### RECEIPTS AND EXPENDITURES

OF THE

# CITY OF CONCORD

FOR THE YEAR ENDING

DECEMBER 31, 1896.

TOGETHER WITH OTHER ANNUAL REPORTS AND PAPERS RELATING TO THE AFFAIRS OF THE CITY.

CONCORD, N. H.: Ira C. Evans, Printer, 12 School Street. 1897.

### MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should know that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city pauper account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county pauper account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the City Auditor on or before the second day of the month.

If approved by him and by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Tuesday of each month.

JAMES O. LYFORD,

City Auditor.

# ORDINANCES AND JOINT RESOLUTIONS

#### PASSED DURING THE

MUNICIPAL TERM ENDING JANUARY 26, 1897.

# ORDINANCES.

#### AN ORDINANCE CREATING AN ELECTRICAL DEPARTMENT.

SECTION 1. A department of the city government is hereby created and styled the electrical department, which shall embrace and have charge of all matters relating to electricity in which the city may be interested. The executive officer of said department shall be styled the city electrician. He shall be well skilled in the science of electricity and have a practical knowledge thereof. He shall give his whole time to the duties of his office. On and after the passage of this ordinance, at any meeting, the board of mayor and aldermen may make such appointment as will conform to the terms of this ordinance. Said city electrician shall hold his office until removed, or his office or place is otherwise vacated.

SECT. 2. Said city electrician shall have the care and management, under the direction of the chief engineer, of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph; he shall also have the care of all public clocks in the precinct. It shall be the duty of such officer, carefully, to examine and inspect, at such times as the mayor or chief engineer shall direct, all electric wires and the insulation thereof, and all fixtures and appliances pertaining thereto, erected upon or over any public street, highway, sidewalk, building, or common, within the limits of

the city, and such officer shall have full power and authority to order any and all needed repairs of such wires, poles, or other fixtures, and to further require of the owners of such wires or other fixtures the introduction and use of fusible wires or plates, or other protective devises wherever needed for the protection of property or the safety of the public. He shall also cause to be removed all useless or "dead wires," so called, and require the use of guard wires wherever needed; and all construction of additional poles and wires provided for under the ordinance entitled "Electric Wires and Fixtures" shall be under his supervision and direction, and shall further enforce all orders provided for in the ordinance above mentioned, or which may from time to time hereafter be imposed by the board of mayor and aldermen with reference to electric wires.

- Sect. 3. All supplies necessary for the proper administration of said department shall be furnished by the city. At the commencement of each fiscal year, an appropriation shall be made sufficient to cover the estimated expense of the electrical department for the ensuing year. Bills for such supplies shall be presented mouthly, and paid by the city clerk out of the appropriation aforesaid, the bills therefor having first been approved by the chief engineer and committee on accounts and claims.
- SECT. 4. Said city electrician shall receive in full compensation for his services, the sum of one thousand dollars (\$1,000) per year, payable monthly.
- SECT. 5. All ordinances or part of ordinances inconsistent with the foregoing ordinance are hereby repealed.

Passed January 8, 1895.

AN ORDINANCE TO REPEAL AN ORDINANCE PASSED JANUARY 8, 1895, CREATING AN ELECTRICAL DEPARTMENT.

SECTION 1. That an ordinance entitled "An Ordinance creating an Electrical Department," passed January 8, 1895, be and the same is hereby repealed.

SECT. 2. All the provisions of the Revised Ordinances which were in force at the time of the passage of the ordinance referred to in Section 1 aforesaid, and which were repealed by said ordinance, are hereby revived and shall hereafter be in full force.

SECT. 3. This ordinance shall take effect upon its passage.

Passed March 12, 1895.

An Ordinance in amendment of Chapters 18 and 22 of the Revised Ordinances, relating respectively to the "Fire Department" and the "Water-Works."

SECTION 1. That Section 2 of Chapter 18 of the Revised Ordinances is hereby amended so as to read as follows:

"Sect. 2. The chief engineer and assistant engineers, and all other members of the fire department, shall hold their respective offices and places until they are removed or their offices and places are otherwise vacated. The board of mayor and aldermen, for cause, and after a due hearing, may at any time remove from office or place the chief engineer, any assistant engineer, and officer or member of the department.

"In case of vacancies from any cause in the department of officers or men connected in any manner with the fire service, such vacancies shall be immediately filled by the board of mayor and aldermen."

SECT. 2. That Section 3 of Chapter 18 of said Revised Ordinances is hereby amended so as to read as follows:

"Sect. 3. The chief engineer shall give his entire time to the duties of his office, and shall not engage in or be connected with any other business or occupation, and shall reside in a house to be furnished by the city free from rent. He shall receive in full for his services, in addition to the use of said house, rent free, the sum of nine hundred and fifty dollars per annum."

SECT. 3. That Section 4 of Chapter 18 of said Revised Ordinances is hereby amended so as to read as follows:

"SECT. 4. The chief engineer shall have the sole command at fires over all persons, whether members of the fire department or not. He shall direct all proper measures for extinguishing fires, protecting property, preserving order, and enforcing the laws, ordinances, and regulations respecting fires; and shall examine into the condition of the fire engines and all other fire apparatus, and of the fire-engine house and other houses belonging to the city and used for the department and by the companies thereto attached as often as once a week, and whenever directed so to do by the mayor or the committee on fire department through its chairman. He shall certify all bills and submit the same for inspection monthly to the committee on fire department. He shall report to the city council annually in the month of December, a statement of the receipts and expenditures of this department, the condition of the fire engines and all other fire apparatus, a detailed schedule of the property in his charge, the names of the officers and members, and all other facts in relation to the department. Whenever the fire engines or other fire apparatus require repairs, he shall cause the same to be made under the direction of the committee on fire department, and as far as practicable shall examine into the location and condition of fire apparatus belonging to the corporations or private individuals within the limits of the city. He shall require permanent men, when not otherwise engaged, to perform such other duties and do such other work as in his judgment may be deemed proper. He shall be responsible for the proper care of all property connected with the fire department. He shall keep fair and exact rolls of the respected companies, specifying the time of admission and discharge, and the age of each member, and shall report annually, or oftener if directed, all accidents by fire which may happen within the city, with the causes thereof, the number and description of the buildings destroyed or injured, and the amount of loss and insurance on the same, together with the names of owners or the occupants, and shall make returns as required by the Laws of 1889, Chapter 84, and entitled 'An Act in Relation to Returns and Statistics of Fires.

"He shall visit each department house as often as practicable, and inspect the men, the books of the house, and see that the quarters are properly conducted and in good order. He shall have power to suspend any officer or member of the department for insubordination, disorderly conduct, or neglect of duty, said suspension to continue pending the action of the mayor and aldermen. The chief engineer shall examine all places where shavings and other combustible materials may be collected or deposited, and cause the same to be removed by the tenants or occupants of such places, or at their expense, whenever in his opinion such removal is necessary for the security of the city against fire."

SECT. 4. That Chapter 18 of said Revised Ordinances be further amended by striking out all of Section 23 of said chapter.

SECT. 5. That Section 24 of Chapter 18 of said Revised Ordinances be amended so as to read as follows:

"SECT. 24. The chief engineer shall have the care and management of the rooms, apparatus, machinery, wires, poles, and signal boxes connected with the fire-alarm telegraph. He shall prepare rules and directions for giving alarms of fire through the telegraph. He shall have the superintendence and, under the direction of the joint standing committee on the fire department, have control of the several stations, the apparatus, the furniture therein, and all other property appertaining to the department. He shall, with the assistance of the permanent men at the central station, make the necessary repairs and take care of the fire-alarm system, including the batteries, all alarm boxes, and everything pertaining to the fire-

alarm system. He shall personally be able to master the fire alarm in every particular, and every permanent man at the central station shall be obliged to understand the fire-alarm system in order that the chief engineer may call upon any of them to attend to and repair any part of the same. This provision shall not be construed to prevent the chief engineer from employing extra linemen when necessary, or to act promptly in any emergency."

SECT. 6. That Section 28 of Chapter 18 of said Revised Ordinances is hereby amended by striking out all of said section and inserting in its place the following:

"SECT. 28. It shall be the duty of the chief engineer to cause all snow and ice or other obstructions to be removed from and around all fire hydrants owned by the city, so that at all times the fire department can make immediate connection of the hose to the hydrants."

SECT. 7. That Section 29 of Chapter 18 of said Revised Ordinances is hereby amended so as to read as follows:

"SECT. 29. The annual pay of the members of the fire department shall be as follows, and in full for all services: Chief, nine hundred and fifty dollars per annum and house rent; permanent force at central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert hose houses, two hundred dollars each per annum, paid monthly; assistant engineers within the precinct, one hundred and twenty-five dollars each; engineers of steamers within the precinct, one hundred and fifteen dollars each; foremen of companies within the precinct, each ninety dollars per annum; assistant foremen of companies within the precinct, eightyfive dollars each per annum; members of steamer, hose, and hook and ladder companies within the precinct, eighty dollars per annum; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each, and Pioneer steamer company No. 3, five hundred dollars. Said sums to be divided among the members as each company shall direct. Engineer of steamer Penacook, seventyfive dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant engineers at East and West Concord, ten dollars each."

SECT. 8. That Section 9 of Chapter 22 of said Revised Ordinances is hereby amended so as to read as follows:

"SECT. 9. The superintendent of the water-works shall take charge of all fire hydrants owned by the city, and the aqueduct, lands, reservoirs, and other works and property connected with the water-works as the board of water commissioners may from time to time direct, and he shall perform all such services in relation thereto,

as may be required of him by said board, and shall annually, on or before the first day of January, present to the board a report of the general condition of the works; also a statement of the receipts and expenditures, the number of water takers, the number of cases in which the water has been cut off, the number and amount of abatements, and such other matters as he or the board of water commissioners may deem expedient."

SECT. 9. That Section 11 of Chapter 22 of the Revised Ordinances is hereby amended so as to read as follows:

"SECT. 11. No person except those duly authorized by the board of water commissioners, or the proper officers of the fire department, in case of fire or drill, shall use or in any way interfere with any public hydrant established within the city; and no person shall in any manner deposit or place around or about any such hydrant, any building materials, goods, wares, or merchandise, snow, ice, or any other substance, which may prevent in any degree the immediate and proper use of the same."

SECT. 10. To strike out Section 8 of Chapter 18, and insert in place thereof the following:

"SECT. 8. The drivers of the Alert and Good Will hose companies will be considered call men and receive in full for services two hundred dollars per annum. They will care for and exercise the horses, and act as stewards and sleep in their respective hose houses at night, and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer."

SECT. 11. This ordinance shall take effect upon its passage. Passed March 12, 1895.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE STREET SPRINKLING PRECINCT FOR THE RUSUING FINANCIAL YEAR.

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the street sprinkling precinct of said city, the sum of three thousand dollars (\$3,000) to defray the necessary expenses and charges of the street sprinkling precinct for the ensuing financial year, which shall be appropriated as follows:

For sprinkling streets, \$3,000.

Passed March 29, 1895.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY WATER PRECINCT FOR THE ENSUING FINANCIAL YEAR.

SECTION 1. That there shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the water precinct of said city, the sum of six thousand dollars (\$6,000) to defray the necessary expenses and charges of the water precinct for the ensuing financial year, which shall be appropriated as follows:

For water for hydrant service, \$6,000.

Passed March 29, 1895.

AN ORDINANCE PROVIDING FOR THE REFUNDING OF TWENTY THOUSAND DOLLARS OF WATER PRECINCT BONDS.

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan, on the credit of the city, the sum of twenty thousand dollars (\$20,000) for the payment of twenty thousand dollars of water precinct bonds, maturing April 1, 1895.

Sect. 2. Bonds of said city shall be issued for said loan, signed by the mayor and countersigned by the city clerk, as provided in the ordinance relating to loans. Said bonds shall be dated March 1. 1895, and shall be numbered consecutively from A 371 to A 390 inclusive and shall be for the sum of one thousand dollars (\$1,000) each, and shall be due and payable on the first day of January, 1922. Said bond shall be payable to the bearer, with interest, at a rate not exceeding 4 per cent. per annum, payable semi-annually on the first days of January and July in each year upon presentation of the coupons attached to said bonds respectively; the first coupon shall be dated March 1, 1895, and shall be for four months' interest on said bonds.

SECT. 3. That all of said bonds owned by citizens of said city of Concord shall be exempt from taxation as provided in Chapter 55, Section 14, Public Statutes.

Passed March 29, 1895.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE WEST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

SECTION 1. That there shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the West Concord sewerage precinct, the sum of one thousand one hundred and

eighty dollars (\$1.180) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be applied as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund, \$500.

For the payment of interest that may become due on the precinct bonds, \$680.

Passed March 29, 1895.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE PENACOOK SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

SECTION 1. That there shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within the Penacook sewerage precinct, the sum of one thousand five hundred and sixty dollars (\$1.560) to defray the necessary expenses and charges of said precinct for the ensuing financial year, which shall be applied as follows:

For the payment of the sum becoming due in accordance with an ordinance creating a sinking fund, \$500.

For the payment of interest that may become due on the precinct bonds, \$960.

For the payment of repairs, \$100.

Passed March 29, 1895.

AN ORDINANCE FIXING AND DETERMINING AN AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF SCHOOL DISTRICT NO. 20, FOR THE ENSUING FINANCIAL YEAR.

Section 1. There shall be raised and there is hereby ordered to be raised, on the polls and ratable estates within the limits of School District No. 20, in said city the sum of six hundred twenty dollars (8620) for the purpose of reimbursing the city of Concord for the amount paid by said city as principal and interest on a bond issued by said city for the benefit of said school district, under the provision of an act of the legislature entitled "An act to authorize the city of Concord to borrow money in aid of its school districts," approved August 14, 1889.

Passed March 29, 1895.

AN ORDINANCE ALLOWING A DISCOUNT OF TWO AND ONE HALF PER CENTUM ON TAXES.

SECTION 1. That a discount of two and one half per centum shall be allowed on all taxes paid on or before the fifteenth day of July in each year in which they are assessed.

SECT. 2. This act shall take effect upon its passage.

Passed March 29, 1895.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED FOR THE ENSUING FINANCIAL YEAR FOR THE USE OF THE CITY.

SECTION 1. There shall be raised, and there is hereby ordered to be raised, on the polls and ratable estates within said city the sum of fifty-one thousand dollars (\$51,000) to defray the necessary expenses and charges of the city for the ensuing financial year, which together with the sums that may be raised by taxes on railroads, and from other sources, shall be appropriated as follows:

AN ORDINANCE IN AMENDMENT OF SECTION 15, CHAPTER 87 OF THE REVISED ORDINANCES RELATING TO AN INCREASE OF SALARY OF THE TOWN DISTRICT SCHOOL BOARD OF EDUCATION.

SECTION 1. That Section 15 of Chapter 37 of the Revised Ordinances is hereby amended so as to read as follows:

"SECT. 15. The several boards of education shall be paid for all services performed by them the sum of four hundred seventy-five dollars per annum to be divided as follows: The town district school board the sum of two hundred dollars, the board of education of Union School District the sum of two hundred and fifty dollars, the school board of School District No. 20 the sum of twenty-five dollars."

SECT. 2. This ordinance shall take effect upon its passage. Passed May 14, 1895.

AN ORDINANCE IN AMENDMENT OF CHAPTER 18 OF THE CITY ORDINANCES RELATING TO THE FIRE DEPARTMENT AND IN AMENDMENT OF AN ORDINANCE PASSED MARCH 12, 1895, ENTITLED "AN ORDINANCE IN AMENDMENT OF CHAPTERS 18 AND 22 OF THE REVISED ORDINANCES RELATING RESPECTIVELY TO THE FIRE DEPARTMENT AND THE WATER-WORKS."

SECTION 1. That Section 1 of Chapter 18 of the City Ordinances is hereby amended by striking out the word "sixteen" in the seventh line of said section, as printed, and inserting in place thereof the words "twenty-one," so that said section, as amended, shall read as follows:

"Section 1. The fire department will consist of a chief engineer, two assistants within the precinct, and one engineer each from Ward One, Ward Two, and Ward Three; two steamer and hose companies, to consist of thirteen men, including driver; one relief steamer, to consist of two men; two hose companies, to consist of eleven men, to include a driver; and a hook and ladder company, to consist of twenty-one men, to include a driver; steamer Pioneer, not less than twenty or more than forty men; hand engine companies No. 2 and No. 3, not less than twenty or more than thirty men each. The engineers shall exercise the powers of fire-wards, and those within the precinct to constitute the board of engineers."

SECT. 2. That an ordinance entitled "An Ordinance in Amendment of Chapters 18 and 22 of the Rivised Ordinances relating respectively to the Fire Department and the Water-Works, passed March 12, 1895" is hereby amended by striking out all of Section 10 of said ordinance and inserting in place thereof the following:

- "SECT. 10. The stewards of the Alert and Good Will hose companies will act as drivers of hose carriages, take charge of and properly care for and exercise the horses used by each company. They shall be permanently engaged and devote their whole time to the department and sleep in their respective hose houses at night and for the proper execution of all duties required of them shall be subject to the direction of the chief engineer."
- Sect. 3. That Section 7 of the aforesaid ordinance passed March 12, 1895, is hereby amended by striking out the word "two" in the tenth line of said section, as printed, and inserting in place thereof the word "six," and also by inserting the word "at" between the words "steamer" and "Penacook" in the twenty-seventh line of said section, as printed, so that said section, as amended, shall read as follows:
- "SECT. 7. That Section 29 of Chapter 18 of said Revised Ordinances is hereby amended so as to read as follows:
- The annual pay of the members of the fire department " SECT. 29. shall be as follows, and in full for all services: Chief, nine hundred and fifty dollars per annum and house rent; permanent force at central fire station, seven hundred and twenty-eight dollars each; drivers at Good Will and Alert hose houses, six hundred dollars each per annum, paid monthly; assistant engineers within the precinct, one hundred and twenty-five dollars each; engineers of steamers within the precinct, one hundred and fifteen dollars each; foremen of companies within the precinct, each ninety dollars per annum; assistant foremen of companies within the precinct, eighty-five dollars per annum; members of steamer, hose, and hook and ladder companies within the precinct, eighty dollars per annum; outside the precinct, engine companies Nos. 2 and 3, two hundred and forty dollars each; and Pioneer steamer company No. 3, five hundred dollars. Said sums to be divided among the members as each company shall direct. Engineer of steamer at Penacook, seventy-five dollars per annum; assistant engineer at Penacook, twenty-five dollars; assistant engineers at East and West Concord, ten dollars each."
- SECT. 4. That Chapter 18 of the City Ordinances is hereby amended by striking out all of Section 33 of said chapter and inserting in place thereof the following:
- "SECT. 33. All alarms for brush or forest fires shall be responded to by members of the fire department under such rules and regulations as shall be prescribed by the chief engineer."
  - Sect. 5. This ordinance shall take effect upon its passage. Passed May 14, 1895.

An Ordinance relating to the Building of Fires within the city limits.

SECTION 1. No person shall kindle or maintain any fire, except in a properly constructed stove or furnace for the destruction of garbage or refuse matter, within the following described limits: Beginning at a point on Turnpike street, at its junction with Pillsbury street; thence easterly in a straight line to the main track of the Concord & Montreal Railroad; thence northerly by said track and the main track of the Concord Division of the Boston & Maine Railroad to a point opposite the entrance to Blossom Hill Cemetery; thence westerly in a direct line to said cemetery; thence southerly by Rumford street to Franklin street; thence westerly by Franklin street to Auburn street; thence southerly by Auburn street to Centre street; thence westerly by Centre street to Giles street; thence southerly by Giles street to Warren street; thence westerly by Warren street to its junction with Pleasant and South Fruit streets; thence southerly by South Fruit street to Clinton street; thence easterly by Clinton street to Harvard street; thence southerly by Harvard street to Noyes street; thence easterly by Noyes street to South street; thence southerly by South street to Pillsbury street; thence easterly by Pillsbury street to the point begun at.

SECT. 2. Any person violating the provision of the aforesaid section shall be fined not exceeding ten dollars (\$10) for each offense.

Sect. 3. This ordinance shall take effect upon its passage. Passed May 14, 1895.

An Ordinance establishing and defining the East Concord Sewerage Precinct.

SECTION 1. That a sewerage precinct for the accommodation of the inhabitants of the village of East Concord, to be known as the East Concord sewerage precinct, is hereby fixed, established, and defined as follows: Said precinct shall embrace all the territory, together with its inhabitants, within the following described limits, to wit: Beginning at the railroad bridge in the village of East Concord, following the centre line of the track of the Concord & Montreal Railroad in a northerly direction to a point opposite the southwesterly corner of land of Abram D. Locke; thence by said Locke's line in an easterly direction to land of John T. Bachelder; thence northeasterly by said Bachelder and Letitia Merrick's land; thence easterly by said Merrick's land and easterly to land of G. Arthur Bourlett; thence northerly by said Bourlett's land and land

of John C. Hutchins to the centre line of Eastman street; thence easterly by said centre line of Eastman street to and across Penacook street to the northwesterly corner of J. E. Pecker's land; thence by the northerly line of said Pecker's land to the northwesterly corner of the land of the heirs of William Pecker; thence southerly on the easterly line of said J. E. Pecker to and across in a straight line land of said William Pecker's heirs to land of Charles H. Alexander; thence easterly by line of said Alexander's land to land of O. W. Coon; thence southwesterly by said Coon's land to land of G. E. Culver; thence westerly by said Culver's land to land of W. B. Fletcher; thence southerly by said Fletcher's land to land of A. K. Potter; thence easterly by said Potter's land to the centre of Portsmouth street; thence westerly on said centre line of Portsmouth street to a point opposite the northeast corner of land of Jed Carter; thence southerly on the easterly line of said Carter's land to and across land of Mrs. Belle Eastman; still to the Merrimack river; thence westerly by said river to the point of beginning.

Sect. 2. This ordinance shall take effect upon its passage. Passed June 11, 1895.

AN ORDINANCE PROVIDING FOR THE LOAN OF FIFTEEN HUNDRED DOLLARS FOR SEWERS IN THE EAST CONCORD SEWERAGE PRECINCT.

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan on the credit of the city the sum of fifteen hundred dollars (\$1,500) for the purpose of defraying the cost of establishing and constructing a sewerage system in the East Concord sewerage precinct.

Sect. 2. Bonds of said city shall be issued for said loan, signed by the mayor and countersigned by the city clerk, as provided in the ordinance relating to loans. Said bonds shall be numbered from one to three inclusive, and shall be for the sum of five hundred dollars (\$500) each. Said bonds shall be dated July 1, 1895. Bond No. 1 shall be due and payable on the first day of July, 1900. Bond No. 2 shall be due and payable on the first day of July, 1905. Bond No. 3 shall be due and payable on the first day of July, 1910. Said bonds shall have coupons attached for the semi-annual interest thereon, payable on the first days of January and July in each year during the time the bonds run, at the rate of not exceeding 4 per cent. per annum. Said bonds shall be exempt from taxation when owned by residents of Concord.

- Sect. 3. All money paid on account of said bonds, whether as principal or interest, shall be charged to said East Concord sewerage precinct. A sum sufficient to pay the interest accruing on said bonds shall be raised by an annual tax on the property and polls of said East Concord sewerage precinct, as authorized by law. The sum of one hundred dollars (\$100) per year for the term of fifteen years from July 1, 1895, shall be raised by a tax on the property and polls of said East Concord sewerage precinct for the purpose of creating a sinking fund to pay said bonds as they mature. Said sinking fund, as soon as paid over to said city from year to year, shall be invested by the finance committee of said city, subject to the approval of the board of mayor and aldermen. Said sinking fund shall be applied to the payment of said bonds as they mature.
- SECT. 4. The treasurer is hereby authorized to notify proposals for the sale of the bonds hereby authorized, and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the mayor.
  - SECT. 5. This ordinance shall take effect upon its passage.

Passed June 11, 1895.

An Ordinance in amendment of Section 21, Chapter 18, of the Revised Ordinances, fixing the age of members of the Fire Department.

SECTION 1. That Section 21, Chapter 18, of the Revised Ordinances of the city of Concord are hereby amended by striking out the words "twenty-one" and inserting in the place thereof the word "twenty," so that said section shall read:

"SECT. 21. If any member of either of the several companies shall wilfully neglect or refuse to discharge his duty or shall be guilty of disorderly conduct or disobedience to any officer or to any engineer, he shall for such offense be forthwith dismissed from the department by direction of the chief engineer. No person shall be a member of or serve in the fire department, who is under the age of twenty years and not a citizen of Concord and a resident therein permanently for at least one year, and no person whose occupation is carried on outside of the city shall be appointed a member of the fire department."

Passed June 11, 1895.

AN ORDINANCE IN AMENDMENT OF CHAPTERS 29 AND 30 OF THE CITY ORDINANCES RELATING TO THE INSPECTION OF ELECTRICAL WIRES AND FIXTURES.

SECTION 1. That Chapter 29 of the City Ordinances is hereby amended by striking out all of Section 6 of said chapter.

SECT. 2. That Chapter 30 of said City Ordinances is hereby amended by striking out all of Section 2 of said chapter and inserting in place thereof the following:

"SECT. 2. It shall be the duty of such officer carefully to examine and inspect, at such times as the board of mayor and aldermen may direct, all electrical wires and insulation thereof, and all fixtures and appliances pertaining thereto, erected upon or over any public street, highway, sidewalk, building, common, within the limits of the city; and such officer shall have full power and authority to order any and all needed repairs of such wires, poles, and other fixtures, and to further require of the owners of such wires or other fixtures the introduction and use of fusible wires or plates, or other protective devices wherever needed for the protection of property or safety of the public. He shall also, from time to time, make such inspections as may be reasonably necessary to ascertain that said poles, wires, and other fixtures and appliances are in a safe and suitable condition; and in cases of defective or dangerous wires he shall be authorized to take such immediate action with reference thereto as may be necessary for the public safety. He shall also cause to be removed all useless or dead wires, so called, and require the use of guard wires wherever needed, and all construction of additional poles and wires provided for under the ordinance entitled 'Electric Wires and Fixtures,' shall be under his supervision and direction; and he shall further enforce all orders provided for in the ordinance above mentioned, or which may from time to time hereafter be imposed by the board of mayor and aldermen with reference to electric wires."

SECT. 3. That said Chapter 30 is hereby further amended by striking out all of Section 3 of said chapter and inserting in place thereof the following:

"Sect. 3. Said officer shall receive as compensation the sum of forty (40) cents per hour for each hour of actual service rendered. All bills for such service shall be audited and approved by the board of mayor and aldermen and advanced by said city to said officer, and shall be repaid to said city by the person or company owning said wires within fifteen days after an itemized bill of the same has been presented to said person or company. At any time when the owners of such wires shall neglect to repair and keep them in safe condition.

to the satisfaction of said board, the board, upon four days' notice to said owners or any agent and a hearing, may order forthwith the removal of said wires, poles, and fixtures; and any permit previously obtained will thereby be revoked. And it is further provided that nothing in this section shall be construed as exempting the owners of said wires from frequent and careful inspection of the same by their own agents; but the inspection by a municipal officer is in addition to such other inspections, and intended as another safeguard to protect the public from injury and damage."

SECT. 4. This ordinance shall take effect upon its passage.

Passed June 11, 1895.

AN ORDINANCE CONSTITUTING THE VETERAN FIREMEN'S ASSOCIA-TION AN HONORARY AND AUXILIARY BRANCH OF THE FIRE DEPARTMENT.

SECTION 1. That the Veteran Firemen's Association be, and the same is hereby, constituted and made an auxiliary branch of the regular fire department of this city, the members of said association to be considered as honorary and to organize a coöperative working force to serve in emergency, without compensation, such service to be under the direction and control of the officers of the regular organization in allegiance and compliance thereto.

SECT. 2. That the joint standing committee of the city council on fire department be authorized and directed to rent, at an expense not exceeding one hundred and fifty (\$150) a year, suitable rooms for the accommodation of said Veteran Firemen's Association, the same to be selected by said association, the same to be charged to the regular appropriation for fire department.

Passed June 11, 1895.

AN ORDINANCE PROHIBITING BICYCLE RIDING ON SIDEWALKS.

SECTION 1. That no person shall ride a bicycle on or over the side pavements or sidewalks of any street, lane, or alley.

SECT. 2. Any person violating the provision of this ordinance shall be fined not exceeding ten dollars, nor less than one dollar, for each offense.

Passed July 9, 1895.

An Ordinance regulating the Hours of Labor of persons employed on the Streets and Highways of the City of Concord.

SECTION 1. That no person employed on the streets or highways under the direction and supervision of the commissioner of highways shall be required to work more than nine hours for a legal day's work.

Sect. 2. That two-horse teams with one driver employed by the highway department shall receive as compensation a sum not exceeding forty cents per hour. And that the men who sand the sidewalks shall receive twenty cents per hour for extra work.

Sect. 3. This ordinance shall take effect on its passage. Passed July 9, 1895.

AN ORDINANCE PROHIBITING THE PLACING OF ASHES, GLASS, AND OTHER MATERIALS, LIABLE TO PUNCTURE PNEUMATIC TIRES, IN THE STREETS.

SECTION 1. No person shall put or place, or cause to be put or placed, in or upon any street, lane, alley, or other public place in the city, any ashes, glass, crockery, scrap iron, nails, tacks, or any other articles which would be liable to injure or damage the tires or wheels of bicycles or any other vehicles which have wheels with rubber or pneumatic tires.

SECT. 2. Any person violating the provisions of the preceding section shall be liable to a fine of not less than two or more than twenty dollars for each offense.

Passed July 9, 1895.

AN ORDINANCE PROVIDING FOR THE LOAN OF TWO THOUSAND DOLLARS FOR SEWERS IN THE EAST CONCORD SEWERAGE PRECINCT AND REPEALING ORDINANCE PASSED JUNE 11, 1895, PROVIDING FOR THE LOAN OF FIFTEEN HUNDRED DOLLARS FOR THE PURPOSE.

SECTION 1. That the treasurer of said city is hereby authorized to procure by loan on the credit of the city the sum of two thousand dollars (\$2,000) for the purpose of defraying the cost of establishing and constructing a sewerage system in the East Concord sewerage precinct.

SECT. 2. Bonds of said city shall be issued for said loan, signed by the mayor and countersigned by the city clerk, as provided in the ordinauce relating to loans. Said bonds shall be numbered from one

to four inclusive, and shall be for the sum of five hundred dollars (\$500) each. Said bonds shall be dated July 1, 1895. Bond No. 1 shall be due and payable on the first day of July, 1900. Bond No. 2 shall be due and payable on the first day of July, 1905. Bond No. 3 shall be due and payable on the first day of July, 1910. Bond No. 4 shall be due and payable on the first day of July, 1915. Said bonds shall have coupons attached for the semi-annual interest thereon payable on the first days of January and July in each year, during the time the bonds run, at a rate of interest not exceeding 4 per cent. per annum. Said bonds shall be exempt from taxation when owned by residents of Concord.

SECT. 3. All money paid on account of said bonds whether as principal or interest shall be charged to said East Concord sewerage precinct. A sum sufficient to pay the interest accruing on said bonds shall be raised by an annual tax on the property and polls of said East Concord sewerage precinct as authorized by law. The sum of one hundred dollars (\$100) per year for the term of twenty years from July 1, 1895, shall be raised by a tax on the property and polls of said East Concord sewerage precinct for the purpose of creating a sinking fund to pay said bonds as they mature. Said sinking fund as soon as paid over to said city from year to year, shall be invested by the finance committee of said city, subject to the approval of the board of mayor and aldermen. Said sinking fund shall be applied to the payment of said bonds as they mature.

Sect. 4. The treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized and such bids as seem for the best interest of the city shall be accepted by him, provided the same are approved by the mayor.

SECT. 5. The ordinance passed June 11, 1895, entitled "An ordinance providing for the loan of fifteen hundred dollars for sewers in the East Concord sewerage precinct," is hereby annulled and repealed, this ordinance being substituted in the place thereof; this ordinance shall take effect upon its passage.

Passed August 20, 1895.

AN ORDINANCE ENLARGING THE SEWERAGE PRECINCT FOR THE ACCOMMODATION OF THE INHABITANTS OF THE CITY PROPER.

SECTION 1. That the sewerage precinct for the accommodation of the inhabitants of the city proper shall be, and hereby is, enlarged by the addition thereto of the territory on the north side of said precinct, beginning at a point on the west line of the Concord & Clare-

mont Railroad, so called, at the northerly limit of said precinct, as heretofore established, and running northerly along the westerly line of said railroad to a point opposite the northern line of the land of the Wilkins, Foster & Clough Corporation; thence running westerly along the said line to the northwest corner bound of the said land; thence southerly along westerly line of said land of said corporation in a straight line to a point on the northerly boundary of said precinct as heretofore existing; meaning and intending hereb? to disannex from the West Concord sewerage precinct as heretofore existing, and to join to and include within said city proper sewerage precinct the land of said corporation as now owned and defined, and any intervening land within the bounds herein described.

SECT. 2. All acts and parts of acts inconsistent with this act are hereby repealed. This act shall take effect upon its passage.

Passed August 20, 1895.

AN ORDINANCE IN AMENDMENT OF CHAPTER 7 OF THE CITY ORDINANCES RELATING TO STREETS AND PUBLIC PLACES AND ABUSES THEREIN.

SECTION 1. That Chapter 7 of the City Ordinances is hereby amended by striking out all of Section 18 of said chapter and inserting in place thereof the following:

"Sect. 18. It shall be the duty of all persons occupying stores and residences outside of the territory covered by Section 16 of this chapter and within that part of the city which prohibits the destruction of garbage or refuse matter by fire except in a prescribed manner, who desire the removal of such garbage or refuse matter by the city to place the same in suitable receptacles carefully separating all paper and other combustible material from ashes and non-combustible material and placing them in different receptacles; and when notified by the commissioner of highways as hereinafter provided, they shall place those receptacles alongside of their respective residences for collection and removal by the said commissioner."

SECT. 2. Said Chapter 7 is hereby further amended by striking out all of Section 19 of said chapter and inserting in place thereof the following:

"Sect. 19. It shall be the duty of the commissioner of highways to cause said ashes, paper, and other garbage to be collected in the spring and fall of each year and removed to some suitable place, and he shall notify the occupants of such residences and stores at least three days in advance of the day in which he intends to make such collection."

- SECT. 3. Said chapter is hereby further amended by striking out all of Section 20 of said chapter and inserting in place thereof the following:
- "SECT. 20. No person shall wilfully or mischievously break down, or climb upon, or in any manner commit any injury to any of the trees, shrubbery, or flowers growing, or planted upon, any of the public grounds or parks in the city."
- SECT. 4. Said chapter is further amended by adding thereto at the end of the aforesaid Section 20, the following additional sections:
- "SECT. 21. No cart, wagon, or other vehicle, loaded with any article to be exposed for sale, shall be permitted to stand for a market, except upon the city lot prepared for the purpose on Warren street, and at such other places as may be specially designated by the city marshal to prevent over-crowding the lot provided; and such vehicles, while within the compact part of the city, shall be under the control and supervision of the city marshal.
- "Sect. 22. Any person who shall offend against any of the provisions of this chapter, shall be fined a sum not exceeding ten dollars, nor less than one dollar for each offense."
  - Sect. 5. This ordinance shall take effect upon its passage. Passed September 10, 1895.

An Ordinance in amendment of Chapter 33 of the Revised Ordinances, in reference to the Printing of City Reports.

Section 1. That Chapter 33 of the City Ordinances, as published, be, and the same is hereby, revised and amended as far as to admit of the printing, as soon as practicable after the close of the fiscal year, of all the annual reports of the city official heads of departments, with the exception of the reports of the boards of education in the city and such other reports as cannot be completed at that time, which shall be printed and published subsequently and separately, and without delaying the publication of the general volume of city reports.

Passed November 12, 1895.

An Ordinance authorizing a Loan for the purpose of Refunding a Water Precinct Note of Fifteen Thousand Dollars.

SECTION 1. That the city treasurer be, and hereby is, authorized to borrow, on the credit of the city, a sum of money not exceeding fifteen thousand dollars (\$15,000) for the payment of a water precinct note, maturing December 1, 1895.

SECT. 2. That said sum shall be raised by said city by the issue of its bonds, under its municipal seal, signed by the mayor and city treasurer and countersigned by the city clerk, and in conformity with the provisions of the "Municipal Bonds Act. 1895," and of such date and at such rate of interest, not exceeding 4 per cent. per annum, as the mayor and city treasurer may determine, and payable five years from date.

SECT. 3. That all such bonds that shall be owned by citizens of said city of Concord shall be exempt from taxation, as provided in Chapter 55, Section 14, of the Public Statutes.

Passed November 12, 1895.

AN ORDINANCE PROVIDING FOR A HISTORY OF THE CITY OF CONCORD.

SECTION 1. That Amos Hadley, Howard F. Hill, Benjamin A. Kimball, James O. Lyford, Lyman D. Stevens, and John M. Mitchell be, and the same are hereby, appointed and constituted a committee, of which the mayor shall be ex-officio a member and chairman, all to serve without pay, to employ some competent and satisfactory person to write the history of Concord to the present time, and to procure its publication; said committee to devise some plan or project whereby the city, as such, shall be saved from considerable expense in the matter; subscriptions to be obtained to the work, and data and material collected for the same; and for said purposes the sum of two hundred dollars (\$200) is hereby appropriated from any money in the treasury not otherwise appropriated, subject to the order of the duly elected treasurer of said committee upon its organization, and to be expended under the direction of the committee. The said committee to be known as the "City History Commission," the members thereof to serve until others are elected in their stead; and any vacancy in said commission, from death, resignation, or inability, shall be filled immediately by election in the city council; and said commission shall report progress, from time to time, to the city council, and shall incur no expense beyond the sum of two hundred dollars (\$200) hereby appropriated, without first obtaining proper authorization from the city council therefor.

Passed January 14, 1896.

AN ORDINANCE APPROPRIATING TWENTY-FIVE HUNDRED DOLLARS TO SECURE THE WRITING AND PUBLICATION OF A HISTORY OF CONCORD.

SECTION 7. That the sum of twenty-five hundred dollars (\$2,500) be, and the same is hereby, appropriated from any money in the treasury not otherwise appropriated, for the purpose of securing the writing and publication of the history of Concord; said sum to be paid only upon the written order of the city history commission. And any profit resulting from the sale of said history shall be for the use and benefit of the city.

Passed February 11, 1896.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE EAST CONCORD SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

Passed March 24, 1896.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF THE CITY WATER PRECINCT FOR THE ENSUING FINANCIAL YEAR.

SECTION 1. That there shall be raised and there is hereby ordered to be raised, on the polls and ratable estates within the water precinct of the city, the sum of six thousand dollars (\$6,000) to

defray the necessary expenses and charges of the water precinct for the ensuing financial year, which shall be appropriated as follows: For water for hydrant service, \$6,000.

Passed March 24, 1896.

AN ORDINANCE ESTABLISHING THE OFFICE OF CITY AUDITOR, DEFINING HIS DUTIES, PROVIDING FOR HIS APPOINTMENT AND PAY, AND ALSO IN AMENDMENT OF CHAPTERS 4 AND 37 OF THE REVISED ORDINANCES RELATING TO FINANCES AND ACCOUNTABILITY IN EXPENDITURES AND THE SALARY OF THE CITY CLERK, AND CHAPTER 33 OF SAID REVISED ORDINANCES RELATING TO PRINTING OF THE CITY REPORTS.

Section 1. There shall be appointed at the commencement of each municipal term a joint standing committee on accounts and claims, to consist of two members of the board of aldermen and two members of the common council. There shall also be appointed by the mayor, with the approval of the board of aldermen, at the commencement of each municipal term, an auditor who shall continue in office during said term and until his successor is appointed and qualified. He shall give bond satisfactory to the board of mayor and aldermen, in the sum of five thousand dollars (\$5,000) for the faithful performance of his duties. In case of any vacancy by death, resignation, removal, or inability to perform his duties, a successor shall be appointed to fill out the unexpired term. He shall receive in full for his services the sum of fifteen hundred dollars per annum, payable monthly. He shall occupy an office in the city building, and have the use of a safe belonging to the city.

Sect. 2. All accounts and claims against the city shall be laid before said auditor, who shall carefully examine the same and see that they are correctly cast, and present the same, folded, filed, and numbered, with his approval endorsed thereon, to the committee on accounts and claims. No account or claim, except judgments of judicial courts, shall be received or acted upon by said auditor, or said committee, unless such account or claim shall be accompanied with the approval of the officer, committee, or agent authorized in behalf of the city, to make the contract or cause the expenditure to be made. In case there are bills or accounts which said auditor shall not approve, he shall present them to said committee on accounts and claims with his reason for refusing to approve the same. The committee shall then consider them, and allow or reject them as they shall see fit. Said committee shall meet once, at least, in each month

and carefully examine and audit all accounts and claims so approved and laid before them, and shall allow and pass the same if found to be correct and justly due, and make report thereof to the city council. All claims which are not otherwise provided for shall be referred to said committee and their decision shall be laid before the city council for action. The auditor shall keep a book in such manner and form as the said committee shall direct, wherein he shall enter the date and amount of every account and claim against the city as finally corrected and allowed by said committee; and also the name of the person to whom the same has been allowed, designating the fund or appropriation from which the same shall be paid. He shall be under the general control and supervision of the committee on finance and the committee on accounts and claims, in regard to the due and proper discharge of all his duties, and shall act as clerk of said committees and keep a proper record of their proceedings.

SECT. 3. The auditor, under the direction of the committee on finance, shall keep a book or ledger, in which he shall enter the various appropriations made by the city council, each under its appropriate head, and charge to each the different payments and expenditures which from time to time shall be made therefrom. Whenever any appropriation has been expended he shall immediately give notice thereof to the mayor, the city council, and to said committee on accounts and claims, and neither the auditor nor the committee shall pass or allow any claim or account chargeable to such appropriation until the city council shall have provided the means of paying the same. The auditor shall also open an account with the city treasurer, charging him with the amount of loans to the city and all sums of money paid to him on behalf of the city; and also with all bonds, notes, mortgages, or other securities in the hands of the treasurer, or which may pass into his hands, belonging to the city, to the end that the amount and value thereof may, at any time, be seen on his books.

SECT. 4. No money shall be drawn out of the city treasury, except upon the written order of the mayor addressed to the treasurer and countersigned by the city clerk, and numbered so as to correspond with the account or claim it shall be drawn to pay; and no account or claim against the city, arising from any contract or agreement for labor or for the purchase or sale of any materials, goods, wares, or merchandise in which any member of the city council or any officer or agent appointed by the city council, or either branch thereof, has been directly or indirectly interested in a private capacity, shall be approved by the auditor or said committee, nor

shall any order therefor be drawn upon the city treasurer, unless such contract or agreement shall have been authorized or ratified by the city council; but such restrictions shall not be construed to prevent the purchase of ordinary supplies from members of the city council who may be engaged in trade, nor the employment of the members of the council in their ordinary vocations, by duly authorized heads of departments.

SECT. 5. In all bills against the city, which shall be presented for payment, each item shall be specifically set forth; and no claim for medical services shall be allowed, unless such services were authorized by one or more of the overseers of the poor; and no claim shall be allowed and paid, unless approved by the city council. The mayor is hereby authorized to draw orders, countersigned by the city clerk, on the treasurer for the payment of all accounts and claims allowed, as provided in this chapter; but he shall not draw an order in payment for any services rendered or any materials furnished for any department beyond the sum specifically appropriated therefor by the city council.

SECT. 6. Any sum of money which shall have been specifically appropriated for the payment of principal or interest due on any note or other security of the city or for state or county taxes, may be drawn from the treasury, and paid by the order of the mayor, countersigned by the city clerk, for the purpose for which it was appropriated, without any action on the part of the committee on accounts and claims; and whenever it shall be necessary to pay money in advance on contracts made, or for work begun but not completed, the mayor, upon being satisfied of such necessity, may draw his order, countersigned by the city clerk, on the treasurer for a sum not exceeding five hundred dollars at any one time, taking a proper voucher for the same. The mayor, immediately after drawing the orders provided for in this section, shall notify the auditor thereof.

SECT. 7. Whenever any money shall be drawn from the treasury for the purpose specified in the preceding section, the auditor shall report the same and the amount thereof, to the committee on accounts and claims at their next meeting, and shall charge the same under the appropriate head of expenditures.

SECT. 8. All city officers, who shall in their official capacity receive any money on behalf of the city from any source, shall pay to the treasurer the amount in their hands once in thirty days or oftener if required, except the collector of taxes, who shall make such payment daily whenever the sum in his hands shall amount to five hundred dollars. All other persons, who shall at any time have money in their hands belonging to the city, shall forthwith pay the

same to the treasurer. No money received under the provisions of this section shall be used by any department unless the same has been specifically appropriated by the city council.

SECT. 9. In all cases of the payment of money to the city treasurer, he shall give his receipt for the amount to the person paying the same, and shall forthwith deliver to the auditor a duplicate copy of said receipt to be filed in his office. All city officers and agents receiving money in behalf of said city, shall deliver to the auditor once in thirty days a report in detail of the amount received, and what disposition has been made thereof, except in cases otherwise provided.

SECT. 10. The city treasurer shall keep, in a book provided for the purpose, an accurate and true account of all receipts and payments on behalf of the city, making the same conform, in mode of entry, as nearly as may be with the accounts kept by the city auditor. He shall not pay any money out of the treasury, except upon orders of the mayor, drawn in the form prescribed in the fourth section of this ordinance. He shall, at the end of each six months, certify to the auditor all amounts by him paid for maturing bonds, interest, state or county taxes, or any other purpose; and the auditor shall enter each of said amounts in the ledger under its appropriate head, as provided in Section 3 of this ordinance. He shall, at the close of each fiscal year and when required, lay before the city council a statement of the condition of the treasury, and all of moneys received and paid by him on city account. Whenever he is authorized by the city council, to borrow money on the credit of the city, all notes and certificates of indebtedness given therefor shall be signed by the mayor and city treasurer and countersigned by the city clerk, and all such notes and certificates shall be registered in books kept for that purpose, in the offices of the city treasurer and the city auditor respectively. Such registers shall describe said notes and certificates by number, date, and amount, the name of person to whom payable, when payable, the rate of interest, and the date of the ordinance or resolution authorizing the same; and no such note or certificate shall be valid until such record shall be made, and the same when paid with the date of payment shall be entered on each of said registers.

SECT. 11. There shall be appointed at the commencement of each municipal term a joint committee on finance consisting of the mayor, two members of the board of aldermen, and two members of the common council, which committee shall negotiate all loans which shall be authorized by the city council and shall report the amount to the city treasurer.

SECT. 12. The auditor shall, at the beginning of each financial year, present to the committee on finance, in writing, an estimate of the amount of money necessary to be raised for the current year, under the respective heads of appropriations, and recommending the ways and means for obtaining the same. The committee on finance, after considering the same and making such changes and recommendations as may seem to them desirable, shall lay the same before the city council. All unexpended balances of appropriations, at the close of each fiscal year, shall be covered into the treasury, and no transfer of any unexpended balance shall be made from one appropriation to another. The auditor, at the close of each financial year, shall prepare and lay before the city council a statement of all the receipts and expenditures of the preceding financial year, giving in detail the amount of appropriation and expenditure of the preceding financial year, and in detail the amount of appropriation and expenditure for each department. He shall also at each regular meeting of the city council, present a statement of all expended appropriations, both general and special, with the respective amounts expended and unexpended in each of the same. He shall annually, in the month of January, make an inventory of the real estate and personal property belonging to the city, in the hands of any and all of its officers, agents, or committees, with an estimate of the value thereof in detail, and shall keep a record of all property bought during the year. Such inventory shall be recorded and an abstract thereof printed in the city report. Every officer, committee, or agent, who shall buy any property for the city, shall immediately notify the auditor, in writing, stating what property has been purchased, the date of the purchase, and the price paid.

Sect. 13. The auditor shall, at the close of each financial year, and as much oftener as he shall deem it expedient, examine and audit the accounts of the city treasurer, city clerk, collector of taxes. city marshal, commissioner of highways, city engineer, and all other officers and departments of the city that receive or pay out any money belonging to the city, and for that purpose shall have access to all the books and vouchers in the possession of any of said officers or of said departments. Said auditor shall not only compare said accounts with the vouchers thereof but shall ascertain whether all moneys due the city have been collected and accounted for. He shall examine all bonds, notes, and securities in the treasurer's hands belonging to the city and make report thereof to the city council. The printing of the annual city report shall be under his direction and supervision. Said report shall be prepared and issued on or before March 1, in each year.

- SECT. 14. The financial year shall begin and end on the first day of January in each year, and the accounts of all officers of the city shall be made up accordingly.
- SECT. 15. Coupon bonds issued by the city of Concord may be registered on the books of the treasurer, and shall thereafter be payable, principal and interest, at the time provided by said bonds only to the registered owner or his order, on the signing of a receipt therefor, which receipt shall be a voucher for the amount so paid by the treasurer.
- The coupons of bonds registered shall be cut off and SECT. 16. destroyed, and a certificate of such destruction shall be recorded on the bond register, and attested by the mayor, city clerk, and treasurer. On the face of the bond shall be printed, "This bond is payable only to ---- or order and is transferable only by assignment on the back, and registration thereof in the register of bonds kept by the treasurer," which certificate shall be signed by the treasurer. Bonds so registered shall thereafter be transferable only by assignment in writing on the bond, and registration of such assignment in the bond register. The bond register shall be kept by the treasurer and in it shall be recorded the number and description of each bond so registered, the name of the owner, the certificate of the destruction of the coupons, blanks for transfer, and blanks in which shall be noted the date and amount of each payment of interest. When the bond is paid in full, the holders shall receipt therefor on the bond register.
- SECT. 17. After the close of the present municipal term, the city clerk shall receive a salary of twelve hundred dollars per annum, payable monthly, in full for his services as city clerk, and in lieu of all fees which he shall receive or be entitled to from any source, by virtue of said office. He shall pay over to the city treasurer, in quarterly payments, all fees and perquisites by him received or to which he may be entitled on account of holding said office, and at the same time shall submit to the auditor a statement in detail of the amounts so received, from whom, and on what account.
- SECT. 18. Immediately after the passage of this ordinance, an auditor shall be elected, who shall hold office until the commencement of the next municipal term and until his successor is chosen and qualified. He shall give bond and be subject to all the provisions of this ordinance, and shall receive, pro rata, the salary provided for in Section 1 of this ordinance.
- SECT. 19. So much of the provisions of Chapter 4, Chapter 33, and Chapter 37 of the City Ordinances as are inconsistent with this

ordinance and all other ordinances and parts of ordinances that are inconsistent with this ordinance, are hereby repealed.

Sect. 20. This ordinance shall take effect upon its passage. Passed May 12, 1896.

AN ORDINANCE APPROPRIATING A SUM NOT EXCEEDING ONE THOUSAND DOLLARS FOR THE PURPOSE OF PURCHASING A STORAGE BATTERY PLANT AND APPURTENANCES FOR THE FIRE DEPARTMENT.

SECTION 1. That so much of a sum not exceeding one thousand dollars (\$1,000) as may be necessary to pay for a storage battery and plant and appurtenances for the fire department, be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated.

Passed December 8, 1896.

An Ordinance authorizing a temporary loan for Work on Sewers.

SECTION 1. That the city treasurer be authorized to borrow, on the credit of the city, the sum of five hundred dollars (\$500) and that this sum be, and the same is hereby, appropriated for work on sewers.

Passed December 8, 1896.

AN ORDINANCE IN AMENDMENT OF AN ORDINANCE PASSED MAY 12, 1896, ENTITLED AN ORDINANCE ESTABLISHING THE OFFICE OF CITY AUDITOR, DEFINING HIS DUTIES, PROVIDING FOR HIS APPOINTMENT AND PAY, AND ALSO IN AMENDMENT OF CHAPTERS 4 AND 37 OF THE REVISED ORDINANCES RELATING TO FINANCES AND ACCOUNTABILITY IN EXPENDITURES AND THE SALARY OF THE CITY CLERK, AND CHAPTER 33 OF SAID REVISED ORDINANCES RELATING TO PRINTING OF THE CITY REPORTS.

SECTION 1. Amend the twenty-first line of said printed ordinance by crossing out the words "fifteen hundred" and inserting in place thereof the words "one thousand," so that said clause, as amended, shall read as follows: He shall receive in full for his services the sum of one thousand dollars per annum, payable monthly.

SECT. 2. This ordinance shall take effect on and after the fourth Tuesday of January, 1897.

Passed January 12, 1897.

An Ordinance appropriating One Hundred Dollars for payment of Rent for the Tax Collector's Office for one year from June 1, 1896.

SECTION 1. That one hundred dollars (\$100) be, and is hereby, appropriated for payment of rent for the tax collector's office for twelve months ending June 1, 1897.

Passed January 12, 1897.

# RESOLUTIONS.

A RESOLUTION IN RELATION TO PAYING SALARIES AND RENTS.

Resolved by the City Council of the City of Concord as follows:

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all regular salaries and rents as the same shall become due during the present municipal term and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed January 22, 1895.

A RESOLUTION APPOINTING A COMMITTEE TO INVESTIGATE AN ACT BEFORE THE NEW HAMPSHIRE LEGISLATURE ENTITLED AN ACT "TO AMEND THE CHARTER OF THE CONCORD STREET. RAILWAY."

Resolved by the City Council of the City of Concord as follows:

That the mayor, the president of the common council, and the city solicitor with one member of each board, to be appointed by the presiding officers thereof, are hereby appointed a committee to examine the bill now pending in the legislature entitled "an act to amend the charter of the Concord Street Railway," and if in the judgment of said committee the interests of said city require, they are instructed to use all reasonable efforts to prevent the passage of the same.

Passed January 22, 1895.

A RESOLUTION ESTABLISHING THE TIME FOR THE REGULAR MEET-INGS OF THE BOARD OF ALDERMEN AND COMMON COUNCIL.

Resolved by the City Council of the City of Concord as follows:

That the regular meetings of the board of aldermen shall be held on the second Tuesday in each month at 2 o'clock in the afternoon and that the council shall assemble in their rooms for business at 3 o'clock upon the same day.

This resolution shall take effect upon its passage.

Passed February 12, 1895.

A Resolution repealing a Joint Resolution passed December 11, 1894, entitled "Joint Resolution providing for a Temporary Loan for the purpose of Repairing the Central Fire Station.

Resolved by the City Council of the City of Concord as follows:

That the provisions of a joint resolution passed December 11, 1894, entitled "joint resolution providing for a temporary loan for the purpose of repairing the central fire station" be, and the same are hereby, repealed.

Passed March 12, 1895.

A RESOLUTION DISCONTINUING A CERTAIN HIGHWAY LEADING TO PENACOOK LAKE OR LONG POND, SO CALLED.

Resolved by the City Council of the City of Concord as follows:

That a certain highway leading to Penacook Lake or Long Pond, so called, laid out September 28, 1869, and described as follows: Beginning at a stone bound on the east side of the highway known as the "Little Pond road," and nearly opposite the junction of the highway leading from the Hopkinton road, known as the "Long Pond road," thence north twenty-five and one half degrees, east twelve rods and thirteen links to a stone bound on the southerly shore of Long Pond, so called, be, and the same hereby is, discontinued.

Passed March 12, 1895.

A RESOLUTION OFFERING A REWARD OF THREE HUNDRED DOL-LARS FOR THE ARREST OF THE PERSON KNOWN AS DOMENICO LO' POSSELLO.

Resolved by the City Council of the City of Concord as follows:

That said city of Concord hereby offers and agrees to pay a reward of three hundred dollars (\$300) for the arrest of one called and known as Domenico Lo' Possello, wanted for the murder of Vincenzo Dazane, to any person who shall in consequence of said offer apprehend and secure said Domenico Lo' Possello.

Passed March 12, 1895.

A RESOLUTION AUTHORIZING THE COMMITTEE ON FIRE DEPART-MENT TO PURCHASE CERTAIN SUPPLIES.

Resolved by the City Council of the City of Concord as follows:

That the joint standing committee on fire department is hereby authorized to provide a rack for ladders at the central fire station, two pony chemical fire extinguishers for use at Penacook and West Concord, a pair of horses for the use of the central fire station, one fire-alarm box at Fosterville; and are authorized to put in a tapper at the *Monitor* office and arrange to have the whistle there blow an alarm.

They are also authorized to arrange the shed at the central fire station so that an engine could be suitably kept therein. A sum sufficient to defray the expenses of the same shall be charged to the incidental account of the fire department.

Passed March 12, 1895.

A RESOLUTION NAMING CERTAIN STREETS IN THE VILLAGE OF WEST CONCORD.

Resolved by the City Council of the City of Concord as follows:

That hereafter in all city records and documents the following described streets and highways in West Concord shall be called as follows:

That portion of the main highway leading from Concord to Penacook between the point where the Concord & Claremont Railroad crosses said highway and the West Concord Cemetery shall be called West State street.

That portion of the highway leading from West State street commencing directly north of the Congregational church and running westerly to the house of D. W. Wilcox shall be called Hutchins street.

That portion of the highway leading from West State street commencing just north of the Concord Manufacturing Company, running by the southerly side of the depot of the Concord & Claremont Railroad and by the brick school house and finally intersecting with said Hutchins street shall be called Knight street.

The street running west from said West State street commencing near the residence of John B. Giles and extending to Penacook Park formerly known as High street shall be called Lake street.

The street running from said Lake street north to Knight street shall be called Dick street.

The street running easterly from West State street south of the old city farm building shall be called Peabody street.

The street next south of said Peabody street running east from said West State street shall be known as K street.

The street next east of said West State street running north from said K street to said Peabody street shall be called View street.

Passed March 12, 1895.

## A RESOLUTION IN RELATION TO ADJOURNMENT.

Resolved by the City Council of the City of Concord as follows:

That an adjourned meeting of the city council be held on Friday, March 29, 1895, at 2 o'clock in the afternoon.

Passed March 12, 1895.

A RESOLUTION PROVIDING FOR A ROSTER OF THE OFFICERS OF THE CITY AND MEMBERS OF THE CITY GOVERNMENT.

Resolved by the City Council of the City of Concord as follows:

That the city clerk be authorized and directed to have printed a suitable number of copies, in convenient form, of the complete roster of the present city government, including the members of the city council, the committees of both branches of the same, and all other officers.

Passed March 12, 1895.

A RESOLUTION RELATING TO THE DISTRIBUTION OF COPIES OF THE TOWN RECORDS.

Resolved by the City Council of the City of Concord as follows:

That ten copies of the published volume of Concord town records, 1732-1820, be given to the New Hampshire Historical Society for the purpose of exchange.

Also that a copy of said records be presented to the library of St. Paul's School.

Passed March 12, 1895.

A RESOLUTION ENTITLED A RESOLUTION PROVIDING FOR THE PURCHASE OF A HORSE FOR THE CHIEF ENGINEER.

Resolved by the City Council of the City of Concord as follows:

That the joint standing committee on fire department is hereby authorized to purchase a horse for the chief engineer.

Passed March 12, 1895.

## A RESOLUTION IN RELATION TO THE CHEMICAL ENGINE.

Resolved by the City Council of the City of Concord as follows:

That the chemical engine recently purchased by the city shall be put into commission for active service on and after April first next, and the chief engineer, under the direction of the committee on fire department, is hereby instructed to provide the necessary men, horses, and appliances for using the same effectively until other provision is made.

Passed March 29, 1895.

A RESOLUTION PROVIDING FOR TEMPORARY LOANS NOT EXCEEDING IN TOTAL FIFTY THOUSAND DOLLARS TO MEET THE USUAL
AND CURRENT EXPENSES OF THE PRESENT FISCAL YEAR AS
THEY MAY BECOME DUE.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer under the advice and direction of the committee on finance is hereby authorized to procure by temporary loans upon the credit of the city, such sum as may be necessary not exceeding in total fifty thousand dollars (\$50,000), at the lowest practical per centum to be used exclusively in meeting the usual and current expenses of the city during the present fiscal year, as they become due.

Passed March 29, 1895.

A RESOLUTION AUTHORIZING THE MAYOR AND COMMITTEE ON LIGHTING STREETS TO MAKE A CONTRACT WITH THE CONCORD LIGHT AND POWER COMPANY FOR CONCORD GAS LIGHT COMPANY FOR GAS LIGHTS.

Resolved by the City Council of the City of Concord as follows:

That the committee on lighting streets with the mayor added be, and hereby are, authorized to sign a contract on behalf of said city, with the Concord Light and Power Company, for the Concord Gas

Light Company, to furnish gas, lighting and extinguishing one hundred and fourteen (114) street lamps (more or less), burning five (5) cubic feet of gas per hour, one thousand four hundred and sixty-three (1,463) hours each per year, sunset to midnight, twenty (20) nights each month, sixteen dollars and fifty cents (\$16.50) per lamp per annum, extra nights pro rata for eleven (11) police lamps (more or less), burning five (5) cubic feet of gas per hour, four thousand (4,000) hours each per year, all night and every night, same to be lighted by gas company and extinguished by police, twenty-eight dollars (\$28) per lamp per annum. For gas consumed in all city buildings or offices, one dollar and eighty cents (\$1.80) per one thousand (1,000) cubic feet. Said contract to be for one year from March 1, 1895.

Passed March 29, 1895.

A RESOLUTION PROVIDING FOR THE REPAIR OF THE TENEMENT TO BE OCCUPIED BY THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

The committee on lands and buildings are hereby authorized and instructed to repair the tenement, which is to be occupied by the chief engineer of the fire department and to put it in proper shape to be occupied as soon as possible. A sum of money sufficient to defray the expenses thereof shall be appropriated out of any money in the treasury not otherwise appropriated not exceeding the sum of four hundred and fifty dollars (\$450).

Passed March 29, 1895.

A RESOLUTION RELATING TO THE DISTRIBUTION OF COPIES OF THE TOWN RECORDS.

Resolved by the City Council of the City of Concord as follows:

That a copy of the published volume of the Concord town records, 1782-1820, be given to each member of the city council.

Passed March 29, 1895.

A RESOLUTION RELATING TO THE MATTER OF A LOCKUP AT WEST CONCORD.

Resolved by the City Council of the City of Concord as follows:

That the joint committee on lands and buildings be, and are, authorized to procure proposals for the purpose of fitting up a suitable lockup in the basement of the city building at West Concord as provided by a report of the committee recommending the same and accepted by the board.

Passed March 29, 1895.

A RESOLUTION RELATING TO THE DISTRIBUTION OF THE OLD Town Records.

Resolved by the City Council of the City of Concord as follows:

That the city clerk be authorized to furnish his honor the mayor. and Fred Leighton of the Patriot, Arthur Willis of the Monitor, and O. R. Shepard of the Manchester Union, respectively as reporters, with one copy each of the old town records, and also a copy of the same be given the clerk of the common council.

Passed March 29, 1895.

A RESOLUTION IN RELATION TO THE LIGHTS AND CONDITION OF THE FURNACE IN THE CITY BUILDING AT EAST CONCORD.

Resolved by the City Council of the City of Concord as follows:

That the committee on lands and buildings, with the committee on fire department added, are hereby authorized to investigate as to the condition of the lights and furnace in the city building in East Concord, and report at a subsequent meeting of the board of aldermen. Passed April 9, 1895.

A RESOLUTION IN REFERENCE TO THE CARE AND MANAGEMENT OF THE CITY CLOCKS.

Resolved by the City Council of the City of Concord as follows:

That the joint standing committee on fire department be authorized to employ a suitable person to take charge of the city clocks and to see that they are regularly wound and properly managed and cared for, the expense of such service not to exceed eighty-five dollars a year.

Passed April 9, 1895.

A RESOLUTION TO APPOINT A COMMITTEE OF THREE WITH AUTHORIZATION TO INVESTIGATE AND REPORT UPON THE SUBJECT OF STEAM ROAD ROLLERS.

Resolved by the City Council of the City of Concord as follows:

That a committee of three, comprising the commissioner of high-ways and one alderman and one councilman, to be appointed respectively by the mayor and the president of the common council, be authorized and instructed to make an investigation of the subject of steam road rollers, together with their practicability, expense, and the advisability of the purchase of one by the city of Concord; that said committee be allowed such actual expenses as may be necessary to investigate the subject reasonably, and to report upon it at the next regular meeting of the city council.

Passed April 9, 1895.

A RESOLUTION AUTHORIZING THE TAX COLLECTOR TO BRING SUIT FOR OUTSTANDING TAXES.

Resolved by the City Council of the City of Concord as follows:

That the collector of taxes be, and hereby is, authorized and instructed to collect outstanding taxes by suit at law or bill in equity, in accordance with Section 17, Chapter 60, of the Public Statutes of New Hampshire, and that all such suits shall be brought by and under the advice of the city solicitor.

Passed April 27, 1895.

A RESOLUTION EXEMPTING FROM TAXATION CERTAIN PROPERTY OF WILKINS, FOSTER & CLOUGH.

Resolved by the City Council of the City of Concord as follows:

Whereas it is the policy of the city of Concord to encourage the introduction of new manufactories by the exemption from taxation of the capital invested therein for the term of ten years, and whereas Wilkins, Foster & Clough, of said Concord, are about to erect a certain factory and other buildings, to be occupied by them for manufacturing purposes, and about to make other improvements upon real estate,—

Now, therefore, be it resolved by the city council of the city of Concord that all additional property invested by said Wilkins, Foster & Clough in mills and other property for manufacturing purposes,

and used in their business in said Concord, and which have not been taxed heretofore, be, and the same are hereby, exempted from taxation for the period of ten years from and after the passage of this resolution, or for such period of time as the said Wilkins, Foster & Clough shall continue to use said property for manufacturing purposes aforesaid; provided that the entire property hereby exempted from taxation shall not exceed sixty thousand dollars (\$60,000); provided, also, that this resolution shall not be construed to exempt any property owned or acquired by said Wilkins, Foster & Clough which has heretofore been taxed; and provided further that this resolution shall not include dwelling or tenement houses; provided further that the original cost of said manufactory shall not be less than \$8,000, exclusive of land and machinery.

Passed May 14, 1895.

A RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO RENOVATE THE OFFICE OF THE CITY MARSHAL AT THE POLICE STATION.

Resolved by the City Council of the City of Concord as follows:

That the committee on lands and buildings be authorized to expend such sum as they may deem necessary for the purpose of renovating the office at the police station, such expenditure not to exceed the sum of seventy-five dollars (\$75).

Passed May 14, 1895.

A RESOLUTION PROVIDING FOR THE APPOINTMENT OF A COMMITTEE TO CONSIDER THE QUESTION OF ERECTING AN ADDITIONAL ENGINE HOUSE IN SAID CITY.

Resolved by the City Council of the City of Concord as follows:

That the joint standing committee on fire department, with the mayor added, are hereby appointed a special committee to consider and report whether or not it is desirable to erect an additional engine house in said city, in which to house the appliances of the fire department and in which to accommodate one steamer, one hose carriage, one hook-and-ladder truck, and horses for the same, and such other conveniences as in their judgment may be necessary. If in their judgment they think it advisable that some such building should be

erected, they shall procure plans and specifications and make an estimate of the expenses in connection with the erection of said building, and shall also recommend a location for the same and shall submit their report in writing to the city council as soon as practicable.

Passed May 14, 1895.

A RESOLUTION IN REFERENCE TO THE MORE EFFICIENT SWEEPING OF MAIN STREET.

Resolved by the City Council of the City of Concord as follows:

That the joint standing committee of the city council on roads and bridges be requested to investigate the subject of sweeping Main street, and to ascertain whether it can be done at a more suitable time, more efficiently, and with less dust, and whether or not in their judgment the purchase of an improved sweeper for the purpose is advisable.

Passed May 14, 1895.

A RESOLUTION AUTHORIZING AND DIRECTING THE PLACING OF A FIRE-ALARM BOX NEAR THE NEW HAMPSHIRE STATE PRISON.

Resolved by the City Council of the City of Concord as follows:

That a fire-alarm box be placed at such a point near the New Hampshire state prison as may be agreed upon by the warden of that institution and the chief engineer of the fire department, half the expense of the purchase of the same to be borne by the state and half by the city, to be charged to the incidental account of the fire department, and that three push buttons may be located within the prison wall for ringing in an alarm, subject to approval of chief engineer. Passed May 14, 1895.

A RESOLUTION AUTHORIZING THE COMMITTEE ON POLICE AND LICENSES TO PURCHASE BADGES FOR THE REGULAR POLICE OFFICERS.

Resolved by the City Council of the City of Concord as follows:

That the standing committee of the board of mayor and aldermen on police and licenses be authorized to purchase suitable new badges for the regular police officers of the city, at an expense not exceeding forty dollars (\$40), to be paid for out of the fines and costs returned from the police court of said city.

Passed May 14, 1895.

A RESOLUTION PROVIDING FOR THE PURCHASE OF A STEAM ROAD ROLLER.

Resolved by the City Council of the City of Concord as follows:

That the commissioner of highways and joint standing committee on roads and bridges are hereby appointed a special committee for the purpose of purchasing a steam road roller for said city. Said special committee shall advertise for and receive sealed bids from parties desiring to furnish said roller. All said bids shall be opened by said committee at the same time. Said committee shall state in their advertisement for bids that they reserve the right to reject any and all said bids, if in their judgment they deem it advisable, and shall also have the right to select such one of said rollers as they deem advisable.

And such sum as may be necessary to pay for said roller, not exceeding the sum of thirty-five hundred dollars (\$3,500), is hereby ordered to be taken from the regular highway appropriation.

Passed May 14, 1895.

A RESOLUTION PROVIDING FOR A COMMITTEE TO INVESTIGATE THE SUBJECT OF BRUSH AND FOREST FIRES.

Resolved by the City Council of the City of Concord as follows:

That a committee of seven persons be appointed by the city council to investigate, without expense, the subject of the recent brush and forest fires in this community, and to report as to their origin, making such recommendation for legislation pertaining to their prevention and management, as may in the opinion of said committee be necessary; said committee to be composed of the mayor, two members of each branch of the city council, and of the Hon. Joseph B. Walker, and of the secretary of the State Foresty Commission, Hon. George H. Moses.

Passed June 11, 1895.

A RESOLUTION PROVIDING FOR THE PAINTING OF THE CENTRAL FIRE STATION.

Resolved by the City Council of the City of Concord as follows:

That the committee on lands and buildings be authorized to expend such sum as may be necessary out of the regular fire department appropriation for the purpose of painting the outside wood work at the central fire station, not to exceed one hundred and fifty dollars (\$150).

Passed June 11, 1895.

A RESOLUTION ACCEPTING THE TOWER CLOCK FROM THE FIRST BAPTIST SOCIETY OF PENACOOK.

Resolved by the City Council of the City of Concord as follows:

That the gift of the tower clock to the city by the First Baptist society of Penacook be, and is hereby, accepted. And that Aldermen Dudley and Durgin, of Ward 1, are hereby empowered to contract on the part of the city with some responsible party for the repair of said clock, and for the care of the same for a term of two years at a total expense of not exceeding fifty dollars (\$50).

Passed June 11, 1895.

A RESOLUTION APPOINTING A COMMITTEE TO CONSIDER CERTAIN SUITS AGAINST THE CITY.

Resolved by the City Council of the City of Concord as follows:

That a committee of three, consisting of the mayor, the city solicitor, and the chairman of the committee on accounts and claims, be appointed to consider whether a settlement of the suits of Albin & Martin and the Tahanto Real Estate Association against Concord is, in their judgment, desirable, and with full power to take such action in relation thereto as they may deem advisable.

Passed August 13, 1895.

A RESOLUTION PROVIDING FOR THE REPAIR OF THE STEAMER AT PENACOOK.

Resolved by the City Council of the City of Concord as follows:

That the sum of four hundred dollars (\$400) be, and is hereby, appropriated for the repair of the steamer at Penacook, the same to be done under the supervision of the committee on fire department, the same to be charged to the incidental account of the fire department.

Passed August 13, 1895.

A RESOLUTION TO DISCONTINUE A TRIANGULAR PIECE OF WASH-INGTON STREET AT THE INTERSECTION OF SCHOOL AND HOLT STREETS.

Resolved by the City Council of the City of Concord as follows:

That that portion of Washington street described as follows be, and the same is hereby, discontinued as a highway: A triangular piece, the same being a part of West Washington street, commonly so called, lying westerly of lands owned and occupied by C. E. Otis and C. H. Swain, and easterly of Holt street, bounded as follows: Beginning at a stone bound on the south line of School street, about thirty-eight and one-half feet easterly from the intersection of School and Holt streets; thence southwesterly in a straight line, sixty-eight feet, to a granite stone in the ground at the southwest corner of said Otis land; thence in same straight line, about fifteen feet, to a point in the east line of said Holt street; thence northerly on said line of Holt street, about seventy feet, to said intersection of Holt and School streets; thence easterly by said south line of School street to the place of beginning. The condition of granting this discontinuance is that said Otis shall build a concrete sidewalk and edgestone around said triangle at his own expense.

Passed August 13, 1895.

### A RESOLUTION PROVIDING FOR THE SHINGLING OF THE CITY SHEDS.

Resolved by the City Council of the City of Concord as follows:

The committee on lands and buildings are hereby authorized and instructed to shingle the city sheds, so called, and put the roof of the same in proper shape as soon as possible. A sum of money sufficient to defray the expenses thereof shall be appropriated out of the regular highway appropriation, not exceeding the sum of one hundred and twenty-five dollars (\$125).

Passed August 13, 1895.

A RESOLUTION TO DISCONTINUE A PART OF THE KIT FACTORY ROAD.

Resolved by the City Council of the City of Concord as follows:

That the city discontinue a certain portion of the Kit factory road in West Concord, adjoining the premises of Ellen M. Giles, beginning at a small willow tree located ten feet east of the southeast corner of the ell of said Giles house, and running southerly to a small maple tree (fifty feet) located on the westerly side of the traveled part of said road, and about sixteen feet east of the southeast corner of said main house, and being that part of said street as described between said bounds and not now in use by said city.

Passed August 13, 1895.

A RESOLUTION PROVIDING A HORSE, HARNESS, AND WAGON FOR THE POLICE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the city marshal be, and hereby is, authorized to purchase, for the use of the police department, a horse, harness, and a two-seated wagon, at a cost not exceeding four hundred dollars (\$400), said sum to be taken from the receipts of said police department.

Passed August 13, 1895.

A RESOLUTION PROVIDING FOR TEMPORARY LOANS NOT EXCEED-ING IN TOTAL FIFTY THOUSAND DOLLARS TO MEET THE USUAL AND CURRENT EXPENSES AND MATURING OBLIGATIONS OF THE PRESENT FISCAL YEAR AS THEY MAY BECOME DUE.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to procure by temporary loans upon the credit of the city such sums as may be necessary not exceeding in total fifty thousand dollars (\$50,000), at the lowest practical per centum, to be used in meeting the usual and current expenses and the maturing obligations of the city during the present fiscal year as they may become due.

Passed August 20, 1895.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN NOT EXCEEDING THIRTY-FIVE HUNDRED DOLLARS FOR THE USE OF THE CITY PROPER SEWERAGE PRECINCT.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he is hereby, authorized and directed to procure by temporary loan upon the credit of the city such sum as may be necessary, not exceeding thirty-five hundred dollars (\$3,500), for the use and to meet the usual and current expenses of the city proper sewerage precinct.

Passed September 10, 1895.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN NOT EXCEEDING FIFTEEN HUNDRED DOLLARS FOR THE USE OF THE STREET SPRINKLING PRECINCT.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he hereby is, authorized and directed to procure by temporary loan upon the credit of the city, such sum as may be necessary not exceeding fifteen hundred dollars (\$1,500) for the use and to meet the usual and current expenses of the street sprinkling precinct.

Passed September 10, 1895.

A RESOLUTION IN REGARD TO THE COLLECTION OF FEES DUE THE CITY FOR INSPECTION OF ELECTRIC WIRES BY THE CITY INSPECTOR.

Resolved by the City Council of the City of Concord as follows:

That the city solicitor is hereby instructed to take any and all necessary steps to enforce the collection of all fees due the city for the inspection of electric wires, from the proprietors thereof.

Passed September 10, 1895.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN NOT EXCEEDING IN TOTAL SIX THOUSAND DOLLARS, TO MEET THE USUAL AND CURRENT EXPENSES OF THE HIGHWAY DEPARTMENT FOR THE PRESENT FISCAL YEAR.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he is hereby, authorized and directed to procure, by temporary loan upon the credit of the city, such sum as may be necessary, not to exceed in total six thousand dollars (\$6,000) at the lowest practical per centum, to be used in meeting the usual and current expenses of the highway department during the present fiscal year; and such sum is hereby appropriated for the purpose.

Passed October 8, 1895.

Digitized by Google

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN NOT EXCEEDING IN TOTAL FIVE HUNDRED DOLLARS, FOR THE PURPOSE OF DEFRAYING THE ADDITIONAL COST OF ESTABLISHING AND CONSTRUCTING A SEWERAGE SYSTEM IN THE EAST CONCORD SEWERAGE PRECINCT.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he is hereby, authorized and directed to procure, by temporary loan upon the credit of the city such sum as may be necessary, not exceeding in total five hundred dollars (\$500) at the lowest practical per centum, to be used for the purpose of defraying the additional cost of establishing and constructing a sewerage system in the East Concord sewerage precinct, and such sum is hereby appropriated for the purpose.

Passed October 8, 1895.

A RESOLUTION APPROPRIATING CERTAIN SUMS OF MONEY TO SETTLE THE SUITS OF ALBIN & MARTIN AND THE TAHANTO REAL ESTATE ASSOCIATION AGAINST THE CITY OF CONCORD.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer is hereby authorized and instructed to pay to Albin & Martin, of Concord, New Hampshire, the sum of seven hundred dollars (\$700) and to the Tahanto Real Estate Association, a corporation doing business at Concord, New Hampshire, the sum of four hundred fifty dollars (\$450) in full settlement, payment, and discharge of all claims for damages to real estate owned by them which said parties have or can claim against said city on account of a change in grade in Rumford street, in said city, and in full discharge and payment of the suits (and costs therein) brought by said parties against said city of Concord now pending in the supreme court for Merrimack county. Said sums thus expended shall be charged against the appropriation for incidentals and land damages. Passed October 8, 1895.

A RESOLUTION EXEMPTING FROM TAXATION CERTAIN PROPERTY OF EDWARD R. TAYLOR, OF CLEVELAND, OHIO.

WHEREAS, It is the policy of the city of Concord to encourage the introduction of new manufactories by exemption from taxation of capital invested therein for the term of ten years; and

WHEREAS, Edward R. Taylor, of Cleveland, Ohio, and his associates are about to erect a certain manufactory and appurtenant buildings at Sewall's Falls, in said city of Concord, to be occupied by him or them for manufacturing purposes, and are about to make other improvements upon real estate at said Sewall's Falls; now, therefore, be it

Resolved by the city council of the city of Concord, that all additional property invested by said Edward R. Taylor and his associates in manufacturing and appurtenant thereto, for the purpose and used in their business at said Sewall's Falls, and which has not been taxed heretofore, be, and the same is hereby, exempted from taxation for the term of ten years from and after the passage of this resolution, or for such other term, not exceeding ten years, as the said Edward R. Taylor, his associates, or their heirs and assigns, shall continue to use said property for manufacturing purposes aforesaid; provided that the entire property hereby exempted from taxation shall not exceed thirty thousand dollars (\$30,000); provided, also, that this resolution shall not be construed to exempt any property owned or acquired by said Edward R. Taylor, or his associates in said business, which has heretofore been taxed; and provided that this resolution shall not include dwelling or tenement houses; and provided further that the original cost of said manufactory shall not be less than ten thousand dollars (\$10,000), inclusive of machinery.

Passed November 12, 1895.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF FIVE THOUSAND DOLLARS, IN PAYMENT OF THE CITY PRECINCT BONDS (STATE HOUSE LOAN), BECOMING DUE DECEMBER 1, 1895.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he hereby is, authorized to procure by temporary loan upon the credit of the city the sum of five thousand dollars (\$5,000) at the lowest practical per centum, to be used in paying the city precinct bonds (state house loan) for that amount, becoming due December 1, 1895; and the said sum of five thousand dollars (\$5,000) is hereby appropriated for that purpose.

Passed November 12, 1895.

A RESOLUTION LOANING THE PORTRAIT OF Ex-Mayor Lowe.

Resolved by the City Council of the City of Concord as follows:

That the officers of the Veteran Firemen's Association of this city, or a committee of said organization authorized for the purpose, be permitted, under the direction of the city clerk, to take temporarily from the city council rooms the portrait of ex-Mayor Lowe, for the purpose of having made a copy of the same.

Passed November 12, 1895.

A RESOLUTION AUTHORIZING EARNINGS OF TEAMS OF FIRE DEPARTMENT TO BE USED BY SAID DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the amount earned by letting teams of the fire department to the street department shall be credited to the fire department, and shall be added to its appropriation, and be subject to draft for fire department purposes.

Passed November 12, 1895.

A RESOLUTION AUTHORIZING A REDUCTION OF TWENTY-FIVE DOLLARS IN THE ANNUAL RENT FOR THE CURRENT YEAR OF EACH OF THREE GRANITE QUARRIES OWNED BY THE CITY, IN ACCORDANCE WITH THE RECOMMENDATION OF THE COMMITTEE ON LANDS AND BUILDINGS.

Resolved by the City Council of the City of Concord as follows:

That the lessees of the three several granite quarries owned by the city and leased respectively to (1) Crowley & Quinn, (2) L. O. & H. B. Peabody, (3) C. A. Giles, have in each case remitted to them twenty-five dollars (\$25) upon payment of the annual rent for the current year; in accordance with the recommendation of the committee on lands and buildings; said three reductions of twenty-five dollars (\$25) each not to continue beyond the present year without special authorization, and not to be construed as a waiver of the provisions of the leases and contracts whereby said lessees or any of them occupy and use said quarries.

Passed November 12, 1895.

A RESOLUTION PROVIDING FOR THE DISPOSITION OF THE HEARSE HOUSE AND HEARSE AT HORSE HILL CEMETERY.

Resolved by the City Council of the City of Concord as follows:

That the committee on cemeteries be, and are hereby, empowered to sell and dispose of the hearse house and hearse therein at Horse Hill Cemetery, and that the money received therefor be appropriated to the repair of said cemetery to be used as needed.

Passed November 12, 1895.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN, NOT EXCEEDING IN TOTAL TWO THOUSAND DOLLARS, TO MEET THE USUAL AND CURRENT EXPENSES OF THE FIRE DEPARTMENT FOR THE PRESENT FISCAL YEAR.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he is hereby, authorized and directed to procure, by temporary loan upon the credit of the city, such sum as may be necessary, not to exceed in total, two thousand dollars (\$2,000), at the lowest practical per centum, to be used in meeting the usual and current expenses of the fire department, during the present fiscal year; and such sum is hereby appropriated for the purpose.

Passed December 10, 1895.

A RESOLUTION PROVIDING A SLEIGH FOR POLICE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the city marshal be, and is hereby, authorized to purchase, for the use of the police department, a sleigh, at a cost not exceeding forty dollars (\$40), said sum to be taken from the receipts of said police department.

Passed December 10, 1895.

A RESOLUTION RELATING TO THE ENLARGEMENT OF AUTHORITY OF THE COMMITTEE ON CEMETERIES FOR WARD TWO.

Resolved by the City Council of the City of Concord as follows:

That the cemetery committee for Ward 2 be, and are hereby, empowered to take charge of "Old Fort" cemetery, in said ward, and do what is necessary as provided in the rules and ordinances pertaining to the duties of said cemetery committee.

Passed December 10, 1895.

A RESOLUTION APPROPRIATING ONE HUNDRED DOLLARS TO DEFRAY THE EXPENSE OF CLEARING THE ICE ON THE POND IN WHITE PARK.

Resolved by the City Council of the City of Concord as follows:

That the sum of one hundred dollars (\$100), be, and the same is hereby, appropriated to defray the expense of keeping the ice on the pond in White Park cleared of snow for skating purposes, the same to be paid from the amount appropriated for incidental expenses. The same to be expended under the direction of the park commissioners.

Passed December 10, 1895.

A RESOLUTION PROVIDING FOR THE EMPLOYMENT OF AN EXPERT ACCOUNTANT TO AUDIT THE ACCOUNTS OF THE CITY OFFICERS.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the committee on finance be, and are hereby, empowered to employ an expert accountant to audit the accounts for the year 1895 of the several officers of the city, who handled money belonging to the city.

SECT. 2. Such accountant shall be under the direction of said committee and shall report to the city council in such manner as they shall direct.

SECT. 3. Said accountant shall receive such compensation as may be agreed upon by said committee, but in no case shall they incur an expense exceeding the sum of two hundred dollars.

SECT. 4. The city treasurer is hereby authorized to borrow, on the credit of the city, a sum not exceeding two hundred dollars, for the payment of said accountant.

Passed December 10, 1895.

A RESOLUTION PROVIDING FOR THE PAYMENT OF THE SUPER-VISORS WHO SERVED AT THE BIENNIAL ELECTION OF 1894.

Resolved by the City Council of the City of Concord as follows:

That the several supervisors who served at the biennial election in 1894, be paid the following sums as set against their respective wards:

Each supervisor in Ward 1, ten dollars.

44	66	" 2, seven "	
"	"	" 3, " "	
"	"	" 4, twelve "	
"	"	" 5, ten "	
44	"	"6,""	
66	66	" 7, " "	
"	"	" 8, seven "	
"	66	" 0 " "	

And that the same be paid out of the money appropriated for salaries.

Passed December 10, 1895.

A RESOLUTION IN AMENDMENT OF A RESOLUTION PASSED MAY 14, 1895, EXEMPTING WILKINS, FOSTER & CLOUGH FROM TAXATION FOR A PERIOD OF YEARS.

WHEREAS, The corporation of Wilkins, Foster & Clough is desirous of changing its name to that of the New Hampshire Fruit Company, be it

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the resolution passed May 14, 1895, exempting Wilkins, Foster & Clough from taxation for a period of years, be amended by striking out the name "Wilkins, Foster & Clough" wherever it occurs, and inserting in place thereof the name, "New Hampshire Fruit Co."

- SECT. 2. This resolution shall take effect on said corporation changing its name to "New Hampshire Fruit Co."
- SECT. 3. The exemption granted shall not extend beyond the period of ten years from the passage of the original resolution.

Passed December 10, 1895.

A RESOLUTION FOR THE PAYING OF INSPECTORS OF ELECTIONS FOR THE YEAR 1894.

Resolved by the City Council of the City of Concord as follows:

That the inspectors of elections be paid for their services rendered during the election in November, 1894, as follows: Inspectors on duty in Wards 2, 3, 8, and 9 be paid the sum of five dollars (\$5) each, and the inspectors on duty at Wards 1, 4, 5, 6, and 7 be paid the sum of seven dollars (\$7) each. This money to be paid out of the money appropriated for salaries.

Passed December 28, 1895.

A RESOLUTION AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO PROVIDE EIGHT OUTSIDE STORM WINDOWS IN THE POLICE COURT ROOM IN THE CITY BUILDING ON WARREN STREET.

Resolved by the City Council of the City of Concord as follows:

That the committee on lands and buildings be authorized to expend such sum as may be necessary, out of the regular police department appropriation, for the purpose of providing eight outside storm windows in the police court room in the city building on Warren street.

Passed December 28, 1895.

A RESOLUTION PROVIDING FOR THE DISPOSITION OF THE HEARSE HOUSE AND HEARSE AT MILLVILLE CEMETERY.

Resolved by the City Council of the City of Concord as follows:

That the committee on cemeteries for Ward 7 be, and are hereby, empowered to sell and dispose of the hearse house and hearse therein at Millville cemetery, and that the money received therefor be appropriated to the repair of said cemetery, to be used as needed.

Passed December 28, 1895.

A RESOLUTION PROVIDING FOR TEMPORARY LOANS, NOT EXCEEDING IN TOTAL FIFTY THOUSAND DOLLARS (\$50,000), TO MEET THE USUAL AND CURRENT EXPENSES OF THE PRESENT FISCAL YEAR AS THEY MAY BECOME DUE.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, is hereby authorized to procure by temporary loans upon the credit of the city such sum or sums as may be necessary, not exceeding in total fifty thousand dollars (\$50,000), at the lowest practical per centum, to be used exclusively in meeting the usual and current expenses of the city during the present fiscal year as they become due.

Passed January 14, 1896.

#### A RESOLUTION AUTHORIZING THE REPAYMENT OF CERTAIN TAXES.

Resolved by the City Council of the City of Concord as follows:

That the sum of fifteen dollars and sixty-eight cents (\$15.68) be repaid to the within named parties as follows:

To J. P. W. Roach, of Ward 4	\$5.51
To David E. Everett, of Ward 4	7.32
To W. J. Lavery, of Ward 4	2.85
	<b>\$15.68</b>

The same being taxes paid by them which were unassessable. Passed January 14, 1896.

A RESOLUTION AUTHORIZING THE REPAYMENT OF TWO HUNDRED AND FORTY-SIX DOLLARS AND FIFTY-TWO CENTS (\$246.52) TO ROSELLE M. SANBORN, EXECUTRIX OF THE WILL OF THE LATE JOSIAH B. SANBORN, FOR TAXES NOT ASSESSABLE AGAINST SAID SANBORN OF HIS ESTATE.

Resolved by the City Council of the City of Concord as follows:

That the sum of two hundred and forty-six dollars and fifty-two cents (\$246.52), being the amount paid by Josiah B. Sanborn in 1894, and his estate in 1895, as taxes on the Peter Sanborn homestead, which was not of right taxed to him or his estate in said years, be repaid to Roselle M. Sanborn, executrix of the will of said Josiah B. Sanborn.

Passed January 14, 1896.

A RESOLUTION APPROPRIATING A CERTAIN SUM OF MONEY TO SETTLE THE CLAIM FOR DAMAGES AND EXPENSE OF MOSES W. RUSSELL AGAINST THE CITY OF CONCORD.

Resolved by the City Council of the City of Concord as follows:

That Moses W. Russell. of Concord, New Hampshire, be paid the sum of two hundred and twelve dollars and fifty cents (\$212.50), in full payment, settlement, and discharge of any and all claims for damages and expenses now pending against said city by reason of a defect, so called, in the floor of the lower bridge. Said sum thus expended shall be charged against the appropriation for incidentals and land damages.

Passed January 14, 1896.

A RESOLUTION EXEMPTING FROM TAXATION FOR THE TERM OF TEN YEARS PROPERTY OF THE PRESCOTT PIANO COMPANY.

Resolved by the City Council of the City of Concord as follows:

. That the Prescott Piano Company be exempt from taxation for the term of ten years from the date hereof, on any buildings which may be erected or purchased, and the land appurtenant thereto, by said company for the purposes of their manufactory; also the capital which may be used by said Prescott Piano Company in such manufacturing, whether the same be used in and about the buildings proposed to be erected or purchased or in buildings leased for that purpose.

Passed February 11, 1896.

A RESOLUTION PROVIDING FOR A TEMPORARY LOAN OF TWENTY-FIVE THOUSAND DOLLARS (\$25,000) IN PAYMENT OF THE NOTE FOR THAT AMOUNT BECOMING DUE FEBRUARY 13, 1896, THE SAME HAVING BEEN GIVEN FOR A TEMPORARY LOAN.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer, under the advice and direction of the committee on finance, be, and he hereby is, authorized to procure, by temporary loan upon the credit of the city, the sum of twenty-five thousand dollars (\$25,000), at the lowest practical per centum, to be used in payment of the note given by the city for a temporary loan for that amount, which said note is dated September 19, 1895, and becomes due February 13, 1896; and the said sum of twenty-five thousand dollars (\$25,000) is hereby appropriated for that purpose.

Passed February 11, 1896.

A RESOLUTION PROVIDING FOR THE BUILDING OF NEW SHEDS ON THE CITY LOT NEAR WHITE PARK.

Resolved by the City Council of the City of Concord as follows:

That the joint committee on lands and buildings of the city council be, and the same are hereby, authorized and instructed to build new sheds in place of the old open sheds on the east side of the city lot near White Park, the new structure to be similar to the line of red-painted closed sheds already erected there, and in continuation of the same, for a distance of about one hundred (100) feet; said

committee to procure proposals for the work and to contract for the same with responsible bidders, at a total expense not to exceed four hundred dollars (\$400), the same to be charged to the regular appropriation for the highway department.

Passed February 11, 1896.

A RESOLUTION APPOINTING A COMMITTEE TO CONSIDER A PROPOSITION FOR SETTLEMENT OF THE SUIT OF KEMP V. CONCORD.

Resolved by the City Council of the City of Concord as follows:

That a committee consisting of his honor the mayor, the members of the committee on accounts and claims, and the city solicitor are hereby appointed to consider a proposition for settlement of the suit of Henry M. Kemp v. city of Concord, with full power to make adjustment of the same in case they deem it advisable.

Passed February 11, 1896.

A RESOLUTION GRANTING THE CITY HISTORY COMMISSION ACCESS TO BOOKS, RECORDS, DOCUMENTS, PAPERS, AND DATA AND DELEGATING TO THEM ANY RIGHTS THAT THE CITY MAY HAVE IN THE OLD HISTORY.

Resolved by the City Council of the City of Concord as follows:

That the members of the city history commission have access to all books, records, documents, papers, and data whatsoever, owned by or in the custody of the city, for the purposes of the preparation of the proposed new history of Concord, such books, records, documents, papers, and data not to be removed from the places of their deposit or keeping without proper authorization and permission, and the same to be open alike to the perusal and scrutiny of agents employed by the commission and authorized in writing, in the preparation and publication of said new history. That all rights held by the city in Bouton's history, or its publication, including its text, language, illustrations, statement of facts, maps, charts, and everything contained therein, be transferred and delegated to the city history commission for the purposes of the preparation and publication of the proposed new history. That a copy of the published town records of Concord be given to each of the members of said commission, for the purposes of the work they have in hand.

Passed February 24, 1896.

A RESOLUTION PROVIDING FIFTEEN CURTAINS FOR THE WARD HOUSE IN WARD THREE, AT A TOTAL EXPENSE NOT TO EXCEED FIFTEEN DOLLARS (\$15).

Resolved by the City Council of the City of Concord as follows:

That the joint committee of the city council on lands and buildings is hereby authorized and directed to provide fifteen (15) curtains, at a total expense not to exceed fifteen dollars (\$15), for the ward house in Ward 3 (West Concord), as follows: Ten (10) in the ward room and three (3) in the ante-room on the second floor, and two (2) in the hall on the first floor; the expense to be charged to the regular appropriation for incidentals or against any money in the treasury not otherwise appropriated.

Passed February 24, 1896.

A RESOLUTION IN AMENDMENT OF SECTIONS 3 AND 4 OF JOINT RESOLUTION PASSED DECEMBER 10, 1895, ENTITLED "A JOINT RESOLUTION PROVIDING FOR THE EMPLOYMENT OF AN EXPERT ACCOUNTANT TO AUDIT THE ACCOUNTS OF THE CITY OFFICERS."

Resolved by the City Council of the City of Concord as follows:

That Sections 3 and 4 of joint resolution passed December 10, 1895, entitled "a joint resolution providing for the employment of an expert accountant to audit the accounts of the city officers," be amended by striking out in each of said two sections the word "two," wherever it occurs, and inserting in place thereof the word "four" so that said sections, as amended, shall read as follows:

"SECT. 3. Said accountant shall receive such compensation as may be agreed upon by said committee but in no case shall they incur an expense exceeding the sum of four hundred dollars (\$400).

"SECT. 4. The city treasurer is hereby authorized to borrow on the credit of the city, a sum not exceeding four hundred dollars (\$400) for the payment of said accountant."

Passed March 10, 1896.

A RESOLUTION AUTHORIZING THE MAYOR AND COMMITTEE ON LIGHTING STREETS TO MAKE A CONTRACT WITH THE CONCORD LIGHT AND POWER COMPANY FOR CONCORD GAS LIGHT COMPANY, FOR GAS LIGHTS.

Resolved by the City Council of the City of Concord as follows:

That the committee on lighting streets, with the mayor added, be, and hereby are, authorized to sign a contract on behalf of said city, with the Concord Light and Power Company, for the Concord Gas

Light Company, to furnish gas lighting, and extinguishing one hundred and fourteen (114) street lamps (more or less), burning five (5) cubic feet of gas per hour, one thousand four hundred and sixty three (1.463) hours each per year, sunset to midnight, twenty (20) nights each month, sixteen dollars and fifty cents (\$16.50) per lamp, per annum, extra nights pro rata; for eleven (11) police lamps, (more or less) burning five (5) cubic feet of gas per hour, four thousand (4,000) hours each per year, all night and every night, same to be lighted by gas company and extinguished by police, twenty-eight dollars (\$28) per lamp per annum. For gas consumed in all city buildings or offices, one dollar and eighty cents (\$1.80) per one thousand (1,000) cubic feet. Said contract to be for one year from March 1, 1896.

Passed March 24, 1896.

A RESOLUTION APPROPRIATING TWO HUNDRED DOLLARS TO SETTLE THE SUIT OF HARRY M. KEMP AGAINST THE CITY OF CONCORD.

Resolved by the City Council of the City of Concord as follows:

That Bingham & Mitchell, as attorneys for the plaintiff in the suit of Harry M. Kemp against the city of Concord, be paid, in behalf of the plaintiff, the sum of two hundred dollars (\$200), in full payment, settlement, and discharge of the same and of all dainages, costs, or other expenses growing out of or arising from the said claim and suit thereon against the city; said sum thus expended shall be charged against the appropriation for incidentals and land damages.

Passed March 24, 1896.

A RESOLUTION PROVIDING FOR THE COMPENSATION OF THE COLLECTOR OF UNCOLLECTED TAXES FOR THE YEARS 1891, 1892, 1893, 1894, and 1895.

Resolved by the City Council of the City of Concord as follows:

That George A. Foster who has this day been appointed to collect the balance of taxes uncollected on the lists which were committed to Albert I. Foster for collection for the years 1891, 1892, 1893, 1894, and 1895, shall receive in full for his services a commission of five per cent. upon the amount collected by him under said appointments. Passed April 14, 1896. A RESOLUTION PROVIDING FOR THE FILLING AND GRADING OF THE DUMPING-GROUND IN THE REAR OF WARD THREE ENGINE HOUSE.

Resolved by the City Council of the City of Concord as follows:

That fifty dollars (\$50) be, and the same is hereby, appropriated out of money in the treasury not otherwise appropriated for the expense of filling and grading the dumping-ground in the rear of the engine house in West Concord.

Passed May 12, 1896.

A RESOLUTION PROVIDING FOR FURNITURE, BOOKS, ETC., FOR THE USE OF THE CITY AUDITOR.

Resolved by the City Council of the City of Concord as follows:

That the committee on finance be, and the same is hereby, authorized and instructed to provide the city auditor with such books of record and account, such furniture and reasonable facilities as may pertain to the proper discharge of the duties of his position, the expenditure hereby incurred to be charged against the incidental account.

Passed May 12, 1896.

A RESOLUTION RELATING TO PROCEEDING AGAINST THE BONDS-MEN OF COLLECTOR ALBERT I. FOSTER.

Resolved by the City Council of the City of Concord as follows:

That the committee on finance are hereby instructed, in conjunction with the city solicitor, to cause the necessary steps to be taken to charge the bondsmen of Collector Albert I. Foster with the defalcations of that officer.

Passed May 12, 1896.

A RESOLUTION IN AMENDMENT TO THE JOINT RESOLUTION PRO-VIDING FOR THE EMPLOYMENT OF AN EXPERT ACCOUNTANT TO AUDIT THE ACCOUNTS OF THE CITY OFFICERS.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the sum of four hundred dollars (\$400) mentioned in said joint resolution be increased to five hundred dollars (\$500) to meet the expense of said auditing.

Passed June 9, 1896.

A RESOLUTION IN AMENDMENT OF A JOINT RESOLUTION PASSED JANUARY 22, 1895, AND ENTITLED "A JOINT RESOLUTION IN RELATION TO PAYING SALARIES AND RENTS."

Resolved by the City Council of the City of Concord as follows:

That the mayor be, and hereby is, authorized to draw his warrant on the city treasurer for the payment of all salaries, pay rolls, and rents, as the same shall become due and be approved by the city auditor during the remainder of the present municipal term, and all bills so paid shall be laid before the committee on accounts and claims at their next meeting.

Passed June 9, 1896.

A RESOLUTION PROVIDING FOR THE REFUNDING TO CHARLES G. BLANCHARD FOR OVER-CHARGE OF TAXES FOR THE YEAR 1895 THE SUM OF SEVENTY-SIX DOLLARS (\$76).

Resolved by the City Council of the City of Concord as follows:

That the sum of seventy-six dollars (\$76) be refunded to Charles G. Blanchard of said city, that amount being the over-charge of taxes against him for the year 1895, and collected on account of same; said sum to be charged against any money in the treasury not otherwise appropriated.

Passed June 9, 1896.

A RESOLUTION PROVIDING FOR THE PROSECUTION OF THE SUITS AGAINST THE BONDSMEN OF ALBERT I. FOSTER.

Resolved by the City Council of the City of Concord as follows:

That the finance committee in conjunction with the city solicitor be, and hereby is, authorized and directed to prosecute to final settlement the suits now pending against the several bondsmen of Albert I. Foster as tax collector for the years 1893, 1894, and 1895; that said committee report from time to time such progress as may be made, the report to be to the city council in open session in the usual and regular course of business.

Passed July 14, 1896.

A RESOLUTION TO REFUND EIGHTY-TWO DOLLARS AND NINETY-NINE CENTS TO MARTIN, CHASE & CO. BECAUSE OF OVER-VALU-ATION FOR TAXATION IN 1895 OF PROPERTY OWNED BY THEM.

Resolved by the City Council of the City of Concord as follows:

That the sum of eighty-two dollars and ninety-nine cents (\$82.99) be refunded to Martin, Chase & Co., to be charged against any money in the treasury not otherwise appropriated, because of overvaluation for taxation in 1895 of property owned by them.

Passed July 14, 1896.

A RESOLUTION PROVIDING FOR A VOTING PLACE FOR THE INHAB-ITANTS OF WARD EIGHT.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the committee on lands and buildings be, and are hereby, authorized to provide a suitable voting place for the inhabitants of Ward 8 in said city.

SECT. 2. Resolved, That the alderman and councilman from said ward be associated with the committee on lands and buildings with reference to the matter.

Sect. 3. Resolved, That this resolution take effect on its passage. Passed September 8, 1896.

A RESOLUTION AUTHORIZING THE PARK COMMISSIONERS TO ASCERTAIN UPON WHAT TERMS THE TRACT OF LAND IN EAST CONCORD OWNED BY FRANK G. BATCHELDER CAN BE OBTAINED FOR THE PURPOSE OF A PARK.

Resolved by the City Council of the City of Concord as follows:

That the park commissioners be, and are hereby, authorized to ascertain upon what terms the tract of land situated at the junction of Penacook and Portsmouth streets in East Concord, now owned by Frank G. Batchelder, can be purchased for the purpose of a public park; and that the said park commissioners be requested to report to the council at such time as they may deem expedient, in reference to the subject.

Passed September 8, 1896.

A RESOLUTION APPROPRIATING EIGHT HUNDRED DOLLARS FOR SIDEWALKS AND CROSSINGS.

Resolved by the City Council of the City of Concord as follows:

That the sum of eight hundred dollars (\$800) be, and the same is hereby, appropriated for construction of sidewalks and crossings out of any money in the treasury not otherwise appropriated.

Passed September 8, 1896.

A Resolution appropriating Forty-eight Dollars and Fiftythree Cents (\$48.53) for re-imbursing certain persons for Over-paid Taxes.

Resolved by the City Council of the City of Concord as follows:

That the sum of forty-eight dollars and fifty-three cents (\$48.53) be, and the same is hereby, appropriated to be paid as follows: To Milton French, for over-paid taxes in 1894 and 1895, seventeen dollars and forty-five cents; to Michael Whalen, over seventy years of age, the sum of two dollars and forty cents; to B. E. Badger, error in tax, the sum of sixty cents; to New Hampshire Provision Company, over-valuation, the sum of twenty-four dollars; to C. M. & A. W. Rolfe, over-tax in 1895, the sum of four dollars and eight cents, and that the same be charged to the appropriation for incidentals. Passed October 13, 1896.

A Resolution appropriating Five Hundred Dollars (\$500) for Printing and Stationery.

Resolved by the City Council of the City of Concord as follows:

That the sum of five hundred dollars (\$500) be, and the same is hereby, appropriated, out of any money in the treasury, not otherwise appropriated, for printing and stationery.

Passed October 13, 1896.

A RESOLUTION PROVIDING FOR THE PAYMENT OF CLAIM OF JEFFERSON E. ROGERS.

Resolved by the City Council of the City of Concord as follows:

That the sum of fifty dollars (\$50) be paid Jefferson E. Rogers, in full for all claims and costs on account of the fatal injuries received by his horse while passing over Pembroke bridge, and said amount to be charged to incidental account.

Passed November 10, 1896.

								\$1,530.00	
	Net liabilit	y of	school	districts				<b>\$</b> 93,330.00	

These bonds are issued under ordinances of the city council, as authorized by the act of the legislature of New Hampshire, approved August 14, 1889, entitled "An act authorizing the city of Concord to borrow money in aid of its school districts." These school districts have, by their votes and by their agents duly authorized, bound themselves to the city to seasonably pay to the city sufficient sums of money to enable it to meet the payments of interest and principal upon their indebtedness, and all incidental expenses, as the same shall become due.

precinct, January 1,	1897				٠.	\$19,924.17			
Net indebtedness on account of Penacook sewer,									
January 1, 1896	•					\$20,446.83			
Decrease for the year		•	•	•	•	<b>\$</b> 522.66			

The above bonds were issued under ordinances passed by the city council, establishing a sewer precinct in Penacook, and authorizing loans on the credit of the city for the establishing of said system. The ordinances also provide that the yearly interest and a portion of the principal shall be raised each year, for the purpose of creating a sinking fund to pay said bonds as they mature, as follows:

\$500 annually for ten years from August 1, 1888, \$1,000 annually for five years from August 1, 1898, \$1,200 annually for five years from August 1, 1903, \$1,000 annually for five years from May 1, 1908, \$500 annually for six years from July 1, 1914,

by taxation upon the taxable property in Penacook sewer precinct, said sums, as soon as received, to be placed at interest by the finance committee.

# CITY EXPENSES.

#### FROM JANUARY 1 TO DECEMBER 31, 1896.

Being an itemized account made up from the books of the City

Auditor, of the payments made by the City Treasurer

on account of

#### RUNNING EXPENSES.

The arrangement of the details of expenditure which follows is intended to furnish such information as is desired by the public, and is in accordance with suggestions received from various sources. Items of payment to the same individual at sundry times are included in the aggregate amount given, if paid for the same objects. Every effort has been made to ascertain and pay all the bills for the current year; and in all cases, so far as known, payments of rent, etc., have been made to December 31, 1896, and salaries and committee service have been paid for the full municipal year. The expenses of the year, which are included in the general running expense, may be seen in the aggregate at the end of the detailed account here given. This is intended to include interest, but not the payment of maturing bonds.

# REPORT OF WATER COMMISSIONERS.

### To the City Council:

The board of water commissioners submit herewith their report for the year ending December 31, 1896, together with the report of the superintendent, giving details of the working of the system during the year, all of which is respectfully submitted for your careful consideration.

The plant, as in former years, has shown a continual improvement along all lines. Nothing in the way of extended work or outlay has been attempted during the year. Owing to the change of grade in some of the thoroughfares, some pipe has had to be relaid but no great extensions have been made.

The income shows a very gratifying gain, and the continued use of meters has demonstrated their practicability and more will be added each year. The plan, as stated in former reports, will be adhered to.

The pumping plant has been maintained at practically the same expense as the previous year, and continues to do good work.

The capacity of the high pressure system for fire protection was finely shown in October by an exhibition of the pressure on Main street. The large six-way hydrants at the corners of Capitol, Park, and Centre streets were turned on, and at one time eighteen solid streams were pouring a volume of water, before which the severest fire would give way. The works have never before been given such a test and the results were most gratifying, and should prove valuable to our citizens in securing reasonable rates of insurance on their property.

Extension of the high pressure system to the new railroad shops has been asked for and the commissioners have granted the same, and the extension will be made in the spring. For this purpose we have had to buy some pipe.

The recommendation of the superintendent for the extension of the 20-inch iron pipe from the pumping station north towards the lake is a movement in the right direction, and plans will be made looking towards the consummation of this in the near future. The condition of the pipe lines of the city is a matter of some importance, and has been considered by the commissioners. Much of the cement-lined pipe has been in use twenty-four years, and while good results have been obtained, yet there is an increasing liability of serious leaks and consequent damage. This can be remedied by relaying from year to year the old pipe lines with cast iron, and should be done as fast as the means will allow.

The contract with the Penacook and Boscawen Water Precinct which has been in force one year, terminated December 1, 1896, and the water was shut off. The present condition of the supply in Penacook lake did not warrant the expenditure of a large sum in this direction, hence the action of the board.

November 1, 1896, bonds to the amount of \$10,000, became due and were paid from the income of the works, reducing the indebtedness to \$680,000. Bonds will mature each succeeding year, and it is hoped that without any extraordinary expenditure, these will mostly be redeemed as they become due.

The same careful and efficient management of the work by the superintendent and his assistants has been continued during the year.

Respectfully submitted,

JOHN WHITAKER, E. B. HUTCHINSON, WILLIAM M. MASON, EDSON J. HILL, WILLIAM P. FISKE, WILLIAM E. HOOD, SOLON A. CARTER, FRANK D. ABBOT, HENRY ROBINSON, ex officio,

Water Commissioners.

# REPORT OF THE SUPERINTENDENT.

#### To the Roard of Water Commissioners:

I herewith present to you the twenty-fifth annual report of the operations of this department, showing the receipts, expenditures, and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1896.

#### EXTENSIONS AND IMPROVEMENTS.

Main and distribution pipes have been laid and hydrants set during the year, as follows:

In Rumford street,

north from Wyman street to Highland street, 131 feet 8-inch pipe.

In Ridge road,

north from Centre street, 217 feet 6-inch pipe.

In Morton street,

extended north to West street pipe, 36 feet 6-inch pipe.

In Essex street,

extended south to Centre street pipe, 24 feet 6-inch pipe.

In Hopkinton road,

north from Pleasant street, 475 feet 4-inch pipe.

In Harvard street,

extended south to Noyes street, 415 feet 4-inch pipe.

In Langdon street,

east from Turnpike street, 357 feet 4-inch pipe.

In Turnpike street,

120 feet 6-inch cast-iron pipe, relaid in place of 6-inch cement-lined pipe.

On hydrant branches,

18 feet 6-inch pipe

7 feet 4-inch pipe.

#### SERVICE PIPE.

There have been laid during the year and connected with the main pipes, 61 service pipes, consisting of—

Whole number of service pipes, 3,116; number discontinued, 1; number in use at the present time, 3,115.

Total length of service pipes, 73,156 feet or 13.87 miles.

As you will notice by the record of pipe laid, no important extensions have been made. We have, however, purchased our usual amount of pipe; the price has been lower than ever before, and we have thus provided a considerable stock at low cost for extensions in small sizes of pipe. We have now on hand 1,296 feet of 4-inch, 7,212 feet of 6-inch, 648 feet of 8-inch, and 1,118 feet of 10-inch pipe.

All the water rents for the year have been collected and we have not been compelled to shut off the water in any case to enforce the payment.

We have set 235 meters during the year; 4 have been taken out, making the total number now in use, 502.

We have built 1,287 feet of substantial wire fence on the north and west sides of the Cooledge lot; also 253 feet on the west side of the avenue leading from the Hopkinton road to the cottage at the lake, and 172 feet of picket fence in front of the cottage.

The following table shows the height of water in Penacook lake on the first day of each month:

January		174.35	July .		180.50
February		174.60	August		180.00
March		175.70	September	•	179.60
April		179.90	October		179.50
May :		181.10	November		180.00
June .		181.00	December		180.40

The lowest point reached was January 1, being 174.35; the highest was May 1, 181.10; mean height, 178.96, which was 7.81 feet higher than the mean height for the year 1895.

At its highest record, the water stood 12 feet above the lowest record of 1895, and 7.85 feet above the highest point of that year.

Our immediate locality has been unusually favored by the rainfall of the year; the spring freshet and rains of the summer and fall came with great advantage to the lake, and the continued and steady rise of water makes us confident that there will be no occasion for anxiety in regard to low water for several years. The first record of height of water when the works were completed, was January 1, 1874, 175.90; during that year, the water rose to 182.50, and except for a few months early in 1877, this high level, with the slight variations incident to the change of seasons, was continued until 1880-81. In the latter part of 1880, the water began to fall, and February 10, 1881, the lowest point was reached, 172.

The spring rains, however, soon brought the lake back, and although for several seasons the winter months lowered the record slightly, the average height continued to rise, until on May 29, 1888, the water stood at 185.60, the highest point since the construction of the works, and above high water level. Unusually high water prevailed until 1892, when the general drought throughout New England began to make itself felt in water supplies. The mean height for the past few years has accordingly been low in comparison with former records, but after a careful study of this rise and fall of Penacook lake we feel sure that another period of high water has begun which will continue for a number of years.

The cement-lined pipe in the works has been laid twentyfour years; during the past year we have had a number of serious breaks on some streets, thus increasing the expense of management and repairs; it is probable that this trouble will continue and increase through the coming years; moreover some of these original pipes are hardly large enough to furnish good hydrant service along with the increased consumption which must of necessity come with the growth of twenty-four years. I would therefore recommend that as a beginning of relaying this pipe, 1,700 feet of 20-inch castiron pipe be laid from the pumping station to a little north of the cemetery gate, to take the place of the original 14-inch cement-lined main laid in 1872; a 6 or 8-inch pipe on Rumford street, from Franklin to near Abbott street, a distance of about 1,000 feet; and in Monroe street from South State street to Grove street, 600 feet of 6-inch pipe.

In closing this report I desire to extend to the president and members of the water board, and the employees of the department, my sincere thanks for their uniform courtesy and co-operation in the discharge of the duties of my position.

Respectfully submitted,

V. C. HASTINGS,
Superintendent.

# REPORT OF THE ENGINEER OF THE PUMPING STATION.

#### Pumping Station, Concord Water-Works.

#### V. C. HASTINGS, Superintendent:

SIR, — I would report that the machinery at the pumping station is in a very good working condition.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month.

#### Statement.

108 tons, 51 lbs. Pocahontas coal.

39 cords of wood.

58 gallons of oil.

21 lbs. of waste.

#### ENGINE RECORD.

Date.	Pumping time.  h. m.	Water pumped.	Daily average pumped.	Total coal burned.	Daily average coal burned.	Gallons pumped per pound of coal.
January	112:00	9,904,650	319.504	22,771	735	435

# HIGHWAY DEPARTMENT.

## REPORT OF COMMISSIONER OF HIGHWAYS.

To the City Council:

GENTLEMEN,—In accordance with custom, I hereby submit the annual report of the highway department for the year ending December 31, 1896.

At first, I would call the attention of your honorable body to the appropriations as made for 1896 and the different items of expense to be met from them. The amount appropriated for roads and bridges was \$30,000.00. But very little of this amount is available for any permanent work on highways and bridges as the expense of building and cleaning catch basins, the spring and fall cleaning of streets, the weekly night cleaning in the business section, and the expense of caring for snow must be taken from it. This year the cost of building and caring for catch basins was about \$900.00. The removal of garbage in the spring and fall as required by the ordinance of 1895, brought an additional expense of \$2,000.00. The weekly cleaning and burning of garbage from the alleyways of the business blocks costs nearly \$1,000.00 and without doubt the district must soon be extended as calls are constantly being made for city teams to remove ashes, etc. Besides this, the macadam, concrete, and paving must be kept clean and gutters cleared, which calls for \$1,000.00 more. By far the largest expense is for the care of snow and ice, which, while keeping the roads passable leaves nothing to show for the money expended. last winter was exceptionally favorable for this department and therefore left a portion of the appropriation. All these

items aggregated amount to quite a sum, but still the care of drinking fountains and watering troughs, and supplies for the department must come from this appropriation, and for two years past we have had a heavy expense on account of the spring freshets. Therefore, I would recommend that separate appropriations be made for permanent work, cleaning streets, catch basins, and general maintenance, instead of the one now made for roads and bridges.

The spring freshet did considerable damage on account of the great amount of ice, and the Gully Hill and East Concord roads were impassable for several days, being covered for some distance with solid ice from six to ten feet deep. Water and Hall streets, at the south end of the city, were quite badly washed. The Turnpike bridge, across the Soucook river, in Egypt district, was also carried away. As there is another bridge near by, the matter of discontinuing the road was considered. The town of Pembroke decided to do so, but our city thought it best to rebuild the bridge. Bids were called for, for a bridge similar to the one across the Soucook river at Clough's Mills, so called. Five bids were received and the bid of George G. Jenness being the lowest, was accepted. The total cost of the bridge was \$1,654.78, one half of which was paid by the town of Pembroke. Bids for painting the same were received by this department, and the bid of A. C. Leavitt for \$24.75 was accepted. The bridge was opened for public travel about September first. The lower Soucook bridge was carried off the abutments, but with new plank and timber was replaced at an expense of \$25.92.

Besides these, considerable repairing has been done on the bridges within the city. The iron bridge at Penacook was thought to need new stringers and roadway, but after commencing the repairs it was found that nearly all stringers were in good condition. The roadway and sidewalk were replanked, putting the bridge in good condition at less expense than first expected. A new bridge was built on the Canterbury road, across Hackett's brook, in North Concord

district. Expense \$198.79. The bridge across Turkey river at St. Paul's School was replanked at an expense of \$39.81. The Twin bridge at Penacook is in an extremely bad condition and needs immediate attention. Last year it was strengthened and repaired, but I find it is still settling in the centre.

During the past season, considerable macadamizing has been done. Pleasant street from Main to State, Main street from Pleasant to Concord, Warren street from State to Spring, and prepared for concrete from State to Main, South State street from Thompson to Perley, and Park street from Main Besides, our roller was rented to the city of Franklin for ten days. The macadam of last season has shown that it is a practical road to build, as it has stood the. very severe weather and heavy teaming well. Little repairs have been necessary except in cases of opening the street which is becoming too common a practice. The streets are constantly being dug up to put in gas, sewer, or water pipes. Under the present system the commissioner has no knowledge when or by whom the work is done. As he is responsible for the good condition of the streets, it seems that the granting of permits for opening and obstructing them should belong to this department.

There are a number of streets in our city which are in a very bad condition, for example, the Penacook road from West Concord to Penacook, and Merrimack street from Rolfe street to Penacook street, in Penacook. There has been no permanent work done on these roads for many years, having only been patched and the material on them is now completely worn out. To place them in anything like fair condition it would necessitate considerable expense. If our city had a portable stone crusher which could be moved to these roads and the stone there used, they might be macadamized and placed in an excellent condition at less expense, as the cost of carting stone to and from the crusher would be saved, than to repair them with the means we now have. Main street from Centre to Pitman is in very poor condition. After rains and

in the spring it is very muddy, as it is impossible to drain it west of the Street Railway track. I would recommend that the street be paved and hope the council will take some action on it. Bridge street from Main to the railroad bridge should receive like attention, as traffic on it has increased largely of late.

In July, a petition was presented to this department asking for the concreting of Warren street from State to Main. After a meeting of the board of aldermen to consider the advisability of granting it, it was referred to the commissioner with full power. As the petition was considered a strong one, inasmuch as it was signed by forty-five real estate owners, the work was done. Although there was some opposition to it, since it has been completed the citizens seem satisfied with the work. Another petition has since been received for concreting School street from the Capital Fire Insurance building to State street. This would place the street in good condition and I hope the work will be done next season.

Very little work has been done on new streets. Langdon street, at the new railroad shops, has been filled with grade from Turnpike street, Park ridge and Ridge road have been made passable, but not much work done on them. Engel street, at West Concord, has been laid out and put in good condition. In the past two years, portions of the River road in Penacook, from the Borough to the Horse Hill bridge, which were very sandy, have been hardened and greatly improved. Considerable work has been done on concrete walks the past season. The matter of laying a concrete walk from Waverly street to Blossom Hill Cemetery, which was granted six years ago, is still unsettled. It ought to be laid as there is much travel to the cemetery.

The effects of the maple tree borer of last season were plainly seen in the spring, by the number of trees dead and dying. The shade trees have been quite free of pests the past season, but trees in all parts of the city are dying fast, which in many cases is caused, I think, by defective gas pipes.

The new shed, for storage purposes, which I recommended in my last report, was erected on the city lot early in the spring. Bids were received and the contract awarded to the Hutchinson Building Co., the lowest bidder. The sprinkling the past season has been done quite satisfactorily, and if the precinct is not extended, the present appropriation is sufficient. In April, the state board of agriculture issued a call for a Good Roads Convention to be held in Concord, May 13 and 14. Circulars were sent to the different manufacturers of road making machinery, inviting them to exhibit their goods. Our city was asked to have their steam roller and other improved machinery on exhibition and to furnish material for those exhibiting. In response to the invitation to exhibit, the Climax Road Machine Co., of Marathon, N. Y., sent two road machines and one portable stone crusher; American Road Machine Co., Boston, Mass., a full line of street and road working machinery; F. C. Austin Manufacturing Co., Chicago, Ill., one road machine and one portable stone crusher. Although the number of machines sent were small the advantage of the improved implements for good road making was fully shown. During the first day of the convention, the portable crushers were at work on the city lot on School street, and our steam roller on Park street, which was macadamized from Main to State street. On the second day, road machines were given a trial on Penacook street. mayors, superintendents of streets, and selectmen of the towns were invited and although the attendance was small much interest was manifested.

In conclusion, I desire to return my thanks to his honor the mayor, the city council, the committees on streets and sidewalks and roads and bridges, for their many courtesies and consideration in dealing with matters relating to the highway department.

Respectfully submitted,

ALFRED CLARK,

Commissioner of Highways.

# SEWERS AND DRAINS.

# REPORT OF THE COMMITTEE ON SEWERS AND DRAINS.

#### To the City Council:

The committee on sewers and drains herewith submits its annual report of petitions presented and action taken thereon, and of the receipts and expenditures for the present year.

Permits issued, 86.

Petitions presented and action taken:

Edson J. Hill and others, Warren street, granted and built.

Robert Hall and others, Kimball street, granted and built.

Solon A. Carter and others, Thompson and South State streets, granted and built.

- J. G. Taylor and others, rear of High street, granted and built.
  - J. G. Leighton and others, Tremont street.

Charles Fairbanks and others, referred to next city government.

John B. Lemay and others, Rumford street, granted and built.

John B. Collins, for extension in Curtice avenue.

A. J. Bath and others, Wyman street, granted and built.

Susan H. Edmunds, Mills street, granted and built.

# ELECTRICAL DEPARTMENT.

# REPORT OF INSPECTOR OF ELECTRIC WIRES.

#### To his Honor the Mayor and the City Council:

I have the honor to submit herewith my second annual report. The work done during the past year, under the supervision of this department, by the several electric companies has been gratifying and cannot but be a benefit to the parties interested and to the city. While there has been considerable done in the way of improvements, there still remains much to be done under the resolutions passed by the city government December 29, 1894. In many cases this is being carried forward willingly by the officials of the different companies.

#### CONCORD LAND AND WATER POWER COMPANY.

The work done by this company since January 1, 1896, has been very largely in the direction of improving the insulation and the mechanical strength of overhead construction. has been a shortening of the total length of their circuits some seven miles, by the removal of wire which, while not dead, was unnecessarily long. A large amount of the defectively covered wire has been taken in and what remains will be removed after more urgent matters have been considered. The arc circuits have been divided into a large number of sections, to the end that an open circuit may be quickly located, and, while search for it is in progress, the service can be maintained in the remainder of the circuit. Work for a time has been mainly directed to the rearrangement of the triphase distributing apparatus, looking to the removal of the possibility of crosses between the primary and secondary circuits, and considerable has been accomplished in this direction.

The reels used in lowering and hoisting the street lamps are in many cases attached to polls too near the ground, making them dangerous to the public where they become charged with heavy currents of electricity through the accidental loosening of the wires. I hope, with your co-operation, to have these put in a safe condition as soon as possible. still remains a large number of dead or abandoned poles in the streets, which should be removed either by the Concord Land and Water Power Company or by the city. A large number of wires attached to trees vet remain, which carry heavy currents for the arc lights. My attention is frequently called to these by property owners, who have spent a long time growing the trees for shade and beauty and who feel that they should have some protection from the ruin of fire caused by the crossing of wires not properly insulated, in wet weather. In my opinion these wires should all be removed and placed on substantial poles. I recommend that the company be asked to make such changes within a reasonable time.

#### POSTAL TELEGRAPH CABLE COMPANY.

During the year 1896, this company has rebuilt its line, putting in new poles and wires from Nashua to Concord, and changing its line from the state camp ground by taking the southern side of the road, which will lessen the liability of coming in contact with Concord Land and Water Power Company wires. The Postal Telegraph Cable Company has placed substantial structures on the iron bridge. A cable box has been placed on a pole on Bridge street and a cable 1,600 feet long carries the wires from this box south on North Main street to a local office situated in Smith's block. I consider the work this company has done from the state camp ground to its office one of the best and most substantial pieces of electrical engineering in the city. The company has some changes yet to make in its call box system, which, when done, will place it in the front ranks of efficiency.

Digitized by Google

#### CONCORD STREET RAILWAY.

This company has maintained its system of wiring to a fair degree of efficiency. There has been during the year a large number of old poles removed that had become unsafe to carry the heavy wires required for work and strong new ones have been substituted in their place. Almost all the guard wire system has been overhauled and put in a fair condition. There have been new guard wires placed on Liberty street to protect the fire alarm from possible contact.

#### FIRE ALARM SERVICE.

This part of our wire system has been maintained in its usual fine state of repair and everything is being done to keep Concord ahead of anything of a like nature in the state.

#### WESTERN UNION TELEGRAPH COMPANY.

The plant of this company has been kept in its usual good condition. There seems at this time nothing for me to recommend in connection with its maintenance.

#### Consolidation of Poles.

I suggest that some arrangement be made so that one large pole could take the place of from two to six small ones. In this manner, all parties could occupy the same pole, thus doing away with such needless trouble and annoyance, as in the case of Mrs. Peter Sanborn on South Main street, or as shown at the corner of Freight and South Main streets, or at other places to which your attention might be called.

In conclusion, I think, as a whole, our electric service and construction will compare favorably with that of any other in the state. I wish to acknowledge that whatever success I may have had in the discharge of my duties as inspector is due largely to the kind support that I have received from his honor the mayor.

F. W. LANDON,

Inspector of Electric Wires.

# CITY ENGINEER.

# REPORT OF CITY ENGINEER.

Office of City Engineer, Concord, N. H., December 31, 1896.

To the City Council:

In accordance with the ordinance creating this department, I herewith present the fourth annual report for your consideration, together with a statement of the work done under its supervision, for the year ending December 31, 1896.

The cost of all sewers constructed during the past year, the repairs made and cost of same, will be found upon the following pages.

Plans for the work in hand have been made as required, the sewer plans revised, additions made, and all errors found in locations corrected. There yet remains much to do upon these plans to show the sewer system of the city as it should be. Many details were left off the plans under the old methods, which we now endeavor to show and which will be of great service in the future.

All work called for by the heads of departments has been disposed of as required.

A contour map of Rollins Park has been made, to assist the park commissioners in their system of development at this park.

Considerable time was spent at Blossom Hill Cemetery in connection with the grading done this season.

Plans for the masonry and superstructure of the Soucook River bridge, on the Pittsfield road, were made, and the bridge built jointly by the city of Concord and the town of Pembroke. A statement of the expense attending the same will be found in the report of the commissioner of highways. The "Twin bridge" at Penacook should receive your early attention, as it has passed the stage of economical repairs and is in worse shape than it was before repairs were made on it in 1894.

The map of the city has been completed from Bow line to the cemetery in West Concord. This winter we expect to plot the territory from the West Concord cemetery to the Boscawen line, giving a continuous map from Bow line to the Boscawen line and from the Merrimack river to the westerly end of Penacook.

Such time as could be spared from the work under way was devoted to the extension of the city survey.

The employés of this department for the past year have been: Frank W. Brown, assistant engineer; Carl Huntington, Fred W. Lang, transitmen; Charles H. Chandler and Joseph Odlin, rodmen, who have rendered valuable assistance in their different positions.

I wish to express my appreciation for the support given me by the mayor and the members of the city council during the past season.

The expenses of this department for the year 1895 are as follows:

Paid for	salaries	5				•			\$2,503.88
	car fare	es ar	nd liv	ery					164.16
	supplie	s	•				•	•	135.44

# PUBLIC LIBRARY.

## REPORT OF THE TRUSTEES.

## To the City Council:

The trustees of the Public Library herewith transmit the report of the librarian of that institution and ask your attentive consideration of the information and suggestions therein contained.

The report is so comprehensive and exhaustive that supplementary remarks of our own would seem to be superfluous and quite unnecessary. You will correctly infer from a perusal of this report that recent accessions to the library have established for it a high standard of excellence in almost every department of literature.

It is believed that no scholar, student, artisan, or workman, will fail to find upon its shelves information, more or less extensive, upon every subject he may desire to examine; and the unprecedented circulation of books during the last year furnishes conclusive evidence of the high appreciation by our people of the benefits which the library confers.

We cannot doubt that a liberal appropriation by the city government will enable us to continue and maintain the inestimable advantages to the community which the library affords. In submitting this report, the trustees cannot omit to record their high appreciation of the untiring industry united to an enthusiastic zeal of the librarian and her assistants, and to make thankful mention of the unvarying courtesy and kindly patience with which the wants and the very numerous inquiries of the patrons of the library have been served.

CHARLES H. SANDERS, JOHN E. FRYE, PAUL R. HOLDEN, WM. L. FOSTER, AMOS J. SHURTLEFF, JAMES S. NORRIS, WM. W. FLINT, EDSON J. HILL, MOSES H. BRADLEY.

Concord, February 7, 1897.

## REPORT OF THE LIBRARIAN.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN, —The fortieth annual report of the library is herewith presented.

A few statistics will best outline the year's growth; they are as follows:

## Volumes added during 1896:

	By	pui	chas	е.		•	•	•	•	•	916	
	By	gift	•								50	
	Per	iodi	cals	bou	nd .						.100

Give	en to	he	alth (	office	r to	be l	burne	ed				4
Incr	ease	in (	circu	latio	n ov	er 1	895	•			•	3,184

Of the 916 volumes purchased, many have been to replace long-lost copies, a large number to supersede those unwholesomely dirty, a score or more at the recommendation of teachers for their class work, and many after consultation with specialists in all lines, from theology to stone-cutting. There has been a steady endeavor to bring the department of science more up to date. The accessions of new books have been published by the *Monitor* and the *Patriot* with unvarying courtesy.

In the 90,000 books mentioned as delivered during 1896 are not included those hundreds constantly selected and taken to applicants in the reference room, or those frequently handed out to be perused in the reading room.

The increase in circulation is especially gratifying in a year when campaign clubs and bicycles were in competition with our shelves.

Concord has always had the reputation of having the largest circulation of any city in the state, exceeding Dover in 1895 by 10,000, and Manchester by 25,000, and it is to be presumed that the gain of 3,000 this last year will enable it to still keep the lead in number.

With this circulation of over 90,000 only five books have been lost and not paid for. This showing has not been reached without great effort. For example, to secure one overdue book the weekly dun by postal card was sent for a month, then a messenger dispatched twice, then the librarian went once to the boy's house and four times to his place of business. Miles have been walked and letters written even to California to trace families who have moved without keeping their written promise to give immediate notice at the library of any change of residence. The five books for which it has been impossible to get satisfaction have all been lost by persons who have simply vanished from town.

The large number of new borrowers (625) does not include transient applicants or those from out-of-town who pay for the privilege of taking books.

The chief event of the year has been the recovery of the library from what Eugene Field calls catalogitis; for July 1 the card catalogue was finished, in half the twenty-four months estimated the work would require, notwithstanding that with the shelf list or inventory made at the same time, over 50,000 cards were written. These are housed in three fine oak cases furnished by that base of supplies, the Library Bureau on Franklin street in Boston. It has already been stated that each book has its author and subject, or if fiction, its author and title card, and there are manifold cross-ref-

erences which direct a person looking at the subject electricity, for instance, to look also under the subjects electromagnets, dynamos, etc.

The card catalogue is most helpful to the library staff, and is already consulted by the public even beyond our hopes.

The pressure of work is now transferred to rearranging the volumes upon the shelves so that books relating to any one subject shall be shelved together, arranged alphabetically by the authors' names, and all the novels of any one writer will stand together in alphabetical order. This classifying requires that every one of the 20,000 volumes be taken down, its old label scraped off, a new one put on, and its new call number written three times — once on the outside label, once on the inside pocket, and once on the book slip; and the book, having been dusted, is then carried to a new shelf which has been washed.

We began this rearranging in October and are doing it without withdrawing any sections from circulation, with only an occasional extra helper, and along with our heavy winter work; and we sometimes stop to hunt for a specially demanded book among hundreds piled on the floor, but we expect by February 1 to have the whole library in order.

Another item of work accomplished has been the erasing of the old penciled call-numbers from the 35,000 cards in the catalogue.

The public will be greatly benefited by this new arrangement, for the quicker an assistant can gather an armful of books which will answer one question, the quicker she can turn to the next applicant, or the applicant himself may step in to the shelf where he will find all the resources of the library on the subject he is investigating; and the most nearly allied subjects will precede and follow.

In adopting the Dewey system of classification we fall into line with the best and largest libraries in the United States, in which it has been tried for seventeen years. The broad divisions of the system are:

- o. General Works,
- 1. Philosophy,
- 2. Religion,
- 3. Sociology,
- 4. Philology,
- 5. Natural Science,
  - 6. Useful Arts,
  - 7. Fine Arts,
  - 8. Literature,
  - 9. History.

But each class has sub-divisions; for example: 500 will be the classification number for works on all the sciences, but 510 for those on arithmetic, 520 for astronomy, 530 for physics, 540 for chemistry, 550 for geology, 560 for paleontology, 570 for biology, 580 for botany, 590 for zoology.

Accompanying this class number is the book number which prevents confusion of different works on the same subject. And the initial letter of the author's name will be the initial letter of the book-number, so that, for instance, the total call-number of a work on botany by Gray would be

580 G79.

The expansiveness of this Dewey system is such that an indefinite number of books can be added or the entire library moved without making void these new call-numbers which tell of each book what it is and where it is.

To ease the books from the crowded condition which they were in, the old book-cases in the upper stack room have been drawn into the middle of the floor and new shelves run along the side walls. This uses up all the available shelf space in the building. All borrowers have been given new cards suited to the putting down of these call-numbers, and a catalogue containing them will soon be printed of all the fiction in the library.

In order to induce people to read something besides novels, a student's card will be allowed each borrower on which he may take out one work of non-fiction at the same time he has out a story on his other card. Another year we shall have the data wherewith to register the circulation of books by classes, and can then see whether the Concord public reads more biography, science, history, or religion.

The joy the librarian feels when a child aspires or can be led to something better in his reading is as keen as that felt by a parent or teacher over an upward step, and it is an equally great pleasure to have an adult seek and find on our shelves the literary tools he craves to make him a cleverer artisan or a more profound thinker.

The confidence and kindness of the trustees and the cheerful co-operation and very arduous work of the assistants are most gratefully acknowledged.

Respectfully submitted,
GRACE BLANCHARD,
Librarian

# SANITARY DEPARTMENT.

# REPORT OF BOARD OF HEALTH.

To his Honor the Mayor and the City Council:

GENTLEMEN,—The board of health respectfully submit herewith the report of their executive officer, which summarizes the department's work during 1896. The board have held regular meetings each Saturday afternoon during the year at their office in Dutton's block. Careful attention has been given to all matters presented. Especial pains has been taken to keep Concord abreast with sanitary progress and to secure an efficient administration of the rules and regulations provided by state and municipal enactment for the protection of the public health. The board were especially interested in the conference of sanitary officers held in this city in October, and believe the state association then formed will accomplish much toward securing better enforcement of the sanitary laws as well as improvement of the code. The annual meetings of the association will be held in our city, and we wish those who feel an interest in the subject of sanitation would make an effort to be present at some or all of the sessions. former years, the board have been placed under great obligation by the courtesy and co-operation of his honor the mayor and the members of the city council.

The board again desire to record their appreciation of the work done by the executive officer of this department, Charles E. Palmer, whose interest in his work and his especial fitness for it make his services to the public each year more valuable. The board feel that his fellow-citizens appreciate his efficiency, for on many occasions unsolicited

spoken or written testimonials have been given, but they wish to call especial attention to his work during the past year as shown by the records of the department. Mr. Palmer in the twelve months of 1896 investigated 538 complaints of nuisances; inspected 712 blocks, houses, etc.; supervised the making of 83 connections with the sewers; placarded 577 cases of contagious diseases, and made 1,411 visits thereto; attended eight funerals; fumigated 150 rooms and five carriages; burned 47 pieces of bedding; issued 399 burial permits; gave 249 permits for children to return to school, and made 14 plumbing tests. The above facts show how industrious the health officer has been: we would add our testimony to the efficiency with which all of these manifold duties have been performed, and congratulate the city on having so competent and faithful an official in a position which means much to the welfare of a community. The board would especially commend Mr. Palmer's firmness in securing compliance with the regulations of the department. The public generally cooperate heartily with the officials in a careful observance of the city's sanitary code. The exceptions are very few in the course of a year. One of the most notable is the objection sometimes made to fumigation, although no duty is more clearly prescribed by the sanitary regulations than this. It has been the constant aim of the board to treat all fairly, in this matter as in all others.

#### DIPHTHERIA.

Our plan of microscopical examination in the diagnosis of diphtheria, inaugurated last year, met with the very hearty approval of the physicians and has been continued with great satisfaction this year. Prior to this innovation, a benign inflammation was not infrequently diagnosed as diphtheria with the consequent placarding of the house, quarantine, and discomfiture of the family; again, the malignant throat was not recognized until the unexpected death happened,—then the neighborhood was alarmed and our board unjustly criticised because isolation was not enforced. All this may now be obviated by making use of this method of diagnosis freely

placed at the disposal of the profession. Dr. A. K. Day has very acceptably attended to our bacteriological work since July 1. Very few outside the medical fraternity understand the meaning of rubbing a piece of wire across the inside of the throat, and it may be well to state its meaning. theria is now believed to be due to a characteristic bacillus: the wire introduced into the throat or nose comes in contact with the germs; it is then drawn across a nutrient medium in the glass tube wherein the germs develop and under the microscope are recognized. We are hereby enabled within twenty-four hours to know the nature of the membrane and, if the bacilli are not present, are assured of the person's right to mingle with others. We hope the public appreciate how much this means to them; chance has given place to certainty and a diagnosis made as accurately as science of to-day will allow.

We are rejoiced to note the more general use of antitoxine in the treatment of this disease and are able to say its results have been gratifying; out of the fifty-five cases reported to us during the year, it was used in twenty-five of them with a mortality of one, or four per cent. In the thirty cases not treated by antitoxine there was a mortality of seven, or twenty-three and one third per cent. The death-rate of all cases was fourteen and one half per cent. The cases where antitoxine were used were not selected cases but were of the usual order; in fact, the serum therapy was not resorted to in some of them until it seemed they were about to prove fatal and in the only death under its use the parents of the child refused to allow the attending physician to make the injection until it was almost certain death would ensue.

This experience is certainly worthy of publicity. The figures cannot be disputed; this so-called new treatment, other things being equal, has in our city during the past twelve months proven to be six times as efficacious in the saving of lives as the old treatment. The experimental stage has passed; its standing in medicine to-day is pronounced; our physicians are alive to the advancements of the times and are to be congratulated on their interest taken in this question.

#### MEASLES.

While along certain lines our work has become more scientific and effective, as in the management of diphtheria and scarlet fever, on the other hand the present methods in caring for measles seem to be of no avail in controlling the disease. If we are ever to obtain satisfactory results from our labor, the same rigid system must be followed as in the more severe ailments.

#### Tuberculosis.

An examination of our vital statistics reveals the deplorable fact that eight and one half per cent. of our loss has been due to this most deadly of all preventable diseases, the subject of study of medical men and sanitarians everywhere. of all infectious diseases, is the most amenable to hygienic measures for its prevention — now our only resource. encouraging feature is, that statistics show a decreasing mortality, due doubtless to an ever increasing general knowledge of the sources of danger and the true nature of the disease. The public know that to produce it, the tubercle-bacillus, the germ, must find lodgment in the human body. This may be through the air we breath, poisoned by sputa from a tuberculous subject, which has been allowed to become dry, and if pulverized floats as dust. The remedy is, to never allow it to dry in spittoons, on cloths, or in any other way. Moisture holds the germs and prevents absolutely their diffusion in the air. Attendants in sick rooms, or wherever such disease is suspected, should remove all dust from furnishings with a damp cloth and not simply float it in the air for inhalation or redistribution. Another source of danger, a very grave one, is our food supply, such as milk from tuberculous cows. This has become more criminally inexcusable now that the disease is so readily detected; but whatever general legislation is proposed there should be coupled with it certain requirements in the care of stock, pertaining to light, ventilation, etc. Dark, damp, ill-ventilated, crowded quarters favor the growth of the tubercle-bacillus in man or beast. Instruction in our public schools on this subject would greatly aid in its limitation and soon prove that the disease, terrible though it be, is not a necessary evil.

In case of death, apartments, furnishings, clothing, etc., should be thoroughly fumigated and cleaned under the direction of the health officer. In nearly all cases it is being done but there is no ordinance requiring it.

#### FUMIGATION.

Sulphur fumigation is possessed of so many disagreeable features, that we were deeply interested in the proposed use of formic aldehyde gas for the purpose, and in conjunction with Dr. Watson, of the state board of health, and our bacteriologist, Dr. Day, a series of experiments were conducted to test its efficiency.

Cultures of the Klebs-Loeffler bacillus, the germ of diphtheria, were used, but while the gas was generated in the strength supposed to be requisite, and was found far more agreeable than sulphur fumes, and harmless to everything in the room, it was also ineffective on the germs. It is hoped that by perfection of this method or some other equally unobjectionable one, sulphur fumigation may soon be relegated to the past.

#### PLUMBING.

The board would renew its recommendations of past years in regard to an inspector of plumbing, but the experience of our sister cities would seem to show that general legislation is needed as well as municipal ordinance.

E. A. CLARK, M. D.,

D. E. SULLIVAN, M. D.,

E. N. PEARSON,

Board of Health.

# REPORT OF SANITARY INSPECTOR.

## To the Board of Health:

Gentlemen,—I submit herewith my annual report, together with the vital statistics for the year ending December 31, 1896. The report deals in detail with the work done for the past year. It is the aim of this department to pay strict attention to all matters affecting the public health, and the department has been reasonably successful in bringing about good results, as this report will show. The number of requests for investigation, and complaints for existing nuisances, and those found by house inspection, are shown by the following summary:

Accumulation of decaye	d frui	t, coa	l ashe	s, etc		28
Bad well water .						3
Bad sink drainage .						19
Broken sewer traps.						23
Catch basins, not trappe	d					33
Dead animals	. •					33
Decayed meat and fish		•		•		4
Defect in house sewers					•	10
Dumping rubbish .						5
Dropping manure in stre	et					2
Defective plumbing.				•		38
Filthy stables						23
Filthy cellars		. •		. `		33
Filthy swill barrels.						9
Filthy back yards .					•	27
Filthy alleyways .						5
Foul and offensive cessp	ools					7
Keeping hogs			•			16
Keeping hens				•		5
Offensive manure heaps						11
Offensive privy vaults		•		•		19

Offensive odors in houses	•	•	•	13
Offensive odors from stables .		•		10
Privy vaults full		•		24
Private sewers obstructed .		•		7
Sinks found without traps .		•		9
Sewer gas in houses		•		8
Stagnant water on vacant lots.		•		4
Street sewer obstructed				5
Sewer not properly ventilated.		•		10
Surface sink drains				13
Throwing swill in alleyways .		•		7
Throwing swill in ash barrels.		•		4
Throwing coal ashes in street.				5
Throwing slops in catch basin.		•		4
Throwing slops in street		•		3
Water-closets without water supply	•	•		12
Water-closets not ventilated .		•		17
Water-closets foul and offensive		•		2 I
Water-closets out of repair .		•		9
Total				538

The above complaints have been duly inspected, and when justifiable an order has been issued. As a rule these orders are well complied with; the exceptions are reported to you at your weekly meetings, and an order of the board issued.

#### SANITARY INSPECTIONS.

This work has been extended during the past year over sections of the city contiguous to those inspected in 1895, and has included the business and tenement blocks in the compact part of the city. The method of carrying out this work and recording results has been the same as that instituted last year. This systematic plan of work is of great value to the board, in that it enables it to act impartially and not feel obliged to wait until someone enters a complaint, which, though often just, is sometimes made from other motives than those of sanitary reform. The following table will give the amount of work done in this connection:

Dwelling-houses in	spec	ted		•			105
Tenement houses	66						246
Stores	66		•		•		196
Stables	66						67
Meat markets	"						7
Hotels				•			3
School houses	"	•					11
Business blocks	"						11
Offices	"	•	•	•	•	•	72
						-	712

#### SEWER INSPECTION.

In compliance with the city ordinance I have endeavored to perform my duty as regards the enforcement of the rules and regulations relative to sewers and drains. In three cases parties have attempted to make connections with the main sewer without having the same inspected, but in each case they have been made to conform to the regulations, as soon as the fact became known. During the year, eighty-three sewer connections have been made, a complete record filed in the office of the board of health, and copies sent monthly to the city council. The following table shows the various sizes and kinds of pipe used:

100 feet of 10-inch Akron pipe.
228 " 6-inch "
3,322 " 5-inch "
769 " 4-inch "
365 " 5-inch iron pipe.
315 " 4-inch "
70 " 6-inch "

A total of 5,179 feet, or an average of 62 feet for each lateral sewer. This amount of drainage has been furnished to the following classes of buildings:

Private dwellings	•			•	•		46
Tenement houses							27
Business blocks							4
Stables					•		2
Surface drains.			•		-		2
Factories .	•				•		I
Churches .	•	•	•	•	•	•	1
Total			•	•	•		83
Number of water	-close	ets pu	t in d	uring	year		145
Number privy van	ults r	emove	ed .		٠.		91

It would be of much benefit if such change could be made in the city ordinances as would place the granting of permits to enter the sewer in the direct control of the inspector's office, in order that he might be informed in season to make inspection as occasion may require.

#### PUBLIC HEALTH.

The general health of the city during the year 1896 has compared favorably with previous years, the number of deaths being 343, a mortality of 14.5 per 1,000 inhabitants. The mortuary table furnishes nearly all the information that could be desired.

#### CONTAGIOUS DISEASES.

The total number of cases of diseases dangerous to the public health which have been reported to the board during the year can be seen in the following table. In the control of this public danger I have endeavored to strictly enforce the rules which were revised and adopted in 1895. The school pamphlets have been found of great service, and the thanks of the board are due the teachers in the public schools for a faithful compliance with the conditions of admitting children who have been kept out of school by reason of contagious disease.

Summary of contagious diseases and deaths from the same, for the year 1896, arranged by months.

RECORD OF CONTAGIOUS DISEASES BY WARDS.

Wards	1	2	3	4	5	6	7	8	9	Total.
Diphtheria				16	3	15	10	11	 	55
Scarlet fever	<u> </u>	<b>.</b>		2	2		ļ			4
Typhoid fever				6	3	2	4	·	l'	15
Measles	2	29	7	179	82	49	76	9	19	452

Weekly reports of the contagious diseases existing in the city have been prepared, and sent to the state board of health, also to the United States Marine Hospital Service at Washington, D. C.

#### DIPHTHERIA.

It will be seen by the above table that 55 cases have been reported with a fatality of 8, as compared with 35 cases in 1895, with the same fatality. Sixty bacteriological examinations have been made which have enabled physicians to make as early a diagnosis of the disease as possible. Of the 60 examinations 24 proved to be negative, which cases would have been held and treated as true diphtheria under the old system. Thirty-two re-examinations have been made to determine the time when it was safe to discharge the diphtheritic patients from isolation. Antitoxine has been used to some extent with excellent results in reducing the percentage of deaths to the number of cases. In only a single instance has death resulted where antitoxine has been used. The expense of the bacteriological examinations has been \$212 for year 1896.

#### SCARLET FEVER.

There have been but four cases of scarlet fever reported during the year, none proving fatal, as compared with 44 cases in 1895, with a fatality of 8. All cases were promptly isolated and its spread was thus prevented.

#### MEASLES.

Four hundred and fifty-two cases of measles have been reported to the board during the year. Between the months of September and December we experienced the greatest epidemic of this disease known in the history of the board. While no deaths resulted, many classes in school were sadly depleted. It is difficult for the board to prevent the spread of this disease on account of its extreme contagiousness and from the fact that many people look upon it as one of the necessary ills to which children are exposed, and oftentimes object to taking the necessary precaution to prevent infection, some persons even going so far as to expose their children voluntarily to the disease in order to get over with it.

#### TYPHOID FEVER.

This disease has declined in the past year; 15 cases were reported to this office during the year and 5 deaths resulted. Eight of the cases were imported, that is, the disease had been contracted elsewhere and manifested itself shortly after the patient reached our city. In only two instances where the disease existed have I found defective plumbing and general unsanitary condition of premises. In this connection, I would call attention, as in other years, to the importance of a code of plumbing rules, under the care of an inspector of plumbing.

#### SUMMARY.

Houses placarded in case of contagious di	sease		511
Visits made			1,411
Funerals attended	•		8
Roo us fumigated			150
Carriages fumigated			5
Pieces of bedding destroyed	•		41
Pounds of sulphur used in fumigating		•	520
Burial permits issued	•	•	399
Certificates issued to children to attend sch	hool		249
Peppermint tests of plumbing made.			14

#### MONTHLY REPORT.

Monthly statements have been prepared, giving the number and causes of death, death-rate per thousand, locality, sex, color, condition, age, place of burial, also number of marriages and births. These statistics have been furnished the daily papers, and sent in exchange to nearly one hundred cities in the United States and Canada.

I hereby extend sincere and heartfelt thanks to all who have aided me in the work of this department, and especially to the members of the board of health who have so ably directed my efforts.

Respectfully submitted,
CHARLES E. PALMER,
Sanitary Inspector.

Mortality Report for the Year ending December 31, 1896.

George W. Chesley,	Eri A. Poor,
George H. Silsby,	Horace Robinson,
John T. Batchelder,	George D. Worth,
W. H. H. Patch,	William R. Green,
Willie A. Little,	Samuel L. Batchelder,
W. A. Flanders,	Alvin H. Urann.
Hoit Robinson,	

#### RECOMMENDATIONS.

I would respectfully recommend that the ambulance be fitted with rubber tires; such tires are now used in many places, and our ambulance should be fitted up so that any person who should be injured could be carried to their homes or to the hospital as comfortably as possible.

The lobby at Penacook is in a wretched condition and it is wholly unfit for use.

The boiler in the police station is defective and should be replaced by a new one.

I will renew my recommendation for a stable suitable for a horse, wagon, and ambulance.

It can be built after the same architectural design as the police station for \$1,000.

In submitting my report I desire to express my gratitude to the board of police commissioners, His Honor Mayor Henry Robinson, and the city council for their considerate treatment of this department. Thanks are due to Harry G. Sargent, city solicitor, for valuable assistance rendered.

To all who have contributed to our success we extend our thanks.

To the members of the force my grateful acknowledgment and thanks are tendered, for their efficiency and promptness in the discharge of their duties.

Respectfully submitted,

G. SCOTT LOCKE,

City Marshal.

## REPORT OF THE CLERK OF POLICE COURT.

			<b>\$</b> 70.15
Paid city treasurer			<b>\$</b> 70.15

## GEORGE M. FLETCHER,

Clerk of Police Court.

CONCORD, N. H., February 15, 1897.

## REPORT OF THE CITY SOLICITOR.

To the City Council:

I hereby submit my annual report as solicitor.

The only causes in which the city was interested as a party, that were pending at the date of my last annual report were the suits of Kemp v. Concord and Mary J. Gay et al v. Concord. The first of the above suits was settled by my advice, by the payment of two hundred dollars (\$200) which, in view of the facts of the case, I regarded as a wise settlement for the city. The case of Gay v. Concord is still pending, no action having been taken by the plaintiff to bring the case to trial. During the last year, by the instruction of the city council, I have brought a few suits in favor of the city of Concord against individuals to recover taxes which were unpaid. They have nearly all been settled up and are of no public interest or importance, being for small amounts and cases where the city has no lien to enforce the payment by a sale of the property and a suit is the only remedy which the city had.

On the third day of July, 1896, by instruction of a special committee of the city government consisting of the finance committee, with the city solicitor added, I instituted suits against the bondsmen of Albert I. Foster for the years 1893, 1894, and 1895, and caused their real estate to be attached. These suits were entered at the October term of 1896 of the supreme court for this county and are still pending therein. Since the suits were brought, an offer of twenty per cent. of the amount claimed by the city was made by the bondsmen to the special committee of the city government, before referred to, and the offer was refused.

During the year advice and assistance have been furnished by me to the officers of the different departments of the city government, as requested.

HARRY G. SARGENT,

City Solicitor.

CONCORD, N. H., December 31, 1896.

# POLICE COMMISSIONERS.

## REPORTS OF POLICE COMMISSIONERS.

The quarterly reports of the board of police commissioners, summerized, are as follows for the year:

March 31, 1896. No business was transacted during this quarter.

April 28, 1896. A. F. Tandy, Henry J. Durrell, and A. C. Knowles, Jr., were appointed special police officers.

July 1, 1896. Edward C. Hussey, John G. Putnam, Horace B. Annis, and John Knowlton were appointed special police officers.

December 5, 1896. The resignation of Irving B. Robinson was received and accepted.

Thomas B. Davis was appointed regular police officer.

Samuel L. Batchelder and Rufus C. Boynton were appointed special police officers.

# ANNUAL REPORT OF THE CITY LIQUOR AGENT.

## To the City Council:

In compliance with Section 10, Chapter 112, of the Public Statutes of this state, and the resolution of the board of mayor and aldermen of May 26, 1888, establishing this agency, I respectfully report the transactions of this office for the year 1896.

City Liquor Agent.

CONCORD, N. H., January 12, 1897.

## PUBLIC PARKS.

## REPORT OF PARK COMMISSIONERS.

## To the City Council:

In accordance with the ordinance, the park commissioners submit herewith their annual report for the year ending December 31, 1896.

The appropriations were made as follows:

White Park .		•		\$3,250
Rollins Park .	•			τ,000
Penacook Park .				100
Parks and common	s.	•		550

The work of improvement during the year has been more than in other years. At White Park marked progress has been made in filling, also in the planting of trees and shrubs. However, the greatest improvement has been made at the outlet of the pond by the placing of a stone bridge. The plans were drawn by Mr. George B. Howe, and the contract was awarded to Mr. Ola Anderson for \$775 and \$2.50 a perch for the stone foundation. Nothing has been attempted which has added so much to the effectiveness and adornment of the park, and when completed with grade, and shrubbery planted, it will present a most attractive appearance.

A friend interested in the development of the park has contributed the sum of fifty dollars towards the completion of the bridge, an example which we hope some of our citizens will follow.

One of the needs of the park at the present time is an entrance and a permanent fence.

The lawns have been kept in a very attractive condition this year, and work has been facilitated by the purchase of a horse lawn mower, thus enabling more and better work to be accomplished. There has been received from the sale of wood \$116.65. Some action should be taken whereby the Rowell lot, so called, cornering on White and Beacon streets adjoining the park, could be secured, at the original cost of \$1,400. Upon this lot is a large amount of grade, and the park has already had the benefit of a large amount without cost. This has been referred to in previous reports and fully explained.

There will need to be a further appropriation for the payment of the bridge, and the question of the water supply has been considered by the park commissioners, and an appropriation will be needed to make the present supply more efficient. The use of water is a necessity during the dry months, for without it many of the shrubs and plants suffer.

It will soon be necessary to have a special policeman stationed in the park during a part of every day and a larger part of Sunday.

The use of bicycles in the park has been permitted, yet the commissioners have had many complaints in regard to same, and it is hoped when the play-ground is completed that a bicycle track will be one of the features.

With the limited appropriation that we have had from year to year, the extension and improvement of the park has been necessarily slow. When taking into consideration that within a quarter of a mile of the park, since the improvements began, there has been an increase, at a conservative estimate, of \$200,000, it is safe to say that the city has received many times over the amount that has been expended on this one park. This feature alone, it would seem, would convince the most skeptical that whatever money the city invests in its park system would be one of the best investments it could make. This has been demonstrated in many cities, and needs but a careful inquiry to satisfy one in regard to it.

We hope your honorable board will make a generous appropriation for the year 1897.

#### ROLLINS PARK.

Improvements at Rollins Park have been very marked. The appropriation has been nearly exhausted, and shows a

careful expenditure of same. The improvements do not reveal themselves to the casual observer, as an entrance to the park is needed to see all that has been done.

A very tasty and artistic bridge has been constructed, together with the planting of evergreens, shrubs, and trees; also some hundreds of ferns have been transplanted and rockeries built. The roads have been recoated and the grounds cleaned up.

It was decided to construct on the Broadway side of the park a stone wall, together with an entrance, which has improved the surroundings very materially. This work was entrusted to Mr. George E. Chesley, and has been constructed in a workmanlike manner. Fully one half of the entire length of the line on Broadway has been built.

Trees will be planted in the spring, and the improvements will go forward in accordance with the appropriations which will be made for the work.

The commissioners regret that the petition for a street on the north side of the park has been dismissed, for it will be a detriment to the park to have adjoining lots which cannot be controlled.

#### PENACOOK PARK.

Penacook Park has been under the same management as in previous years. The appropriation has not been entirely spent, the grounds have been kept in a fair condition, and have been used to some extent.

#### PARKS AND COMMONS.

The commissioners asked for a special appropriation to be made at the beginning of the year, and the amount of \$550 was appropriated for parks and commons. This was a new feature, and the idea was that certain localities in our city, which were lying idle, could be made attractive, thus extending our park system throughout the city where opportunity afforded. A special committee appointed to expend the money took the triangle on North State street, just south of the pumping station, and began operations late in the summer. The ground was stripped of loam and graded with

over seven hundred loads of filling, putting the loam back upon same; the whole work being carried on in conformity with a plan submitted by Mr. James H. Bowditch, of Boston.

The whole amount of the appropriation has been expended upon this, and there will be needed some more money to properly plant the grounds with shrubs. This the commissioners feel will prove a very attractive feature to our city, and after the first cost of developing, care can be maintained with very little expense; and it is hoped that its beauty and utility will demonstrate to our citizens the advisability of fixing up other plats from year to year.

It has been intimated that certain pieces of land will be donated to the city upon the acceptance and improvement of the same for park purposes.

The commissioners are continually reminded that there is a great lack of some place in the centre of the city where seats can be placed, and welcome given to strangers who may be tarrying in our city for a few hours. The piece of ground in the rear of the state house has been suggested as a very desirable place for such a purpose; and if arrangements could be made with the state for the use of same, the city could develop and care for it, thus, at small expense, carrying out a felt demand.

A city, in developing a park system, is doing something which will last, and from year to year grows better and more attractive. It is not so with much of the work done in other departments, for so much deteriorates from year to year; but as years go by, the park will be ever increasing in value and a gratification to the succeeding generations.

All of which is respectfully submitted.

HENRY ROBINSON, ex officio, BENJAMIN C. WHITE, WILLIS G. C. KIMBALL, BENJAMIN S. ROLFE, JOHN F. JONES, WILLIAM P. FISKE, GEORGE A. YOUNG,

Park Commissioners.

## CEMETERY DEPARTMENT.

## REPORT OF COMMISSIONERS.

To the Honorable Board of Mayor and Aldermen:

Your commissioners of cemeteries beg leave to submit the following report:

The work of last year has been carried on in much the same manner as in previous years. A large amount of grading has been done in Blossom Hill Cemetery. The gravel hill which has marred the beauty of our beautiful cemetery so long has been mostly removed. Not having sufficient funds at our command, we could not finish the work of its removal, but hope to complete it the coming year.

We have prepared no block of new lots during this year, a large one having been graded and prepared last year; but we shall be obliged to arrange another block during the coming year as a large amount have been taken during the year just ended.

The occupants of this "City of the Dead" are increasing rapidly. Our superintendent reports to us that the number of burials are but a little less than two hundred a year. Preparation must be made each year for a similar increase.

We feel it our duty to call your attention once more to the necessity of a chapel at Blossom Hill Cemetery. We need a granite structure; one that will do honor to our beautiful cemetery, and be the pride of our city.

We have endeavored to be as economical as possible, and shall expend whatever you may be pleased to appropriate for cemeteries in a manner that will warrant the closest inspection. There being no grading required at the Old North Cemetery, our work there has been mostly in repairing lots and beautifying grounds.

Whatever your appropriation may be, we shall endeavor to make it go as far as possible, yet it seems to us that it should be increased from last year.

We cannot think for a moment that any good respectable citizen ever thinks that anything is too good for the dead, or feels that taxation is burdensome, owing to too large an appropriation for this department.

Respectfully submitted,

JOHN E. ROBERTSON,
GEORGE A. FOSTER,
CHARLES S. PARKER,
OBEDIAH MORRILL,
GEORGE O. DICKERMAN,
F. P. ANDREWS,
Board Commissioners of Cemeteries.
GEORGE O. DICKERMAN,
Secretary of Board.

#### MILLVILLE CEMETERY.

## FIRE DEPARTMENT

## REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council:

I have the honor to submit the following report of the fire department for the year 1896:

The precinct department responded to twenty-six (26) box alarms and sixty-four (64) still alarms. At Penacook eight (8) alarms were responded to, at East Concord six (6), and at West Concord four (4).

In addition to these, on July 2, fire totally destroyed a set of buildings on the Loudon road, outside of precinct, an account of which will be found in the order of occurrence.

#### Box Alarms.

Box 16. January 5, 7.39 P. M. Chimney fire in residence of Emery Drew, 44 Jackson street. Needless alarm. No loss. Recall, 7.47 P. M.

#### APPARATUS AND FORCE.

The apparatus and force of the department is as follows:

Precinct, located at the Central fire station, one first-class Amoskeag engine, "Eagle," with modern hose wagon, attached to Eagle Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Kearsarge," and modern hose wagon, attached to the Kearsarge Steam Fire Engine company (13 men); one second-class Amoskeag engine, "Governor Hill," relief steamer, in charge of an engineer and fireman; one double 60-gallon tank Holloway chemical engine in charge of two permanent men; one ladder truck, "City of Concord," attached to hook and ladder company (21 men). There are ten horses owned by the city kept at this station. The precinct companies have swing harnesses upon all apparatus except steamers. There are six permanent men located at the Central station and one permanent man at each hose house within the precinct.

The Alert Hose company (11 men), located on Washington street, has a modern hose wagon with permanent man and horse.

The Good Will Hose company (II men), located on the corner of Concord and South State streets, has a modern hose wagon with permanent man and horse.

Veterans' Auxiliary company (29 men).

The "Pioneer" steamer, at Penacook (28 men), is a fourth-class Silsby, with hose wagon.

The Cataract company (30 men), at West Concord, has a Hunneman 6-inch cylinder hand-engine, and a second-class 4-wheel reel, Amoskeag make, drawn by one horse, and provided with swing harness.

Old Fort, at East Concord (30 men), has a 5-inch cylinder Hunneman hand-engine.

While the net loss by fire has been far in excess of that for the preceding year the city can be regarded in no other light than very fortunate, as the loss outside of that suffered by the destruction of the Prescott Piano Factory has been very small.

The apparatus is in good condition. During the year the hose wagons "Alert" and "Good Will" have been thoroughly repaired, retouched, and varnished.

One new hose wagon has been purchased and placed in service at Penacook. Two horses, one three-way Deluge set, and four hose jackets have also been purchased.

One horse has become incapacitated through age to properly perform the arduous duties sometimes demanded of a fire department horse. This horse has run with the department a great many years, and has been an unusually intelligent and faithful animal. I respectfully recommend that it be loaned or given to the highway department, which would insure good care and light work for the remainder of life.

The department is destitute of service hats, and I respectfully recommend the purchase of five dozen aluminum hats. Also the purchase of one thousand feet of fabric hose, and one pair of horses.

\*Brick, cemented.

The fire-alarm telegraph system is in good condition. All of the outside boxes have been rewired. All of the fire stations within the precinct have been rewired. All of the hard drawn copper main line has been removed and iron wire substituted. One mechanical tapper and thirteen direct action tappers have been added to the system and the main line has been extended two miles.

The direct action tappers are owned by the members of the department, the city wiring to, and maintaining, them. This work was expensive, but it was necessary and has improved the service. It can therefore be regarded as money well expended.

As predicted in the last report, the extension call-bell system has been discarded and the main line removed. Prior to December, the gravity battery had been increased from 182 cells to 208 cells, when it was displaced by the storage system. There are now 190 storage cells, 95 being in service on alternate days.

There are large areas in the city unprotected by fire-alarm boxes, and I respectfully recommend that three boxes, at least, be added to the system during the coming year.

A storage battery plant and appurtenances has been purchased. By contracting for this plant at so early a date a saving of four hundred and twenty-five dollars was effected.

The thanks of the community are due to the fire department committee for being open to conviction, for so promptly investigating the merits of the storage system, and to the city government, for so promptly adopting and carrying out their recommendations.

Respectfully submitted,

W. C. GREEN, Chief Engineer.

### HISTORY COMMISSION.

In answer to the popular dendand that a history of Concord be written, which should comprise not only the period covered by Bouton's excellent history, which closes with 1853, but also the events and progress made since that time, the city government appointed a commission to superintend the execution of this public work. It is now nearly half a century since any attempt has been made to preserve in permanent form and put in readable shape the events which constitute the history of the capital city of New Hampshire. Even Bouton's history, which deals only with Concord as a town, is not in general circulation and is now a rare volume, readily commanding from \$10 to \$15 per copy. Other towns and cities of the state, with commendable public spirit, have had prepared their histories, and the capital city, rich as it is in material, should not be behind hand in carrying to completion its present worthy undertaking.

The history commission has given to the consideration of this subject much time and thought, has heard with patience all suggestions, and has sought information from all quarters. In the preparation of the history, the commission desired to avail itself of the services of all those who are qualified for this work, and, in the division of the history, for the history is to be comprised in one volume, it has been thought best to devote from one third to one half of the book to a narrative or outline history of Concord and the remainder of the volume to special topics, in which those events and characteristics of the city deserving special attention could be amplified more than in an ordinary narrative. In doing this, it has followed in part the plan of that most excellent work, the Memorial History of Boston.

The commission has had in mind constantly, in the preparation of this work, the question of expense and it hopes to have prepared and published a work which will ultimately pay for itself. Several writers to whom special topics have been assigned will contribute their services. A good part of the history is already nearing the point of completion. Some parts are already done. There is yet some preliminary work to be completed before the commission issues its prospectus and invites subscriptions. The interest of the citizens in this work is fully shown by the requests already made by citizens for opportunity to subscribe for the work. The commission has every reason to believe that the demand for the history will be sufficient to pay for its writing, compilation, and publication.

JAMES O. LYFORD, Secretary.

### AUDITOR'S REPORT.

To the City Council:

The city auditor is required by the ordinance creating his office to prepare for publication the annual report of the city, and to have it ready for distribution on or before March 1, following the close of the financial year. It has been the practice for a number of years to keep open the treasurer's books after the first of January, that all sums due to the city for the preceding year may be collected and that all outstanding claims may be settled. This practice has been followed for the year 1896, and the books were not closed until the latter part of January, 1807. This leaves but a brief time in which to compile and print the report. It has been impossible for the auditor to hold any part of the report for comparison and verification with any other part and have the published report ready for distribution at the time specified in the ordinance. Unless the time for the distribution of the report is fixed at a later date, it would be advisable hereafter to close the books at an earlier date in January, and report the claims unpaid as outstanding.

In accordance with the spirit of the auditor ordinance and by direction of the committee on finance, the several departments of the city have been required to present their bills to the auditor for approval, and the claimants have been required to present the orders received therefor to the city treasurer for payment. Prior to the passage of this ordinance, it was the custom for the treasurers of the several departments, or their executive officers, to draw the money in bulk and disburse it, returning receipted bills and pay-rolls as vouchers for such payments. Except in case of a few of the suburban highway districts, the present system of having all payments made by the city treasurer is without serious inconvenience to anyone, and is in accord with the methods in vogue in other municipalities.

The auditor is required to prepare estimates for appropriations for each financial year, and to submit the same to the committee on finance. In calling for these estimates, the several departments have been requested to furnish the estimates in detail instead of asking for a lump sum for the use It is suggested that the appropriations in of the department. like manner be made in detail. If this course is followed, appropriations made for one purpose cannot be used for another. The city government is then brought into closer touch with the departments in regard to their expenditures, and, in the case of purchases unprovided for at the beginning of the fiscal year, the department will be obliged to come to the city council to obtain a specific appropriation. priations are made in detail, there is not that inducement to make unnecessary purchases that arises where an appropriation is for a round sum, to be expended at the discretion of the department.

Some of the departments keep an itemized account of their expenditures, and know the condition of their appropriations at all times in the year. Others have no knowledge of the standing of their appropriations until they are notified by the auditor that the appropriation is exhausted. It is only by keeping track of its appropriations that a department is able to tell whether the appropriations originally granted by the city government will be exceeded before the close of the fiscal year.

I have the honor to submit herewith a final report of the accounts of Albert I. Foster, tax collector, for the years 1893, 1894, and 1895, showing the amount of deficit for each year, the amount due from the bondsmen in accordance with the settlement authorized by the city council, the loss to the city, and the collections made of the uncollected taxes by George A. Foster, who was elected tax collector for the purpose of completing the collections of these years.
